**Working South** Mary Whyte,2012-12-12 In Working South, renowned watercolorist Mary Whyte captures in exquisite detail the essence of vanishing blue-collar professions from across ten states in the American South with sensitivity and reverence for her subjects. From the textile mill worker and tobacco farmer to the sponge diver and elevator operator, Whyte has sought out some of the last remnants of rural and industrial workforces declining or altogether lost through changes in our economy, environment, technology, and fashion. She shows us a shoeshine man, a hat maker, an oysterman, a shrimper, a ferryman, a funeral band, and others to document that these workers existed and in a bygone era were once ubiquitous across the region. When a person works with little audience and few accolades, a truer portrait of character is revealed, explains Whyte in her introduction. As a genre painter with skills and intuition honed through years of practice and toil, she shares much in common with the dedication and character of her subjects. Her vibrant paintings are populated by men and women, young and old, black and white to document the range Southerners whose everyday labors go unheralded while keeping the South in business. By rendering these workers amid scenes of their rough-hewn lives, Whyte shares stories of the grace, strength, and dignity exemplified in these images of fading southern ways of life and livelihood. Working South includes a foreword by Martha Severens, curator of the Greenville County Museum of Art in Greenville, South Carolina.

**Cantata No. 80 -- Ein feste Burg ist unser Gott** Johann Sebastian Bach,1999-11-23 Ein feste Burg ist unser Gott, Cantata No. 80, by Johann Sebastian Bach, was composed in Leipzig, Germany for Reformation Day and was first performed between 1727 and 1731. Gott, or A Mighty Fortress is Our God. German and English text.

Marketing Models Dawn Iacobucci, 2012-09 One of the larger challenges of teaching modeling is the issue of balancing quantitative skill sets with qualitative concepts. Students require familiarity with specific mathematical concepts and formulas in order to perform basic tasks. This is a topic that is being taken very seriously in the discipline. Many companies routinely collect massive amounts of customer data, which requires marketing modelers to translate that data into information that may be used to make fact-based strategic and tactical decisions. Marketers are being challenged to illustrate and demonstrate the financial return and measurement of their actions and marketing dashboards and metrics are becoming more important. This book was itself designed in part from a customer perspective, and each chapter also covers a marketing topic using the optimal methods.

*Mediation Analysis* Dawn Iacobucci, 2008-04 Explores even the fundamental assumptions underlying mediation analysis
