Assistive Technology for Visually Impaired and Blind People Marion Hersch, Michael A

Johnson, 2010-05-12 Equal accessibility to public places and services is now required by law in many countries. For the vision-impaired, specialised technology often can provide a fuller enjoyment of the facilities of society, from large scale meetings and public entertainments to reading a book or making music. This volume explores the engineering and design principles and techniques used in assistive technology for blind and vision-impaired people. This book maintains the currency of knowledge for engineers and health workers who develop devices and services for people with sight loss, and is an excellent source of reference for students of assistive technology and rehabilitation.

An Index to Articles Published in The Etude Magazine, 1883-1957, Part 1 Pamela Richardson

Dennis,2011-01-01 As America's geography and societal demands expanded, the topics in The Etude magazine (first published in 1883) took on such important issues as women in music; immigration; transportation; Native American and African American composers and their music; World War I and II; public schools; new technologies (sound recordings, radio, and television); and modern music (jazz, gospel, blues, early 20th century composers) in addition to regular book reviews, teaching advice, interviews, biographies, and advertisements. Though a valued source particularly for private music teachers, with the de-emphasis on the professional elite and the decline in salon music, the magazine ceased publication in 1957. This Index to the articles in The Etude serves as a companion to E. Douglas Bomberger's 2004 publication on the music in The Etude. Published a little over fifty years after the final issue reached the public, this Index chronicles vocal and instrumental technique, composer biographies, position openings, department store orchestras, the design of a successful music studio, how to play an accordion, recital programs in music schools, and much more. The Index is a valuable tool for research, particularly in the music culture of American in the late nineteenth and early twentieth centuries. With titles of these articles available, the doors are now open for further research in the years to come. The Index is published in two parts and sold as a set for \$250.00.

The Collected Short Stories of Conrad Aiken Conrad Aiken,2015-06-02 This indispensable volume, which includes the classic stories "Silent Snow, Secret Snow" and "Mr. Arcularis," is a testament to the dazzling artistry of one of the twentieth century's most influential writers A young woman passes through the countryside to visit her dying grandmother for a final time. A cabbie, exhausted from a long day's work, fights to get an intoxicated woman out of his taxi. A man on his way to a bachelor party tries to come to grips with the brutishness that lies within every gentleman—and finds that Bacardi cocktails do nothing to help. A master craftsman whose poetry and prose offer profound insight into the riddle of consciousness, Conrad Aiken thrills, disturbs, and inspires in all forty-one of these astute and eloquent tales.

Yma Sumac Nicholas E. Limansky,2008 Half the range of the piano keyboard! At last a serious critical examination of the utterly unique vocalist celebrated for her four-octave voice, Yma Sumac! A confounding, sometimes heartbreaking, mixture of absurd show-biz hype, stunning virtuosity, and sometimes ravishing artistry, Yma Sumac was a firmly established recording artist of the folk music of her native Peru when she came to America to be discovered. And discovered she was-by the publicity department of Capitol Records and the Exotica pop music maestro Les Baxter. From there her story becomes ever more tangled and weird-and deeply interesting. Yma herself is an amazingly contradictory mix. Nicholas Limansky (a formally trained professional singer) is able to demonstrate that she was

startlingly sophisticated technically even though almost entirely self-taught. What is perhaps even more astonishing than the celebrated 4-octave range of her voice-and its effortless clarity and sweetness-was the nearly incredible longevity-fully 4 decades!-of her ability to command it. With the enthusiastic collaboration of her quixotic, charming, slightly rascally husband, she went along with the corruption of her artistic identity by the gleefully amoral record-company publicists, creators of her public persona-Inca Princess (sometimes Priestess!)-from a primitive mountain tribe (or, sometimes, descended from a line of kings that was said to go back several hundred years before there were any Incas)! Imperious as any diva with her intimates and musical collaborators, she maintained an unassailable dignity and unaffected graciousness as a performer and in relation to her fans. All documented in this large, lavishly illustrated volume-an extensively researched biography (her birth date established once and for all!), many personal anecdotes of her intimates, technical discussions of her voice and her music, generous excerpts from reviews and priceless examples of publicity material. About the author: Nicholas E. Limansky studied voice at Peabody Conservatory in Baltimore and has a performance degree from the University of West Virginia. He has sung with The Bach Aria Group, Musica Sacra, New York Choral Artists (of the New York Philharmonic), and the Opera Orchestra of New York. He reviews new vocal releases of historical singers for Opera News, The Record Collector, Classical Singer and Opera Quarterly. His vocal specialty is the acuto-sfogato (extended-vocal-range) soprano. His work on Yma Sumac has covered nearly three decades.
