A Tale of Two Cities Illustrated by (Hablott Knight Browne (Phiz)) Charles Dickens,2021-04-11 A Tale of Two Cities (1859) is the second historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. It depicts the plight of the French proletariat under the brutal oppression of the French aristocracy in the years leading up to the revolution, and the corresponding savage brutality demonstrated by the revolutionaries toward the former aristocrats in the early years of the revolution. It follows the lives of several protagonists through these events, most notably Charles Darnay, a French once-aristocrat who falls victim to the indiscriminate wrath of the revolution despite his virtuous nature, and Sydney Carton, a dissipated English barrister who endeavours to redeem his ill-spent life out of love for Darnay's wife, Lucie Manette.

The Sea Wolves Lars Brownworth,2014-12-09 In AD 793 Norse warriors struck the English isle of Lindisfarne and laid waste to it. Wave after wave of Norse 'sea-wolves' followed in search of plunder, land, or a glorious death in battle. Much of the British Isles fell before their swords, and the continental capitals of Paris and Aachen were sacked in turn. Turning east, they swept down the uncharted rivers of central Europe, captured Kiev and clashed with mighty Constantinople, the capital of the Byzantine Empire. But there is more to the Viking story than brute force. They were makers of law - the term itself comes from an Old Norse word - and they introduced a novel form of trial by jury to England. They were also sophisticated merchants and explorers who settled Iceland, founded Dublin, and established a trading network that stretched from Baghdad to the coast of North America. In The Sea Wolves, Lars Brownworth brings to life this extraordinary Norse world of epic poets, heroes, and travellers through the stories of the great Viking figures. Among others, Leif the Lucky who discovered a new world, Ragnar Lodbrok the scourge of France, Eric Bloodaxe who ruled in York, and the crafty Harald Hardrada illuminate the saga of the Viking age - a time which "has passed away, and grown dark under the cover of night".

A Tale of Two Cities + Great Expectations Charles Dickens,2022-05-25 A Tale of Two Cities and Great Expectations are two most beloved novels by Charles Dickens. Tale of Two Cities is a novel set in London and Paris before and during the French Revolution. The main characters – Doctor Alexandre Manette, Charles Darnay, and Sydney Carton – are all recalled to life, or resurrected, in different ways as turmoil erupts. Great Expectations centers around a poor young man by the name of Pip, who is given the chance to make himself a gentleman by a mysterious benefactor. Great Expectations offers a fascinating view of the differences between classes during the Victorian era, as well as a great sense of comedy and pathos. Charles John Huffam Dickens (1812 – 1870) was an English writer and social critic. He created some of the world's most memorable fictional characters and is generally regarded as the greatest novelist of the Victorian period. During his life, his works enjoyed unprecedented fame, and by the twentieth century his literary genius was broadly acknowledged by critics and scholars. His novels and short stories continue to be widely popular.

The Chaplain's War Brad R Torgersen,2014-10-07 ORIGINAL TRADE PAPERBACK. A chaplain serving in Earth's space fleet is trapped behind enemy lines where he struggles for both personal survival and humanity's future. The mantis cyborgs: insectlike, cruel, and determined to wipe humanity from the face of the galaxy. The Fleet is humanity's last chance: a multi-world, multi-national task force assembled to hold the line against the aliens' overwhelming technology and firepower. Enter Harrison Barlow, who like so many young men of wars past, simply wants to serve his people and partake of the grand adventure of military life. Only, Harrison is not a hot pilot, nor a crack shot with a rifle. What good is a Chaplain's Assistant in the interstellar battles which will decide the fate of all? More than he thinks. Because while the mantis insectoids are determined to eliminate the human threat to mantis supremacy, they remember the errors of their past. Is there the slightest chance that humans might have value? Especially since humans seem to have the one thing the mantis explicitly do not: an innate ability to believe in what cannot be proven nor seen God. Captured and stranded behind enemy lines, Barlow must come to grips with the fact that he is not only bargaining for his own life, but the lives of everyone he knows and loves. And so he embarks upon an improbable gambit, determined to alter the course of the entire war. About Chaplain's War: Torgersen mixes the spiritual aspects of the book with subtlety, integrating questions about God and faith into the story organically. Charles Dickens and the Great Theatre of the World Simon Callow,2012-08-07 A short biography of Charles Dickens by acclaimed actor and writer Simon Callow that offers a fresh perspective on one of the greatest novelists in the English language in a lively, highly readable account. It has all the gusto that a popular biography of Dickens—a man who “could do nothing by halves”—should possess. . . . The best biography for Dickens newcomers and a wonderful read for all.—Library Journal Dickens was one of the first true celebrity authors. Thousands of fans in Britain and America eagerly awaited each new installment of his stories and flocked to see him on his legendary speaking tours. Not only did he create an incredible cast of characters on the page, but he was also a dazzling mimic and storyteller, and he wrote, stage-managed, and acted in plays for the public. Throughout his life, from his childhood performances in pubs to his legendarily powerful reading tours,

Dickens was fanatical about the stage. Callow reveals Dickens's genius on and off the page and offers a compelling insight into a life that was driven as much by performance and showmanship as by literature.

A Tale of Two Cities in Arabic Translation Fatima Muhammad Muhaidat,2009-09 This study investigates the problems translators encounter when rendering features of Dickens's style in A Tale of Two Cities into Arabic. Examples of these features are singled out and analyzed. Then, they are compared with their counterparts in published translations of the novel in Arabic. The comparisons depend on back translation to give non-readers of Arabic a clear idea about the similarities and differences between the source text and target one(s). The features under focus are sound effects, figurative language, humor, repetition, and the French element. The discussion dedicated to onomatopoeia, alliteration, and rhyme shows that there is no one-to-one correspondence between English and Arabic in reflecting these linguistic phenomena. Translators may resort to techniques like rewording or paraphrasing to convey their propositional content at the expense of their sound effects. Problems also arise when rendering figurative language into Arabic. Various images in the novel are substituted by different ones that convey similar meanings in Arabic. Some of them are deleted or reduced to their propositional content. In addition, footnotes are used to convey cultural aspects. Translating humor shows the role context plays in facilitating the translator's task. Techniques of translating humor conveyed via substandard English are noted. The researcher also discusses translating humor that depends on background knowledge that the target text readers may not be familiar with. Further translation issues are noticed when rendering repetition. Some linguistic asymmetries between English and Arabic make translators dispense with repetition and resort to synonymy, collocations, and constructions that fit in Arabic. More problems arise when rendering the French element in various names, titles, and what might be considered as literal translations of French speech. Throughout the discussion suggestions are made to bring about more adequate renderings. This study also discusses the novel as a metaphor of translating. Many aspects of the novel are comparable to the translation process. Relationships among various characters provide a perspective from which the relationship between authors, translators/readers, and text can be seen. Finally, the significance of some examples of inter-language communication in the novel is pointed out.

Audiobooks, Literature, and Sound Studies Matthew Rubery,2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877, the earliest machine to enable the reproduction of the human voice. Recent advances in sound technology make this an

opportune moment to reflect on the evolution of our reading practices since this remarkable invention. Some questions addressed by the collection include: How does auditory literature adapt printed texts? What skills in close listening are necessary for its reception? What are the social consequences of new listening technologies? In sum, the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways. Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology, this collection spans the earliest adaptations of printed texts into sound by Charles Dickens, Thomas Hardy, and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty-first century. As the voices gathered here suggest, it is time to give a hearing to one of the most talked about new media of the past century.
