Historia de la República Dominicana Frank Moya Pons,2010

Historia de la nación dominicana Leonardo Conde,2016 Este libro ofrece un bosquejo de la historia de la nación dominicana (mejor conocida como la República Dominicana), relatada de un modo objetivo y sucinto. Está basado en sucesos que provienen de los relatos o documentos aportados por historiadores citados al narrarlos, aunque dando preferencia a los historiadores contemporáneos de la época en que ocurrieron o que han rectificado la version de algún suceso, salvo por la precaución de que, cuando hay más de una versión, se presentan las diferentes versiones en la narración misma o en una nota al pie de la página. Pero el libro tampoco constituye una mera narración de sucesos. Este también ofrece, ya sea en la narración misma o en las notas al pie de la página, las interpretaciones de diferentes historiadores de los sucesos más críticos y aun las nuestras cuando diferimos de ellas.

PRESENTACIÓN El 21 de diciembre de 1511 se produjo uno de los acontecimientos con mayor repercusión moral en la historia contemporánea. En la isla la Española (hoy República Dominicana), el dominico Fray Antón de Montesinos pronunció un sermón el IV domingo de Adviento. Esta intervención denunciaba el abuso de algunos encomenderos españoles sobre las poblaciones indígenas. Y apelaba a su dignidad humana para exigir mejor trato. **APORTACIÓN FUNDAMENTAL** La presente obra conmemora este hecho reinterpreta y analizando estas doctrinas ético-políticas y su influencia en nuestros días. Sin duda esas doctrinas son el antecedente de los Derechos Humanos.

They Forged the Signature of God Viriato Sención,1995 This vivid exposé of corruption and political tyranny in the Dominican Republic rang so true to the reality that the President of that country went on television to denounce the book. Sención's novel follows the lives of three seminary students who suffer from church-state oppression. The book also gives a chilling portrait of Dr. Ramos, a sinister autocrat, who manages to survive six terms as president of his country through manipulation and tyranny.

How Tia Lola Came to Stay Julia Alvarez,2002-08 For use in schools and libraries only. Miguel embarks on a journey of self-discovery when Tia Lola, his eccentric aunt from the Dominican Republic, comes to live with them after his Mami's divorce.

World Order Henry Kissinger,2015 World Order is the summation of Henry Kissinger's thinking about history, strategy and statecraft. As if taking a perspective from far above the globe, it examines the great tectonic plates of history and the motivations of nations, explaining the attitudes that states and empires have taken to the rest of the world from the formation of Europe to our own times. Kissinger identifies four great 'world orders' in history - the European, Islamic, Chinese and American. Since the end of Charlemagne's empire, and especially since the Peace of Westphalia in 1648, Europeans have striven for balance in international affairs, first in their own continent and then globally. Islamic states have looked to their destined expansion over regions populated by unbelievers, a position exemplified today by Iran under the ayatollahs. For over 2000 years the Chinese have seen 'all under Heaven' as being tributary to the Chinese Emperor. America views itself as a 'city on a hill', a beacon to the world, whose values have universal validity. How have these attitudes evolved and how have they shaped the histories of their nations, regions, and the rest of the world? What has happened when they have come into contact with each other? How have they balanced legitimacy and power at different times? What is the condition of each in our contemporary world, and how are they shaping relations between states now? To answer these questions Henry Kissinger draws upon a lifetime's historical study and unmatched experience as a world statesman. His account is shot through with observations about how historical change takes place, how some leaders shape their times and others fail to do so, and how far states can stray from the ideas which define them. World Order is a masterpiece of narrative, analysis and portraits of great historical actors that only Henry Kissinger could have written.
