**Viaggio sulla luna** Antonio Costa, 2018-12-03T00:00:00+01:00 Il libro è dedicato all'analisi di uno dei film più famosi della storia del cinema: *Voyage dans la Lune* di Georges Méliès (1902). Partendo dal paradosso che tutti conoscono l'icona della luna colpita dall'obice, ma pochissimi hanno dedicato al film l'attenzione che merita, il volume conduce per mano il lettore alla conoscenza del contesto produttivo (il cinema primitivo), della personalità del suo autore e delle sue straordinarie invenzioni. La struttura è la stessa del libro di Elena Dagrada su *The Great Train Robbery* di Porter, con una novità: un'appendice dedicata a due opere recenti che, nel nuovo millennio, hanno rinnovato il mito del piccolo film del grande Méliès: *Hugo Cabret* di Martin Scorsese (2011) e *Journey to the Moon* (2003) di William Kentridge.

*Making Space Public in Early Modern Europe* Angela Vanhaelen, Joseph P. Ward, 2013-04-26 Broadening the conversation begun in *Making Publics in Early Modern Europe* (2009), this book examines

how the spatial dynamics of public making changed the shape of early modern society. The publics visited in this volume are voluntary groupings of diverse individuals that could coalesce through the performative uptake of shared cultural forms and practices. The contributors argue that such forms of association were social productions of space as well as collective identities. Chapters explore a range of cultural activities such as theatre performances; travel and migration; practices of persuasion; the embodied experiences of lived space; and the central importance of media and material things in the creation of publics and the production of spaces. They assess a multiplicity of publics that produced and occupied a multiplicity of social spaces where collective identity and voice could be created, discovered, asserted, and exercised. Cultural producers and consumers thus challenged dominant ideas about just who could enter the public arena, greatly expanding both the real and imaginary spaces of public life to include hitherto excluded groups of private people. The consequences of this historical reconfiguration of public space remain relevant, especially for contemporary efforts to meaningfully include the views of ordinary people in public life.

Journey Through the Impossible Jules Verne,2010-04-06 This is the first complete edition and the first English translation of a surprising work by a popular French novelist whose work continues to delight readers to this day.

*A Voyage to Arcturus* David Lindsay,2022-11-04 If you're interested in science fiction but crave something with a little more intellectual heft than your typical space opera, give David Lindsay's *A Voyage to Arcturus* a try. Widely praised by critics as one of the most philosophically advanced science fiction novels, the book follows two intrepid spiritual seekers through a series of remarkable interstellar adventures. **Inventing the Garden** Matteo Vercelloni, Virgilio Vercelloni, Paola Gallo, 2010 The authors trace the evolution of the Western garden from the first plots cultivated for pleasure in the Middle East to today's diverse green spaces that challenge traditional ideas about what constitutes a garden. They examine the changing attitude toward nature--as something to be dominated or embraced, ordered or allowed to range freely, exploited or conserved. Examples of the highly prescribed hortus conclusus or enclosed spaces of the Middle Ages are found in the Italian Renaissance gardens and the symmetries of Versailles and Les Tuileries. After the rise of Romanticism in the late eighteenth century, English gardeners such as William Kent and Capability Brown embraced the concept that nature should prevail over man's manipulation of it and created gardens that broke through traditional enclosures. A century later, while the American West witnessed both the conquering spirit of the homesteaders and the first stirrings of the conservation movement, urban parks and gardens were created as oases to which all people had access. The book concludes with a look at contemporary gardens, where efforts to reclaim landscapes and repurpose crumbling infrastructure are taking place within an atmosphere of ecological sensitivity--appreciating the idea that the whole planet is a garden and all who live in it are gardeners.

*Journey to the Center of the Earth* Jules Verne, 2009-09-01 One day, a mysterious note fell from one of my uncle's ancient manuscripts. This note contained the clue that would guide a man to the center of the planet. My uncle was determined to follow the clue and discover what no man had found before. Our discoveries are brought to life in this striking graphic novel adaptation. Graphic Planet is an imprint of Magic Wagon, a division of ABDO Group. Grades 5-8.
