The Authentic Swing Steven Pressfield, 2013-09-24 The Story Behind THE LEGEND OF BAGGER VANCE If you've read his books THE WAR OF ART and TURNING PRO, you know that for thirty years Steven Pressfield (GATES OF FIRE, THE AFGHAN CAMPAIGN etc.) wrote spec novel after spec novel before any publisher took him seriously. How did he finally break through? Ignoring just about every rule of commercial book publishing, Pressfield's first novel not only became a major bestseller (over 250,000 copies sold), it was adapted into a feature film directed by Robert Redford and starring Matt Damon, Will Smith, and Charlize Theron. Where did he get the idea? What magical something did THE LEGEND OF BAGGER VANCE have that his previous manuscripts lacked? Why did Pressfield decide to write a novel when he already had a well established screenwriting career? How does writing a publishable novel really work? Taking a page from John Steinbeck's classic JOURNAL OF A NOVEL, Steven Pressfield offers answers for these and scores of other practical writing questions in THE AUTHENTIC SWING.

Building and Using Comparable Corpora Serge Sharoff, Reinhard Rapp, Pierre Zweigenbaum, Pascale Fung, 2013-12-13 The 1990s saw a paradigm change in the use of corpus-driven methods in NLP. In the field of multilingual NLP (such as machine translation and terminology mining) this implied the use of parallel corpora. However, parallel resources are relatively scarce: many more texts are produced daily by native speakers of any given language than translated. This situation resulted in a natural drive towards the use of comparable corpora, i.e. non-parallel texts in the same domain or genre. Nevertheless, this research direction has not produced a single authoritative source suitable for researchers and students coming to the field. The proposed volume provides a reference source, identifying the state of the art in the field as well as future trends. The book is intended for specialists and students in natural language processing, machine translation and computer-assisted translation.
