Long Road Home Kandace Kay, 2013-07-26 My husband, Mark, had always suffered from depression, but during the winter and spring of 2008 it began to get worse. After he went missing for twenty-five hours, a frantic search began—and ended when Mark was found dead in his car. My three kids and I struggled to cope with our loss; the pain was unbearable. For the past seven years I have been on a journey that has taken me through tragedy and spiritual healing. Through a series of events, I was drawn to Lily, a gifted medium. From that point on, my life changed completely. I learned things I would have never thought possible—such as the fact that life continues after death. I learned Mark was in the gray space and hadn't gone into the light. I also learned I had another purpose, or, as Lily put it, "the divine has a greater purpose for you, and you're the best candidate to help those who are in between realms." Through this incredible journey of loss and survival, I found this undying faith in the heart of darkness—recognizing this as Mark's gift.

Still Life with Bones Alexa Hagerty, 2023-03-14 New York Times Book Review Editors' Choice • An anthropologist working with forensic teams and victims' families to investigate crimes against humanity in Latin America explores what science can tell us about the lives of the dead in this haunting account of grief, the power of ritual, and a quest for justice. "Absorbing . . . multifaceted and elegiac . . . *Still Life with Bones* captures the ethos that

drives the search—often tireless and against the odds—for truth.”—The New York Times “Exhumation can divide brothers and restore fathers, open old wounds and open the possibility of regeneration—of building something new with the ‘pile of broken mirrors’ that is memory, loss, and mourning.” Throughout Guatemala’s thirty-six-year armed conflict, state forces killed more than two hundred thousand people. Argentina’s military dictatorship disappeared up to thirty thousand people. In the wake of genocidal violence, families of the missing searched for the truth. Young scientists joined their fight against impunity. Gathering evidence in the face of intimidation and death threats, they pioneered the field of forensic exhumation for human rights. In *Still Life with Bones*, anthropologist Alexa Hagerty learns to see the dead body with a forensic eye. She examines bones for marks of torture and fatal wounds—hands bound by rope, machete cuts—and also for signs of identity: how life shapes us down to the bone. A weaver is recognized from the tiny bones of the toes, molded by kneeling before a loom; a girl is identified alongside her pet dog. In the tenderness of understanding these bones, forensics not only offers proof of mass atrocity but also tells the story of each life lost. Working with forensic teams at mass grave sites and in labs, Hagerty discovers how bones bear witness to crimes against humanity and how exhumation can bring families meaning after unimaginable loss. She also comes to see how cutting-edge science can act as ritual—a way of caring for the dead with symbolic force that can repair societies torn apart by

violence. Weaving together powerful stories about investigative breakthroughs, histories of violence and resistance, and her own forensic coming-of-age, Hagerty crafts a moving portrait of the living and the dead.

Long Road to Hero Mike Haszto, 2010-12-31 Joe is your average guy, who has led an average life. Or quite possibly, there could be more, much more. But he would never tell anyone that. He possesses the talents of being in the right place at the right time. Or does he? He's not afraid to speak his mind, no matter the place and the time. Joe is one of those magical guys who came from an era when the world was vastly less complex and complicated. And while the rest of the world evolved in their way, he evolved too, but not in the same direction. He was born his own person, grew up his own person, and lived his life on his terms. The people who engage in his life are as special as he is. Through the crossroads and intersections of their lives, everyone comes to the realization that it is, indeed, a long road to hero.

Tracks to Infinity, The Long Road to Justice Marc Pruyn, Curry Malott, Luis Huerta-Charles, 2020-05-01 Whereas *This Fist Called My Heart*, the first Peter McLaren reader (2016), offers a window into the development and reorientation of McLaren's work over time, *Tracks to Infinity* emphasizes the significance of orientation in his contemporary work. McLaren's earlier work was oriented toward the idea of a contradictory postmodern subjectivity located outside the increasingly fragmented, indeterminate late capitalist society. If the concept of the critical subject or change agent is perceived to be

simultaneously located both inside and outside of the world that exists, however mundane, it begins to appear as a utopian or idealist construction. While discourse is indeed important, locating the revolutionary potential exclusively within the abstract realm of language or the sign can lead to a disconnected relationship with the concreteness of everyday struggle. As the fog of the disembodied, postmodern subject began to lift, McLaren reoriented his engagement with and gaze toward the concrete value-creating laborer as the active agent of revolutionary educations' process of becoming—collectively becoming something other than abstract labor. This volume is filled with deep engagements with the concreteness of lived experience juxtaposed next to the bourgeois propaganda of the capitalist class political establishment as manifested in the Trump era. Praise for Tracks to Infinity... "There is no masking the profound legacy of Peter McLaren for those of us honored to be counted among his many students and friends. To me, his revolutionary teachings amount to a raging bonfire of praxis for the cognitively weary...and while fire's nature burns and is dangerously beyond our control, historically speaking, fire is also the Promethean foundation stone for the humanization of the world. Herein, then, is a truly infernal collection of writing and ideas on education and politics—or perhaps just enough to thaw the numerous minds and hearts that have grown deadly cold from the icy spiritual hell that is our time of masterful warfare, an age when the beloved community is daily being stripped

naked, shot and then laid out on a press table like a macabre photograph of the supposedly dead Ché.” Richard Kahn Core Faculty in Education, Antioch University, Los Angeles “Peter McLaren is one of the most innovative and resourceful advocates of critical pedagogy originating from Gramsci and Freire. What distinguishes his work is the nuanced dialectical interweaving of national/ethnic struggles and global imperialist hegemony, exposing the limits of transnationalist-cosmopolitanist postmodernism (eliding the reality of finance capitalism) and covertly racialized globalism functioning as a decoy for white supremacy. This volume represents cuttingedge praxis in historical-materialist research and application.” E. San Juan, Jr. Fellow of the Harry Ransom Center, University of Texas “Huerta-Charles, Marc Pruyn & Curry S. Malott have given birth to Volume II of THE first ever Reader of Peter McLaren’s expansive works. As a leading scholar and activist of our time, this groundbreaking text showcases a range of his punchy insights into multi-culturalism, imperialism, methodology and revolution. The book is unrivalled for anybody wanting to understand education and society, and do something serious about its ills.” Alpesh Maisuria Senior Lecturer in Education Studies, University of East London Co-Deputy Editor, Journal for Critical Education Policy Studies Co-Convener , Marxism and Education: Renewing Dialogues (MERD) Seminar Series

Aura Leigh Deanna Ray, 2015-10-30 It was the spring of 1935. It seemed a wonderful time to grow up in the cozy, country town of Flanary. Little could

one realize that soon everything they took for granted would change and could never be the same. The depression rages, death occurs in the home place and the women are left to adapt as they had no choice. Aura Leigh viewed her first look at life through a child's eyes and later as a beautiful young woman with so many hopes and dreams. Later she descends through the journeys of mental hell; she struggled to find her way out. This is an empowering story of one woman's journey through life, her courage to face the repercussions of the choices she made and the strength to not only survive, but to actually live again.

Reflections Over the Long Haul Robert McAfee Brown, 2005-01-01 Robert McAfee Brown (d. 2001) was a renowned Presbyterian theologian, teacher, and social activist. This is his memoir, the story of a modest man who lived life according to his conscience and his faith, and who was a model for responsible social activism within and outside the church.

Take Another Little Piece of My Heart Pamela Des Barres, 2008 Pamela Des Barres spent the sexual revolution on the ramparts as the celebrated queen of the groupies and chronicled her adventures with the high priests of rock in her best seller *I'm With the Band*. Affectionate, subversive, and funny, it was hailed by The New York Times as representing something honorable and loving ... about the sexual honesty of modern women. It became an underground classic, an emblematic memoir of the 1960s generation.

The Long Drive Home Stan Rogal, 2009-11-18 Gay middle-aged hit men, a

pathological interior designer, an idiot savant child and a gun-toting donut shop manager are some of the disparate characters that populate Stan Rogal's first novel. Beginning at vastly different points, geographically and emotionally, these seemingly unconnected people are woven together in the taut fabric of a story that follows the sweet sadness of the search for lost youth. The characters' paths move together gradually until they ultimately converge in an explosive showdown in a sleazy, road-side motel parking lot in Magog, Quebec. Peppered with beauty, absurdity and Rogal's typical rapid-fire dialogue, *The Long Drive Home* makes for a wonderfully disturbing read.

Lords and Towns in Medieval Europe Howard B. Clarke, Anngret Simms, 2017-07-14 This volume is based on possibly the biggest single Europe-wide project in urban history. In 1955 the International Commission for the History of Towns established the European historic towns atlas project in accordance with a common scheme in order to encourage comparative urban studies. Although advances in urban archaeology since the 1960s have highlighted the problematic relationship between the oldest extant town plan and the actual origins of a town, the large-scale cadastral maps as they have been made available by the European historic towns atlas project are still necessary if we want to understand the evolution of the physical form of our towns. By 2014 the project consisted of over 500 individual publications from over 18 different countries across Europe. Each atlas comprises at least a core-map at the scale of 1:2500, analytical maps and an explanatory text. The

time has come to use this enormous database that has been compiled over the last 40 years. This volume, itself based on a conference related to this topic that was held in the Royal Irish Academy in Dublin in 2006, takes up this challenge. The focus of the volume is on the question of how seigneurial power influenced the creation of towns in medieval Europe and of how this process in turn influenced urban form. Part I of the volume addresses two major issues: the history of the use of town plans in urban research and the methodological challenges of comparative urban history. Parts II and III constitute the core of the book focusing on the dynamic relationship between lordship and town planning in the core area of medieval Europe and on the periphery. In Part IV the symbolic meaning of town plans for medieval people is discussed. Part V consists of critical contributions by an archaeologist, an art historian and an historical geographer. By presenting case studies by leading researchers from different European countries, this volume combines findings that were hitherto not available in English. A comparison of the English and German bibliographies, attached to this volume, reveals some interesting insights as to how the focus of research shifted over time. The book also shows how work on urban topography integrates the approaches of the historian, archaeologist and historical geographer. The narrative of medieval urbanization becomes enriched and the volume is a genuine contribution to European studies.
