Rough Habit Ken Linnett, 2019-08-15 Rough Habit is one of a long line of New Zealand-bred champions who have crossed the Tasman to become a dominant figure in Australian racing; think Rising Fast, Redcraze, Kiwi, Bonecrusher and Sunline. Like so many before him, he came from humble beginnings, bred as little more than a hobby via a free service to an unfashionable imported sire, Rough Cast, from the unraced mare Certain Habit. The resultant colt's stature suggested that the experiment was doomed to fail. His breeder, Isabell Roddick, said of Rough Habit, the foal: He was...probably not the best looking, but I didn't think he was as hideous as he's been made out to be. He was a very small horse. But looks don't tell you if they're going to win a race. Win races he did, 11 of them at Group 1 level, behind only the mighty Sunline for wins at the highest level. He became a cult hero in Brisbane, winning two Stradbroke Handicaps and a record three Doomben Cups. Ken Linnett, won the 2018 Bill Whittaker Award for the best book on horse racing in Australia and New Zealand for his story on Tulloch, the champion of the 1950s and '60s. He has applied the same forensic skills that made the Tulloch book such a critical and commercial success, to the story of Rough Habit. Rough Habit-the unlikely champion is a tale that encompasses the essence of horse racing-from dreaming to inspiration, to luck (good and bad), to fortunes and reputations made. It's the story not just of the champion horse, but of those who took him to greatness.

Science, Sexuality, and Race in the United States and Australia, 1780-1940, Revised Edition Gregory D. Smithers, 2017-07 Science, Sexuality, and Race in the United States and Australia, 1780-1940, Revised Edition is a sociohistorical tour de force that examines the entwined formation of racial theory and sexual constructs within settler colonialism in the United States and Australia from the Age of Revolution to the Great Depression. Gregory D. Smithers historicizes the dissemination and application of scientific and social-scientific ideas within the process of nation building in two countries with large Indigenous populations and shows how intellectual constructs of race and sexuality were mobilized to subdue Aboriginal peoples. Building on the comparative settler-colonial and imperial histories that appeared after the book's original publication, this completely revised edition includes two new chapters. In this singular contribution to the study of transnational and comparative settler colonialism, Smithers expands on recent scholarship to illuminate both the subject of the scientific study of race and sexuality and the national and interrelated histories of the United States and Australia.

Science, Sexuality, and Race in the United States and Australia, 1780s-1890s Gregory D. Smithers, 2013-02-01 This book combines transnational history with the comparative analysis of racial formation and reproductive sexuality in the settler colonial spaces of the United States and British Australia. Specifically, the book places whiteness, and the changing definition of what it meant to be white in nineteenth-century America and Australia, at the center of our historical understanding of racial and sexual identities. In both the United States and Australia, whiteness was defined in opposition to the imagined cultural and biological inferiority of the Indian, Negro, and Aboriginal savage. Moreover, Euro-Americans and Euro-Australians shared a common belief that whiteness was synonymous with the extension of settler colonial civilization. Despite this, two very different understandings of whiteness emerged in the nineteenth century. The book therefore asks why these different racial understandings of whiteness – and the quest to create culturally and racially homogeneous settler civilizations – developed in the United States and Australia.

Indigenous People, Race Relations and Australian Sport Christopher J. Hallinan, Barry Judd, 2016-05-06 The Indigenous peoples of Australia have a proud history of participation and the achievement of excellence in Australian sports. Historically, Australian sports have provided a rare and important social context in which Indigenous Australians could engage with and participate in non-Indigenous society. Today, Indigenous Australian people in sports continue to provide important points of reference around which national public dialogue about racial and cultural relations in Australia takes place. Yet much media coverage surrounding these issues and almost all academic interest concerning Indigenous people and Australian sports

is constructed from non-Indigenous perspectives. With a few notable exceptions, the racial and cultural implications of Australian sports as viewed from an Indigenous Australian Studies perspective remains understudied. The media coverage and academic discussion of Indigenous people and Australian sports is largely constructed within the context of Anglo-Australian nationalist discourse, and becomes most emphasised when reporting on aspects of 'racial and cultural' explanations of Indigenous sporting excellence and failures associated anomalous behaviour. This book investigates the many ways that Indigenous Australians have engaged with Australian sports and the racial and cultural readings that have been associated with these engagements. Questions concerning the importance that sports play in constructions of Australian indigeneities and the extent to which these have been maintained as marginal to Australian national identity are the central critical themes of this book. This book was published as a special issue of Sport in Society.

Environment, Race, and Nationhood in Australia Russell McGregor, 2016-06-15 This new study offers a timely and compelling account of why past generations of Australians have seen the north of the country as an empty land, and how those perceptions of Australia's tropical regions impact current policy and shape the self-image of the nation. It considers the origins of these concerns - from fears of invasion and moral qualms about leaving resources lying idle, from apprehensions about white nationhood coming under international censure and misgivings about the natural attributes of the north - and elucidates Australians' changing appreciations of the natural environments of the north, their shifting attitudes toward race and their unsettled conceptions of Asia.

Birthplaces of Australian Motor Racing Bill Pearson, 2022-12-16 This book records and now preserves the history of Australian motorsport. Huge proportions of it were just on the very edge of being lost. By the time you have read this book, you will be unbeatable at Australian motor racing trivia around any race campground fire pit or BBQ. You will know what the deadliest day was trackside in this country, the speedway promoter who discovered and named one of Australia's biggest international rock groups, the most extreme financial car racing venue disaster of all time, why many residential roads have names the people who live there don't appreciate, and what venue built its own railway station which is still in use today. You will discover places worth dragging the family off to so you can take photos of rusting artefacts and sprout knowledgeable but boring nostalgic conversations. You'll also be amazed at some of the historic car racing locations you've unknowingly been driving past. How do you locate old car venues when some were utterly demolished 90 years ago, an industrial complex built on the same spot, which was in turn torn down and replaced with a university, a lake or a multi-storey housing estate? This roll call of mine started out with two simple questions that most petrol heads in this country ask themselves sooner or later. How many car racing facilities have closed in Australia - and why?

Mixed Race Identities in Australia, New Zealand and the Pacific Islands Farida Fozdar, Kirsten McGavin, 2016-12-08 This volume offers a southern, Pacific Ocean perspective on the topic of racial hybridity, exploring it through a series of case studies from around the Australo-Pacific region, a region unique as a result of its very particular colonial histories. Focusing on the interaction between race and culture, especially in terms of visibility and self-defined identity; and the particular characteristics of political, cultural and social formations in the countries of this region, the book explores the complexity of the lived mixed race experience, the structural forces of particular colonial and post-colonial environments and political regimes, and historical influences on contemporary identities and cultural expressions of mixed-ness.

Aussie Grit Mark Webber, 2015-07-01 In the exhilarating, high-stakes world of Formula One, only the fastest make it to the top. And no one knows this better than Australian Formula One legend Mark Webber. His career in F1 stretched for an incredible eleven years, seeing him garner thirteen poll positions, earn forty-two podiums and win nine races including the crown jewel of F1, the Monaco Grand prix, twice. But there's more than F1 to the story of the boy from Queanbeyan. In this candid book, Webber divulges the personal struggles that formed his Aussie grit character and reveals for the first time what really went down at Red Bull and the truth behind his rivalry with teammate Sebastian Vettel. From his near career-ending injury in 2008, his breakthrough 'not bad for a number two driver' win in 2009 to the 'Multi 21' controversy of 2011 and his new beginning with Porsche and the challenge of Le Mans 2014, Mark Webber pulls no punches in this captivating, personal story.
