The Cinema of Australia and New Zealand Geoff Mayer, Keith Beattie, 2007 From The Story of the Kelly Gang in 1906 to the Lord of the Rings trilogy, Australia and New Zealand have made a unique impact on international cinema. This book celebrates the commercially successful narrative feature films produced by these cultures as well as key documentaries, shorts, and independent films. It also invokes issues involving national identity, race, history, and the ability of two small film cultures to survive the economic and cultural threat of Hollywood. Chapters on well known films and directors, such as *The Year of Living Dangerously* (Peter Weir, 1982), *The Piano* (Jane Campion, 1993), *Fellowship of the Ring* (Peter Jackson, 2001), and *Rabbit Proof Fence* (Philip Noyce, 2002), are included with less popular but equally important films and filmmakers, such as *Jedda* (Charles Chauvel, 1955), *They're a Weird Mob* (Michael Powell, 1966), *Vigil* (Vincent Ward, 1984), and *The Goddess of 1967* (Clara Law, 2000).

The Habitat of Australia's Aboriginal Languages Gerhard Leitner, Ian G. Malcolm, 2008-08-22 The languages of Aboriginal Australians have attracted a considerable amount of interest among scholars from such diverse fields as linguistics, political studies, archaeology or social history. As a result, there is a large number of studies on a variety of issues to do with Aboriginal Australian languages and the social contexts in which they are used. There is, however, no integrative reader that is easily accessible to the non-specialist in any of the areas concerned. The collection edited by Leitner and Malcolm fills this gap. Looking at Aborigines and Torres Strait Islanders and their changing habitats from pre-colonial times to the present, the book covers languages from a structural and functional linguistic perspective, moves on to the issue of cultural maintenance and then turns to language policy, planning and the educational and legal dimensions. Among the many themes discussed are: the social and linguistic history of language contact after 1788 (including the Macassans); the demographic base of indigenous languages; traditional indigenous languages; results of language contact such as the modification of traditional languages and the rise of contact languages (pidgins, creoles, esp. Kriol, Torres Strait Creole, and Aboriginal English); the impact of the Aboriginal languages on mainstream Australian English; maintenance, shift, revival and documentation of indigenous and contact languages; language planning; language in education; language in the media; language in the law courts. The contributors are leading experts in their fields. The book can serve as a reader for university courses but also as a state-of-the-art work and resource for specialists like applied linguists or educational planners.

Sydney & Australia's New South Wales Holly Smith, 2011-04-15 Following is an excerpt from this extensive & highly detailed guide by a lifetime resident of Australia. The guide covers all the hotels, restaurants, sights to see and activities, from beachgoing to hiking, kayaking to exploring the Outback or the cultural attractions of Sydney. Flying into New South Wales, it's undeniable that Sydney's spectacular setting is simply one of the world's best: A melding of lushly green parklands, classic historic buildings, and polished modern architecture set back from the glistening water. Gliding above the city shows the spider's web of highways and bridges linking the sprawling mass of civilization, which extends more than 12 mi/20 km along the Port Jackson inlet. Some four million Australians live here, and 10 million more tourists flood into Sydney each year; little wonder, with attractions ranging from famous museums, gardens, and zoos to dozens of dazzling beaches. And the activities are endless: Bush hiking and bike tracks, harbor cruises and water excursions, and high-powered flights above the whole scene. In short, Sydney is the country's showpiece for holiday and adventure. The continent's most active port city, Sydney actually sits inland of the Pacific, around nine mi/15 km inland from the coast along the Port Jackson waterway, which itself is carved into numerous smaller islands and bays. Surrounding the harbor are great patches of pine and semi-tropical forests, which quickly lead up into the bumpy foothills of the Great Dividing Ranges. This is eucalyptus territory, where the arid environment of blue gums is colored by a heated haze given off from the leaves; hence the region's name OCo the Blue Mountains. Also, of the more than 70 national parks throughout New South Wales, more than a handful are settled right around Sydney itself OCo the coastal Royal National Park, the northern Wollemi National Park, and the western Blue Mountains National Park among them. With its diverse personalities, multicultural flavors, and sophisticated yet down-to-earth airs, Sydney offers something for every traveler. It's a place where history, culture, activities, and adventure are blended into a well-run and engaging metropolis where locals take pride in their heritage and guests are welcomed like friends. Massive transport systems provide a choice of city-wide links that are clean, quick, and cheap; food runs from simple Australian to worldly gourmet, and endless accommodation options spread from ocean to mountains. With 224 million acres/80 million-plus hectares, the large state of New South Wales has a continually changing landscape which delves into some of Australia's best scenes. The classic, golden-sand beaches form a string along the east coast, getting more tropical the farther north you travel toward Queens land, or becoming more rocky and chilled the farther south you head toward Victoria. The mighty Murray River forms the southern border, stretching a watery band of blue along the northern edge of Victoria, and providing sustenance to some of both states' richest farms, grazing grounds, and wine regions. The Darling and Murrumbidgee also feed the dry western plains, and offer a string of charming settlements to explore along their edges. The Great Dividing Range runs parallel to the continent's edge, curving down all the way from the far north tip of Queensland through New South Wales and on down to Melbourne. Included within the peaks are the Blue Mountains just outside of Sydney, as well as the Snowy Mountains in the far south of the state. And the mountains are indeed a dividing factor in the country's atmosphere, not only in visual landscape from eastern beaches to western plains and deserts; they also form a border between the balmy ocean settings and the scorched western Outback. Fertile farmlands and orchards are tucked into the folds of the mountains, while the state's famous vineyards spread out through the glistening river valleys.

Women's Criminalisation and Offending in Australia and New Zealand Victoria M. Nagy, Georgina Rychner, 2023-12-22 Women's Criminalisation and Offending in Australia and New Zealand offers new research and analysis of women's offending and criminalisation in Australia and New Zealand from British settlement through to the late twentieth/early twenty-first centuries. Drawing attention to women as offenders as understood in a multitude of ways, this collection highlights how women have been involved with crime and criminal behaviour, their treatment inside

and outside of courts and prisons, and how women's deviation from societal norms have attracted negative attention throughout the decades. For Aboriginal and Māori women especially, the responses were harsher than what they could be for non-indigenous women. The chapters cover a broad range of transgressions that women have been actively involved with, including theft, drug and alcohol abuse and offences, organised crime, and homicide, as well as how women's behaviour and their bodies have been criminalised and responded to by authorities. What this collection demonstrates is that women have often chosen to be involved with crime and criminality, while on other occasions their behaviour, innocent as it was, was not considered acceptable by contemporaries, resulting in confusion and misapprehension of women who refused to fit a mould. *Women's Criminalisation and Offending in Australia and New Zealand* brings together historical and criminological methods, theories, and scholars to shed light on how Australia and New Zealand's colonial, later state, and national governments have sought to understand, control, and punish women. This collection will be of interest and value to scholars, students, and everyone with an interest in criminology, history, law, sociology, Indigenous studies, and Australian and New Zealand studies.

The text's vast assortment of data-driven examples, exercises and cases covers the various functional areas of business, demonstrating the statistical applications that marketing managers, financial analysts, accountants, economists and others use. Completely up-to-date, the seventh edition offers comprehensive coverage, current examples and an increased focus on applications in the real world.

Language Competition and Shift in New Australia, Paraguay Danae Perez, 2019-10-24 This book

is an innovative sociolinguistic study of New Australia, an Australian immigrant community in Paraguay in 1893, whose descendants today speak Guarani. Providing fresh data on a previously under-researched community who are an extremely rare case of language shifting from English heritage language to a local indigenous language, the case study is situated within the wider context of the colonial and post-colonial spread of English in Latin America over the past century. Drawing on insights from linguistic anthropology, sociolinguistics, Latin American studies and history, the author presents the history of the colony before closely analysing the interplay of language and identity in this uniquely diasporic setting. This book fills a longstanding gap in the World Englishes and heritage languages literature, and it will be of interest to scholars of colonial and postcolonial languages, and minority language more generally.

Capitalist Networks and Social Power in Australia and New Zealand Georgina Murray, 2017-09-29 It is often asserted that the ruling elite in Western capitalist economies now consists of liberal intellectuals and their media sympathisers. By contrast this book looks at the real elite in Australian and New Zealand society and shows that there is still a ruling class based upon economic dominance. From an analysis of corporate and public records, interviews, and other primary and secondary data, it develops a picture of networks of power that are changing but are as real as any network in the past.

Ethnicity, Class and Gender in Australia Gillian Bottomley,2020-07-29 Ethnicity, Class and Gender in Australia is a major study of the impact of immigration on Australian society, and of the fragmentation that has developed along ethnic, class and gender lines. Rather than thumbnail sketches of ethnic groups or celebrations of multiculturalism, it offers detailed critiques of policy and practice, backed up by evidence from the experiences and research of the authors. This book confronts issues crucial to all Australians: the increasing fragmentation of the workforce; the class, gender and origin-based inequalities present in an 'egalitarian' country; and the ideologies, from racism to multiculturalism, designed to mask these inequalities. The authors also point to evidence of growing resistance to the status quo, and strategies for working towards a more genuine equality - to more positive education programmes, to political action at the workplace and beyond. The aim is to broaden readers' understanding of Australian society by including those who are so often omitted from analysis of that society.
