JG Myers

Offshore Madeline Gleeson, 2016-05-01 What has happened on Nauru and Manus since Australia began its most recent offshore processing regime in 2012? This essential book provides a comprehensive and uncompromising overview of the first three years of offshore processing since it recommenced in 2012. It explains why offshore processing was re-established, what life is like for asylum seekers and refugees on Nauru and Manus, what asylum seekers, refugees and staff in the offshore detention centres have to say about what goes on there, and why the truth has been so hard to find. In doing so, it goes behind the rumours and allegations to reveal what is known – and what still is not known – about Australia's offshore detention centres.

Douglas Snelling Davina Jackson, 2016-12-01 Douglas Burrage Snelling (1916–85) was one of Britain's significant emigré architects and designers. Born in Kent and educated in New Zealand, he became one of Australia's leading mid-century architects, of luxury residences and commercial buildings, and a trend-setting designer of furniture, interiors and landscapes. This is the first comprehensive study of Snelling's pan-Pacific life, works

and trans-disciplinary significance. It provides a critical examination of this controversial modernist, revealing him to be a colourful and talented protagonist who led antipodean interpretations of American, especially Wrightian and southern Californian, architecture, design and lifestyle innovations.

The A to Z of Australian Radio and Television Albert Moran, Chris Keating, 2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television, their media moguls have frequently bought up foreign companies, and people around the world have been able to enjoy such Australian productions as *The Flying Doctors*, *Neighbours*, and *Kath and Kim*. The origins, early development, and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene. *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry. This is accomplished through the use of a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on directors, producers, writers, actors, television and radio series, and television and radio stations.
