Veechi Curtis

Sale of Businesses in Australia S. A. Christensen, William David Duncan, 2009 This second edition of Sale of Businesses in Australia concentrates on the sale of small businesses trading as individuals or in partnership under the standard Sales of Business contracts promulgated by the various Law Societies and Real Estate Institutes. Several chapters also apply to the sale of businesses generally. Topics covered include: matters relating to the typical transaction: stock in trade, goodwill, plant and fixtures; additional matters such as intellectual property, business names, and the transfer of business leases; special contract provisions, including restraint of trade and employee provisions, and other special conditions commonly found in contracts; taxation implications of the sale; time stipulations; obligations on completion; disclosure obligations; remedies for commonly encountered types of breach by either party. The book serves as an ideal reference point for the busy legal practitioner involved in advising upon these transactions and has extensive references to the standard contracts in New South Wales, Victoria and Queensland.

It aims to demystify legal jargon and legal technicality without sacrificing essential core legal knowledge and meaning. Importantly, it provides the requisite foundation for business students who intend to later undertake the professional programs of either CPA Australia or CA ANZ. This new edition discusses ethics and technology including cryptocurrency examples in every chapter. New features include more content on diversity and inclusion with a focus on indigenous content. Students can access both the print and digital formats, including animated work problems, practitioner videos, and questions with feedback in the eText.
