

Auto Tune The News

Scott Haden Church

Producing New and Digital Media James Cohen, Thomas Kenny, 2015-08-20

Producing New and Digital Media is your guide to understanding new media, diving deep into topics such as cultural and social impacts of the web, the importance of digital literacy, and creating in an online environment. It features an introductory, hands-on approach to creating user-generated content, coding, cultivating an online brand, and storytelling in new and digital media. This book is accompanied by a companion website—designed to aid students and professors alike—that features chapter-related questions, links to resources, and lecture slides. In showing you how to navigate the world of digital media and also complete digital tasks, this book not only teaches you how to use the web, but understand why you use it. **KEY FEATURES** For students- a companion site that features research resources and links for further investigation For instructors- a companion site that features lecture slides, a sample syllabus, and an Instructor's Manual. Features a unique approach that covers media studies aspects with production and design tutorials. Covers up-to-date forms of communication on the web such as memes, viral videos, social media, and more pervasive types of online languages.

Adaptation Online Lyndsay Michalik Gratch, 2017-09-05 *Adaptation Online: Creating Memes, Sweding Movies, and other Digital Performances* explores how traditional notions of the processes and products of creative adaptation are evolving online. Using a performance lens and a shift in terminology from the metaphor of the cultural meme to the framing that adaptation affords, Lyndsay Michalik Gratch considers online adaptations in terms of creative process and human agency, rather than merely as products. This book offers a glossary of strategies for online adaptation that is useful not only for scholars in performance studies, but also for scholars of cinema, communications, and new media studies.

How To Watch Television Ethan Thompson, Jason Mittell, 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it 'good' or 'bad.' Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. *How to Watch Television* brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, *How to Watch Television* is designed to engender classroom discussion among television critics of all backgrounds.

Transgression 2.0 Ted Gournelos, David J. Gunkel, 2011-11-24 One doesn't need to look far to find examples of contemporary locations of cultural opposition. Digital piracy, audio mashups, The Onion and Wikipedia are all examples of transgression in our current mediascape. And as digital age transgression becomes increasingly essential, it also becomes more difficult to define and protect. The contributions in this collection are organized into six sections that address the use of new technologies to alter existing cultural messages, the incorporation of technology and alternative media in transformation of everyday cultural practices and institutions, and the reuse and repurposing of technology to focus active political engagement and innovative social change. Bringing together a variety of scholars and case studies, *Transgression 2.0* will be the first key resource for scholars and students interested in digital culture as a transformative intervention in the types, methods and significance of cultural politics.

Electronic Music Nick Collins, Margaret Schedel, Scott Wilson, 2013-05-09 This accessible Introduction explores both mainstream and experimental manifestations of electronic music. From early recording equipment to the most recent multimedia performances, the history of electronic music is full of interesting characters, fascinating and unusual music, and radical technology. Covering many different eras, genres and media, analyses of works appear alongside critical discussion of central ideas and themes, making this an essential guide for anyone approaching the subject for the first time. Chapters include key topics from synth pop to sound art, from electronic dance music to electrical instruments, and from the expression of pure sound to audiovisuals. Highly illustrated and with a wide selection of examples, the book provides many suggestions for further reading and listening to encourage students to begin their own experiments in this exciting field.

Helix: The Capstone Research Journal of Ivy Collegiate School Joon Kim, Chaeho Shin, Hayden Lee, Han Na Shin, Tae Hwan Kim, Yeongung Baek, Seokbin Yoon, Yoon-Seo Ha, Dawn Oh, Hyoungbin Koh, Sia Chin, Seoyun Jang, Gabin Kim, Nahee Kwon, Stacy Kwon, Sunghwan Kim, Joshua Lee, Yoonsoo Choi, Jiyong Sim, Sejin Tennant, Jihoon Choi, Woojoo Kim, Daniel Cho, Junwon Lee, Sejoong Park, Sarang Park, Brian Choi, Eddie Koh, 2022-09-22 *Helix* is the Capstone Research journal of Ivy Collegiate School. Student researchers conduct annual research projects in an area of their choosing. Selected presentations and papers are published in this journal. Research topics vary greatly in approach and field. Topics range from questions in the life sciences to studies in musicology.

Feenin Alexander Ghedi Weheliye, 2023-09-29 In *Feenin*, Alexander Ghedi Weheliye traces R&B music's continuing centrality in Black life since the late 1970s. Focusing on various musical production and reproduction technologies such as auto-tune and the materiality of the BlackFem singing voice, Weheliye counteracts the widespread popular and scholarly narratives of the genre's decline and death. He shows how R&B remains a thriving venue for the expression of Black thought and life and a primary archive of the contemporary moment. Among other topics, Weheliye discusses the postdisco evolution of house music in Chicago and techno in Detroit, Prince and David Bowie in relation to appropriations of Blackness and Euro-whiteness in the 1980s, how the BlackFem voice functions as a repository of Black knowledge, the methods contemporary R&B musicians use to bring attention to Black Lives Matter, and the ways vocal distortion technologies such as the vocoder

demonstrate Black music's relevance to discussions of humanism and posthumanism. Ultimately, Feenin represents Weheliye's capacious thinking about R&B as the site through which to consider questions of Blackness, technology, history, humanity, community, diaspora, and nationhood.

YouTube and Video Marketing Greg Jarboe, 2011-10-07 Fully updated with new information, including the latest changes to YouTube! If you're a marketer, consultant, or small business owner, this is the guide you need to understand video marketing tactics, develop a strategy, implement the campaign, and measure results. You'll find extensive coverage of keyword strategies, tips on optimizing your video, distribution and promotion tactics, YouTube advertising opportunities, and crucial metrics and analysis. Avoid errors, create a dynamite campaign, and break it all down into achievable tasks with this practical, hour-a-day, do-it-yourself guide. Shows you how to successfully develop, implement, and measure a successful video marketing strategy. Written in the popular An Hour a Day format, which breaks intimidating topics down to easily approachable tasks. Thoroughly updated with the latest YouTube functionality, helpful new case studies, the latest marketing insights, and more. Covers optimization strategies, distribution techniques, community promotion tactics, and more. Explores the crucial keyword development phase and best practices for creating and maintaining a presence on YouTube via brand channel development and customization. Shows you how to optimize video for YouTube and search engine visibility. Give your organization a visible, vital, video presence online with YouTube and Video Marketing: An Hour a Day, Second Edition.

Feature Interactions in Software and Communication Systems X. M. Nakamura, S. Reiff-Marganiec, 2009-05-29 The International Conference on Feature Interactions in Software and Communication Systems (ICFI) has evolved out of the Feature Interaction Workshop (FIW), which started in 1992 as the leading forum for discussion and reporting on research on feature interactions in telecommunications systems. It is now concerned with feature interaction in all types of software systems. Participation includes practitioners, researchers and educators. The proceedings have been published by IOS Press since 1994.

Creating the Viewer Justin Wyatt, 2024-04-23 A study of the largely hidden world of primary media market research and the different methods used to understand how the viewer is pictured in the industry. The first book on the intersection between market research and media, *Creating the Viewer* takes a critical look at media companies' studies of television viewers, the assumptions behind these studies, and the images of the viewer that are constructed through them. Justin Wyatt examines various types of market research, including talent testing, pilot testing, series maintenance, brand studies, and new show "ideation," providing examples from a range of programming including news, sitcoms, reality shows, and dramas. He looks at brand studies for networks such as E!, and examines how the brands of individuals such as showrunner Ryan Murphy can be tested. Both an analytical and practical work, the book includes sample questionnaires and paths for study moderators and research analysts to follow. Drawn from over fifteen years of experience in research departments at various media companies, *Creating the Viewer* looks toward the future of media viewership, discussing how the concept of the viewer has changed in the age of streaming, how services such as Netflix view market research, and how viewers themselves can

shift the industry through their media choices, behaviors, and activities.

The Oxford Handbook of Sound and Image in Digital Media Carol Vernallis, Amy Herzog, John Richardson, 2015-08 The Oxford Handbook of Sound and Image in Digital Media surveys the contemporary landscape of audiovisual media. Contributors to the volume look not only to changes brought by digital innovations, but to the complex social and technological past that informs, and is transformed by, new media. This collection is conceived as a series of dialogues and inquiries by leading scholars from both image- and sound-based disciplines. Chapters explore the history and the future of moving-image media across a range of formats including blockbuster films, video games, music videos, social media, digital visualization technologies, experimental film, documentaries, video art, pornography, immersive theater, and electronic music. Sound, music, and noise emerge within these studies as integral forces within shifting networks of representation. The essays in this collection span a range of disciplinary approaches (film studies, musicology, philosophy, cultural studies, the digital humanities) and subjects of study (Iranian documentaries, the Twilight franchise, military combat footage, and Lady Gaga videos). Thematic sections and direct exchanges among authors facilitate further engagement with the debates invoked by the text.

Sampling Media David Laderman, Laurel Westrup, 2014-04 This work digs deep into sampling practices across audio-visual media, from found footage filmmaking to Internet 'memes' that repurpose music videos, trailers and news broadcasts. The book extends the conceptual boundaries of sampling by emphasizing its inter-medial dimensions, exploring its politics, and examining its historical and global scope.

Turntables and Tropes Scott Haden Church, 2022-03-01 The creative practice of remix is essential to contemporary culture, as the proliferation of song mashups, political remix videos, memes, and even streaming television shows like Stranger Things demonstrates. Yet remix is not an exclusively digital practice, nor is it even a new one, as there is evidence of remix in the speeches of classical Greek and Roman orators. Turntables and Tropes is the first book to address remix from a communicative perspective, examining its persuasive dimensions by locating its parallels with classical rhetoric. Through identifying, recontextualizing, mashing up, and applying rhetorical tropes to contemporary digital texts and practices, this groundbreaking book presents a new critical vocabulary that scholars and students can use to analyze remix. Building upon scholarship from classical thinkers such as Isocrates, Quintilian, Nāgārjuna, and Cicero and contemporary luminaries like Kenneth Burke, Richard Lanham, and Eduardo Navas, Scott Haden Church shows that an understanding of rhetoric offers innovative ways to make sense of remix culture.

The Presidential Fringe Mark Stein, 2020-02 This offbeat slice of American history places the story of our great republic beneath an unexpected lens: that of fringe candidates for president of the United States. Mark Stein explores how their quest for our nation's highest office helped to amplify voices otherwise quashed during their day. His careening tour through elections past includes the efforts of true pioneers in the quest for social equality in our country: the first woman to run for president, Victoria Woodhull in 1872; the first African American to run for president, George E. Taylor in 1904; and the first openly gay cross-dressing candidate for

president, Joan Jett Blakk in 1992. But *The Presidential Fringe* also takes a look at those who would jest their way into the Oval Office, from comedians such as Will Rogers and Gracie Allen to Pat Paulsen and Stephen Colbert. Along the way, Stein shows how even seemingly zany candidates, such as Live Forever Jones, Vegetarian Party candidate John Maxwell, Flying Saucer Party candidate Gabriel Green, or, most recently, Vermin Supreme, provide extraordinary insights of clarity into who we were when they ran for president and how we became who we are today. Ultimately, Stein's examination reveals that it was often precisely these fringe candidates who planted the seeds from which mainstream candidates later harvested genuine, positive change. Written in Stein's direct and witty style, *The Presidential Fringe* surveys and portrays an American landscape rife with the unlikely, unassuming, unexpected, and (in a few cases) unbalanced presidential hopefuls who, in their own way, have contributed to this nation's founding quest to form a more perfect Union.

Unruly Media Carol Vernallis, 2013-10-10 *Unruly Media* argues that we are the crest of a new international style in which sonic and visual parameters become heightened and accelerated. This audiovisual turn calls for new forms of attention. Post-classical cinema, with its multi-plot narratives and flashy style, fragments under the influence of audiovisual numbers and music-video-like sync. Music video becomes more than a way of selling songs. YouTube's brief, low-res clips encompass many forms and foreground reiteration, graphic values and affective intensity. These three media are riven by one another: a trajectory from YouTube through music video to the new digital cinema reveals commonalities, especially in the realms of rhythm, texture and form. This is the first book to account for the current audiovisual landscape across medium and platform, and it demonstrates that attending equally to soundtrack and image reveals how these media work and how they both mirror and shape our experience.

Content Is King Gary Graham, Anita Greenhill, Donald Shaw, Chris J. Vargo, 2015-10-22 Examines the media industry in an age of disruption, due to advances in digital technology, politically traded organizations and changing media tastes and values.

Analyzing Language and Humor in Online Communication Taiwo, Rotimi, Odeunmi, Akinola, Adetunji, Akin, 2016-06-16 Misunderstandings in technology-mediated communication can be due to a lack of tone and facial expression on the part of the speaker, which provide additional context clues into the meaning of the message beyond textual representation. As technology becomes more of a ubiquitous element in our interactions with one another, further study into the ways in which language and humor are conveyed online and impact human communication is essential. *Analyzing Language and Humor in Online Communication* presents a compendium of research into virtual communities, online communication, social networks, and the ways that language, and humor in particular, are being conveyed and understood in these digital environments. Emphasizing examples from popular culture and contemporary media, this innovative publication fills the current void in the literature by focusing specifically on humor creation and perception in the digital age. Students, researchers, linguists, psychologists, media professionals, and sociologists will find this publication to be a unique reference source.

Videocracy Kevin Allocca, 2018-01-25 From YouTube's Head of Culture and

Trends, a rousing and illuminating behind-the-scenes exploration of internet video's massive impact on our world. Whether your favorite YouTube video is a cat on a Roomba, "Gangnam Style," the "Bed Intruder" song, an ASAPscience explainer, Rebecca Black's "Friday," or the "Evolution of Dance," Kevin Allocca's Videocracy reveals how these beloved videos and famous trends--and many more--came to be and why they mean more than you might think. YouTube is the biggest pool of cultural data since the beginning of recorded communication, with four hundred hours of video uploaded every minute. (It would take you more than sixty-five years just to watch the vlogs, music videos, tutorials, and other content posted in a single day!) This activity reflects who we are, in all our glory and ignominy. As Allocca says, if aliens wanted to understand our planet, he'd give them Google. If they wanted to understand us, he'd give them YouTube. In Videocracy, Allocca lays bare what YouTube videos say about our society and how our actions online--watching, sharing, commenting on, and remixing the people and clips that captivate us--are changing the face of entertainment, advertising, politics, and more. Via YouTube, we are fueling social movements, enforcing human rights, and redefining art--a lot more than you'd expect from a bunch of viral clips.

Extremely Online Taylor Lorenz, 2023-10-03 NATIONAL BESTSELLER Acclaimed Washington Post reporter Taylor Lorenz presents a groundbreaking social history of the internet, revealing how online influence and the creators who amass it have reshaped our world, online and off--"terrific," as the New York Times calls it, "Lorenz...is a knowledgeable, opinionated guide to the ways internet fame has become fame, full stop." For over a decade, Taylor Lorenz has been the authority on internet culture, documenting its far-reaching effects on all corners of our lives. Her reporting is serious yet entertaining and illuminates deep truths about ourselves and the lives we create online. In her debut book, *Extremely Online*, she reveals how online influence came to upend the world, demolishing traditional barriers and creating whole new sectors of the economy. Lorenz shows this phenomenon to be one of the most disruptive changes in modern capitalism. By tracing how the internet has changed what we want and how we go about getting it, Lorenz unearths how social platforms' power users radically altered our expectations of content, connection, purchasing, and power. In this "deeply reported, behind-the-scenes chronicle of how everyday people built careers and empires from their sheer talent and algorithmic luck" (Sarah Frier, author of *No Filter*), Lorenz documents how moms who started blogging were among the first to monetize their personal brands online, how bored teens who began posting selfie videos reinvented fame as we know it, and how young creators on TikTok are leveraging opportunities to opt out of the traditional career pipeline. It's the real social history of the internet. Emerging seemingly out of nowhere, these shifts in how we use the internet seem easy to dismiss as fads. However, these social and economic transformations have resulted in a digital dynamic so unappreciated and insurgent that it ultimately created new approaches to work, entertainment, fame, and ambition in the 21st century. "Extremely Online aims to tell a sociological story, not a psychological one, and in its breadth it demonstrates a new cultural logic emerging out of 21st-

century media chaos” (The New York Times). Lorenz reveals the inside, untold story of what we have done to the internet, and what it has done to us.
