Energy Efficiency in Developing Countries Suzana Tavares da Silva, Gabriela Prata Dias, 2020-02-05 This book presents a comparative analysis of energy efficiency policies in developing countries. Although there is a vast amount of literature available about renewable energy policy and implementation in the developing world, energy efficiency tends to lack attention. This book fills this lacuna by examining the current state of the field and scope for future improvements. Drawing on a wide range of case studies including Brazil, China and Chile, the authors use a comparative approach to examine the policies and programmes being implemented, looking at the existing legal frameworks and regulatory challenges. By showcasing stories of success, as well as barriers to energy efficiency, they highlight the opportunities for increased energy access and efficiency and demonstrate how these opportunities may directly impact on climate change mitigation. This volume will be a useful resource for scholars and practitioners with an interest in energy policy and efficiency, climate change and international development.

Indian Business Case Studies Volume VI S B Mathur, Sudhakar Bokephode, D D Balsaraf, 2022-06-15 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies. This trend has been seen in India, too, where top management institutes have implemented the case study-based methodology as an important pedagogical tool in business education. The major issue in India, however, is a severe shortage of Indian case

studies through which business schools can provide industry insights to students. This volume fills that gap. It has twenty Indian cases related to different aspects of business management. The cases cover some of the prominent disciplines of management like marketing, finance, human resource management, strategy management, operations management, accounting, and mergers and acquisitions. These cases best serve the purpose of adoption of 'case methodology' in classroom teaching or online lecture sessions for the faculty and students of business management.

Marketing For Competitiveness: Asia To The World - In The Age Of Digital Consumers
Philip Kotler,Hermanwan Kartajaya,Den Huan Hooi,2016-11-24 Asia is the most populated geographical region, with 50% of the world's inhabitants living there. Coupled that with the impressive economic growth rates in many Asian countries, the region provides a very attractive and lucrative market for many businesses, big and small and from all industries. In addition, Asia is also a dynamic market that significantly grows with developments in technology and digitalization. For example, a research by Google and Temasek shows that Southeast Asia is the world's fastest growing internet region. The internet economy in Southeast Asia is expected to grow by 6.5 times from US\$31 billion in 2015 to US\$197 billion in 2025.All these make it critical for marketers, whether domestic, regional or global, to stay in touch if not ahead, in their understanding of what is happening in Asia from a marketing perspective and what Asia has to offer to the world.One phenomenon happening in the Asian market and which marketers should pay utmost attention to, is the rapidly unfolding digital revolution that has fundamentally transformed not just the extent but also the nature of competition. What makes it even more challenging and complicating is also how such a revolution impacts on consumer and business buying behavior.Disruptive technologies supported by this digital revolution have brought in new competitors and enabled existing competitors to surpass the conventional boundaries which we may be quite familiar with. Asian consumers have become more educated and connected and have embraced newer ways of selecting, buying and using products and services. In this book, the Father of Modern Marketing, Professor Philip Kotler has collaborated with two marketing experts from Asia, Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore to publish a book on Marketing for Competitiveness: Asia to the World — In the Age of Digital Consumers. This book argues that marketing is no longer just vertical but has encompassed a new, more horizontal paradigm. In addition to many new concepts and frameworks, this book includes a plethora of real-world examples from various countries in Asia, which will help to shed light on how companies, both Asian and global, compete in Asia. Useful lessons can be drawn by all businesses in the world on how to win the mind, heart and spirit of the Asian consumer — digital and non-digital.
