Beyond Happiness Jenn Lim,2021-10-12 The co-founder and CEO of Delivering Happiness updates the Delivering Happiness model for our new abnormal, showing organizations of every kind how to cultivate a culture that can adapt to change, be highly profitable, and support all its people...starting with yourself. *WALL STREET JOURNAL BESTSELLER* *Named a Top Business Book of 2021 by Forbes* Jenn Lim has dedicated her career to helping organizations from name-brand industry leaders to innovative governments build workplace cultures that benefit both their employees and their bottom line, with less employee turnover, greater engagement, and higher profits. Her culture consultancy, Delivering Happiness, demonstrates the profound impact happiness can have on businesses' ability to thrive in our ever-changing times. In this book, she clearly and concretely shows the way the model works in a hyper-connected fast-paced world, beginning with each individual defining their sense of values and purpose (the ME), and rippling through the organization ecosystem (the WE and the COMMUNITY) in waves of impact. Drawing on a deep understanding of the science of happiness, Jenn shows how bringing your whole self to work allows you to do your best work every day -- no matter what role you play at your company or what crisis might come at you next. She explains how true happiness comes from living your true purpose, and offers case studies to show how companies can help individuals align their purpose with the company mission. This innovation in organizational design and company culture is no longer a nice-to-have. It's the future of work, and it's here now. In this life-changing guide, you'll be empowered to find greater purpose in your own life and career, and to spread that power to others in your business and beyond.

MagicLand Charles Bastille,2021-09-07 "A bracing dystopian tale that deftly mixes magic, evolution, and romance" featuring a wiccan priestess and a humanoid who fall in love against all odds (Kirkus Reviews). A feel-good dystopian novel? Welcome to MagicLand. On a future Earth where magic and technology have been at war for two thousand years, can one kiss change the fate of the world? When a young actor from Gath, Belex, crash lands outside the magic land known as Moria, he's rescued by a young Morian priestess in waiting, Aurilena. The two find themselves drawn impossibly towards each other in the midst of a war between two distinct species of humanoids: her people, the magicians of Moria, and his people, the Gath, whose tremendous intellectual and physical capabilities are programmed into their DNA. Together, the two discover a terrible secret that lies at the heart of the centuries-old conflict between MagicLand and Gath. It's a secret that leads to a kiss that could end the war once and for all. The only question is will it end in brutal violence or give way to an improbable peace between implacable enemies? The answer to that question may depend on whether Aurilena can discover the true source of power behind her unique gifts before it's too late. "Bastille's debut artfully combines magic, technology, and romance. . . . [He] handles the multilayered plot well, creating a fascinating world populated with empathetic characters." —Publishers Weekly

The Digital Platform Economy Index 2020 László Szerb,Eva Somogyine Komlosi,Zoltan J. Acs,Esteban Lafuente,Abraham K. Song,2022-01-03 This book presents the 2020 Digital Platform Economy Index (DPE Index). The DPE Index integrates two separate but related literatures on ecosystems, namely, the digital ecosystem and the entrepreneurial ecosystem. This new framework situates digital entrepreneurship within the broader context of users, platforms, and institutions, such that two biotic entities (users and agents) actuate individual agency, and two abiotic components (digital infrastructure and digital platforms) form the external environment. The DPE Index framework includes 12 pillars that integrate the digital and the entrepreneurship ecosystems. Here, the authors report on the DPE Index, the four sub-indices, and the 12 pillar values for 116 countries as well as provide a cluster analysis based on the 12 pillars.

Pirates In The Navy Tendayi Viki,2020-05-14 Faced with the choice of starting a company or joining a large corporation, Steve Jobs believed that it was 'more fun to be a pirate than to join the navy'. But for innovators inside established companies, making a distinction between being a pirate and joining the navy is a fallacy. We have to figure out a way to become pirates in the navy! There is nothing harder in business than trying to innovate within large corporations. Innovators in big companies often face internal opposition as well as their external competitors. It is the management of the core business that tends to get in the way of innovation. Most intrapreneurs recognise that innovation can't be carried out as a series of one-off projects that always have to jump through political hurdles. They realise that there is a need for innovation to happen as a repeatable process. But how can they achieve this? This is a step-by-step guide to getting continuous innovation done in companies and reshaping them in the process. It is for anyone involved in corporate innovation and driving company change.
