To See Or Not to See: Awareness Is the Question Randy Norton,2020-02-15 Who are you? Where are you? Are you truly aware of what's going on in your life and the life around you? It's time to come out of the living coma and to metamorph into a life of freedom out side the rat cage. It's time for your eyes, leading to your soul to be free from the lies the world holds one in bondage to. It's time to see, it's time to be. I have written a very short and simple book to give a few insights that may cause a person to think outside the box. It may cause a desire to escape the wheel of life that keeps going round and round but goes nowhere. It won't take long to read but it might just have a huge affect and that's the hope, for in a land of Walking Dead there are not many souls that truly desire to be alive. Are you ready for a new journey?

If she is hearing their true thoughts, then why do the people she's called friends all of her life want her dead?She needs answers and wants to run away, but Heather finds that even in a small rural town no matter where you go there's always someone around.Can Heather find the answers she seeks in time, or will the population of Temperanceville soon drop by one...?

Families Under Fire R. Blaine Everson,Charles R. Figley,2011-01-07 As provider networks on military bases are overwhelmed with new cases, civilian clinicians are increasingly likely to treat military families. However, these clinicians do not receive the same military mental-healthcare training as providers on military installations, adding strain to clinicians' workloads and creating gaps in levels of treatment. Families Under Fire fills these gaps with real-world examples, clear, concise prose, and nuts-and-bolts approaches for working with military families utilizing a systems-based practice that is effective regardless of branch of service or the practitioner's therapeutic preference. Any civilian mental-health practitioner who wants to understand the diverse needs of military personnel, their spouses, and their families will rely on this indispensable guidebook for years to come.

Get Conscious ALI WALKER (PHD.),2017-05-02 In ancient times, most people believed that if you travelled far enough to the edge of the world, you would fall off. This was a mirage that limited their lives. Today, the mirage that we all live by is the idea that 'I will be happy when...': I will be happy when I am married! I will be happy when I leave my job! I will be happy when I am rich! I will be happy when I am on holiday! This belief leads to us over-thinking and over-analysing all the ways that we might be happier at some point in the future. But what if happiness is the wrong aim? What if happiness is like the horizon: an imaginary line that seems real until we start to chase it? In this book, Ali Walker shows that instead of seeking happiness in the future, we can all practise awareness in each moment. This is how we train ourselves to generate calming, positive and uplifting thoughts and emotions. Drawing on the author's research in psychology, and her work with clients, *Get Conscious* breaks down the four elements of self-awareness, and provides strategies for mastering each: - Feel: Honour all emotions - Think: Choose positive thoughts - Sense: Trust the messages of your body - Act: Go with the flow of life and love Includes case studies, rituals, exercises and activities to help you tune into your inner being and let self-awareness guide you to genuine happiness. *Get Conscious* moves us out of overthinking and into awareness. It is the transformation of a lifetime.

Conscious Brother Robert Jonathan Hicks,2019-12-21 This book is an autobiography of a young man adjusting through life and building awareness of himself in order to become the best person he can be through motivation and inspiration to help you become the best person you can be.

The Siege and the Fall of Constantinople in 1453 Marios Philippides,Walter K.

Hanak,2017-05-02 This major study is a comprehensive scholarly work on a key moment in the history of Europe, the fall of Constantinople to the Ottoman Turks in 1453. The result of years of research, it presents all available sources along with critical evaluations of these narratives. The authors have consulted texts in all relevant languages, both those that remain only in manuscript and others that have been printed, often in careless and inferior editions. Attention is also given to 'folk history' as it evolved over centuries, producing prominent myths and folktales in Greek, medieval Russian, Italian, and Turkish folklore. Part I, The Pen, addresses the complex questions introduced by this myriad of original literature and secondary sources.

You Are Not Your Mind Senad Dizdarević,2019-10-02 The karmicons are intentionally limiting people with different violent acts. They also block the natural awareness of Pure Awareness. The Evils glue the personal consciousness with the mind and body so people think that they are tools and not real Beings. With simple exercises, everyone can easily learn the difference between Awareness and mind as the tool for thinking and experience its own natural state as a Wonderful Being of Pure Awareness.
