Code-sharing is a marketing arrangement in which an airline places its designator code on a flight operated by another airline & sells & issues tickets for that flight. To determine whether the foreign code-share partners of U.S. airlines meet an acceptable level of safety, the Dept. of Transportation established the Code-Share Safety Program, which requires U.S. airlines to conduct safety audits of their foreign code-share partners as a condition of code-share authorization. This report assessed the fed. government's efforts to provide reasonable assurance of safety & security on foreign code-share flights. Charts & tables.
