Ten Great Ideas from First Corinthians George Renner, Mark Shaw, 2021-10-19 First Corinthians is one of the most relevant NT documents for both younger churches seeking maturity in the majority world and older churches seeking renewal in the Western world in the twenty-first century. The reason this epistle is so relevant is that it focuses on renewing the church through believing and living out the good news that because of Jesus's death and resurrection God has begun his new creation agenda amid the broken world of today. This is not just another commentary (there are many very good ones) but rather we present a biblical theology of church renewal, based on solid exegesis, and our experience as teachers and pastors in both Africa and North America. This book will pull out the essential teaching of Paul on renewal in ten manageable principles, or "great ideas." Church renewal is not just following certain steps but results from nurturing a culture that practices both cross power and a life of new creation hope. When churches make the shift from traditionalism to radical community and evangelical activism through a new experience of the gospel seen as both personal liberation and the transformation of all things, the church begins to move, and the world begins to change.

The Two Greatest Ideas Linda Trinkaus Zagzebski, 2021-11-16 In The Two Greatest Ideas, Linda Zagzebski tells the history of two hugely impactful ideas and their crucial role in shaping human culture over the last two thousand years. These ideas, Zagzebski argues, underlie virtually all of the intellectual innovations of human civilization, yet are so simple they are almost invisible. The first idea is that the human mind is capable of grasping the universe. The second is that the human mind is capable of grasping itself. Based on a series of lectures given in 2018 at Soochow University, Zagzebski offers an ambitious, big-history narrative of the emergence and influence of these two ideas and the tension and conflict between them. The idea that the human mind can grasp the universe had a significant influence on culture in many parts of the world in the first millennium BCE, giving rise to physics, mathematics, philosophy, and most major religions. In the early modern period, however, particularly in the West, the idea that the human mind can grasp itself supplanted some of the wider focus and popularity of the idea that human mind can grasp the universe, revealing something important was missing, namely, the subjectivity of minds. This transformation was reflected in radical changes in philosophy, political thought, art, literature, religion, and science. In this book, Zagzebski provides a new frame for understanding the intellectual underpinnings of Western culture and thought through an illuminating exploration of the history and contemporary legacy of these two great ideas (including reflections on their history in Eastern thought). Zagzebski also reveals the deep roots of some familiar divisions in contemporary culture (e.g. autonomy versus harmony, and rights versus responsibilities) as they relate to the great ideas. The book then concludes with a discussion of what reconciling the two great ideas might entail, including the possibility of a third great idea--

10x Is Easier Than 2x Dan Sullivan, Dr. Benjamin Hardy, 2023-05-09 Expanding upon one of his high-level foundational teachings: Strategic Coach co-founder Dan Sullivan explains why achieving 10X growth is easier than going for 2X growth. Dan Sullivan, the world's leading coach for highly successful entrepreneurs, wants you to know that achieving 10X growth is exponentially easier than striving for 2X growth. Most find this idea confusing at first because simply imagining 10X growth causes them to think they need to do 10X more work to achieve it. However, being a 10X entrepreneur is nothing like what most people think. 10X is not the outcome; it's a counterintuitive process you can apply every time you want exponential growth in your life and business. To make 10X possible, you must focus on expanding what Dan defines as your four most important freedoms—time, money, relationship, and purpose. As your time becomes 10X more valuable, you increasingly multiply the money you earn

both in terms of amount and profitable satisfaction. As money becomes a tool you can increasingly access with greater ease, you will engage with a growing number of other freedom-motivated individuals. As both your professional and personal life fills up with 10X more unique and collaborative relationships, you will realize that your most powerful purposes in all areas become 10X more lasting and positive for everyone involved. You will be impressed by what your life has become, and the meaning and impact you're having. 10X is fundamentally about quality vs quantity, and the quality of your freedoms determines the results you achieve.
