Today, Seoul's urban planning innovations are increasingly touted as replicable best practices for export to cities across the globe. This book describes how innovative state policy has made Seoul a world leader in sustainable, smart, and solidary urban initiatives. Beginning in the 1960s, Seoul led the fastest urbanization and modernization project in world history, becoming a colossal 26-million-person metropolitan region and one of the largest footprints of humanity on earth, transforming the nation from one of the world's poorest to having the 10th largest GDP in 2020.
