The World of Niagara Wine Michael Ripmeester, Phillip Gordon Mackintosh, Christopher Fullerton, 2013-07-01 The World of Niagara Wine is a transdisciplinary exploration of the Niagara wine industry. In the first section, contributors explore the history and regulation of wine production as well as its contemporary economic significance. The second section focuses on the entrepreneurship behind and the promotion and marketing of Niagara wines. The third introduces readers to the science of grape growing, wine tasting, and wine production, and the final section examines the social and cultural ramifications of Niagara's increasing reliance on grapes and wine as an economic motor for the region. The original research in this book celebrates and critiques the local wine industry and situates it in a complex web of Old World traditions and New World reliance on technology, science, and taste as well as global processes and local sociocultural reactions. Preface by Konrad Ejbich.

Globalization of the World's Wine Markets Kym Anderson, David Norman, Glyn Wittwer, 2002 Globalization is not new to the world's wine markets, but its influence over the past decade or so has increased dramatically. This Paper reviews the effects of that on both the Old World and New World. In focusing retrospectively on the period since the late 1980s, it points to the dramatic increase in the industry's export orientation and quality upgrading in the New World and the consequent competitive pressure on the Old World in key import markets. Looking forward, the Paper draws on a new model of the world's wine markets that distinguishes non-premium, commercial premium and super-plus premium wines in each of 47 countries or country groups spanning the world. It projects recent developments to 2005, based on income, population and taste trends on the demand side and vine acreage and productivity trends on the supply side of each market. The effect of a slowdown in the global economy in the medium term is also considered. The results expose numerous implications of recent and prospective developments on key wine-exporting regions.
