Determining the College Football Playoff Ray D. Theis,Mark G. Terwilliger,2021-08-12 In this book, we explore the history of college football, and in particular the mythical college championship, from 1869 to the present day. For several years, different media outlets took it upon themselves to declare a national championship, which led to nothing short of confusion. In one year, four different teams were named champion! This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series, or BCS. Initially, the BCS selection was based on a formula that incorporated several polls and computer models. However, the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy. This led to the creation of a selection committee to choose the four best teams to compete in a four-team playoff. Again, controversy has ensued, with many questioning the politics and nebulous, capricious nature of the criteria. We have created an alternate model, which we have dubbed the weighted wins system, that defines a simple, unbiased, and consistent mechanism for evaluating and comparing the records of the teams in the NCAA's Bowl Subdivision. We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes. The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision.

NBA and WNBA Finals Matt Scheff,2021 Follow the spectacular shots, thrilling comebacks, and monumental moments of basketball's most exciting games. Readers learn about the biggest NBA and WBNBA finals, the leagues' history, and the amazing feats of the sport's best stars--

Phoenix Suns Lee Shappell,1993-10-01 Covers the most exciting season in the Suns' 25 years, from the pre-season trade, to the team's play on the court that brought Phoenix the best regular season record in the league

The Playoffs Cameron Bowler,2013-12 A book written and kept in the original words of 5th grader, Cameron Bowler. The Mellow Brook Wolves will not be denied. They are simply the best and this is their season to show it. Thanks to their superb, all-star running back the championship is in the bag or is it? You will only know, if you read THE PLAYOFFS.

The Great College Football Playoff Hoax Neil Mitchell,2018-10-16 In 2014 the powers that be claimed to have finally provided college football with a true playoff to determine a champion in the sport. ESPN, bowl committees, sports radio, and many pundits have extolled the new system. A careful and detailed examination of the new process, however, reveals that in reality very little has changed. The new system preserves the old organization, which ensured that only a few teams would ever be considered for the championship. It puts the Power Five leagues into the position of

a closed shop, where no one outside their membership will ever be considered for the four slots the current college football playoff (CFP) allows. The other five leagues (known as the mid-majors) are a perpetual junior varsity that stands on the sidelines praying for a chance to stand briefly outside the shadow of the big guys, who pat them on the head occasionally.

Cinderella's Slipper Mike Nemeth, 2009-09 The Bowl Champion Series (BCS) is under fire from fans, the media, college coaches, Congress, and even our new President. They worry that the two best teams in the country aren't consistently selected by the polls and the BCS computers to play for the National Championship. At stake is prestige, a place in history, recruiting advantages, and boatloads of cash. The solution proposed most often is a playoff system to give more schools a shot at a title. However, the problem of team selection won't go away with a playoff system, it will be exacerbated. The lack of a credible ranking system is the Achilles' heel of the current BCS system. Cinderella's Slipper reveals why the polls get it wrong, why the BCS computers can't be expected to get it right, why traditional statistics aren't useful for ranking teams, and why won/lost records are misleading. Cinderella's Slipper introduces the performance metrics necessary for team ranking and explains the rating system that can accurately rank teams with similar records. When combined with NCAA sponsorship and an accurate ranking system, a playoff scheme will produce deserving champions and will restore public confidence in the college football National Championship process.

Bee-lieve It! Charlotte Observer, 1993

The Thinking Fan's Guide to the College Football Playoff Stewart Mandel, 2014-08-01 In his uniquely informative and entertaining style, renowned college football writer Stewart Mandel provides a comprehensive guide to college football's new era. He examines why it took 145 years for the sport to adopt a simple four-team playoff. He demystifies the confusing rotation in which the Rose, Sugar and four other bowls will take turns hosting semifinal games. He examines the criteria selection committee members like Tom Osborne and Condoleezza Rice will use to determine the playoff field and other bowl participants. And he applies the new system to previous seasons to illustrate the many ways fans will experience the sport differently going forward. Pay close attention. There's a quiz at the end.
