The Curious History of Mazes Julie E. Bounford,2018-10-02 Thread your way through this history of mazes from the ancient world to today and solve over one hundred mazes along the way. From prehistoric times, mazes and labyrinths worldwide have served as different symbolic, ritualistic, and practical purposes. Taken as a powerful metaphor for life's journey, they can be used as tools for meditation and learning at any level, even when completed for recreation. Maze images can be enjoyed as motifs themselves, but also in their material forms—a meditation, puzzle, dance, walk, ritual, pilgrimage, or simply a day out. Drawing upon a wealth of historical and classical literature; accounts written by explorers, archaeologists, and historians; and the output of modern and contemporary world-renowned experts and enthusiasts, social historian Dr. Julie Bounford explores the evolution of mazes through time and across continents, presenting their history in a fun and engaging format while challenging readers to solve over one hundred mazes—many created exclusively for this book by illustrator and artist Trevor Bounford. Learn about: The earliest recorded examples, legends, and mazes in the ancient world Mazes used as sacred rituals and symbols that take us beyond the natural world Turf, stone, hedge, and garden mazes, and sites of communal rustic revels The modern revival, with mazes taken to forms never previously imagined Explore how mazes can improve your mental dexterity and create mindfulness, and use the gazetteer to locate historical, replica, and interesting mazes that exist around the world today.

Cultural Materialism Marvin Harris,2001 Cultural Materialism, published in 1979, was Marvin Harris's first full-length explication of the theory with which his work has been associated. While Harris has developed and modified some of his ideas over the past two decades, generations of professors have looked to this volume as the essential starting point for explaining the science of culture to students. Now available again after a hiatus, this edition of Cultural Materialism contains the complete text of the original book plus a new introduction by Orna and Allen Johnson that updates his ideas and examines the impact that the book and theory have had on anthropological theorizing.

Novel History Mark C. Carnes,2004-03-05 Historical fiction is a contradiction in terms. History is what happened; fiction, what did not. Yet great novelists have often disregarded this logical difficulty, taking up the tools of the historian to explore the shadowy recesses of the past. Their labors have

brought forth many literary treasures. But how accurately do these masterpieces of the imagination reflect the past? In *Novel History*, twenty accomplished historians consider this question in relation to some of our most important historical novels. Their essays are followed in most instances by a response from the novelist. These dialogues illuminate one of the most fascinating and perplexing issues of our time -- the relation between the real past and our finest imaginative renderings of it. *Novel History* includes essays by distinguished historians such as John Demos, Michael Kammen, Joan D. Hedrick, John Lukacs, Eugene D. Genovese, Richard White, and Tom Wicker, and responses from notable novelists, including Gore Vidal, John Updike, Russell Banks, Don DeLillo, Larry McMurtry, Jane Smiley, Madison Smartt Bell, William Styron, T. Coraghessan Boyle, William Kennedy, Charles Frazier, Thomas Fleming, and Tim O'Brien. *Novel History* is both a uniquely compelling perspective and a superb collection of literary history.

Portraying the Aztec Past Angela Herren Rajagopalan, 2018-12-12 During the period of Aztec expansion and empire (ca. 1325–1525), scribes of high social standing used a pictographic writing system to paint hundreds of manuscripts detailing myriad aspects of life, including historical, calendric, and religious information. Following the Spanish conquest, native and mestizo tlacuiloque (artist-scribes) of the sixteenth century continued to use pre-Hispanic pictorial writing systems to record information about native culture. Three of these manuscripts—Codex Boturini, Codex Azcatitlan, and Codex Aubin—document the origin and migration of the Mexica people, one of several indigenous groups often collectively referred to as “Aztec.” In *Portraying the Aztec Past*, Angela Herren Rajagopalan offers a thorough study of these closely linked manuscripts, articulating their narrative and formal

connections and examining differences in format, style, and communicative strategies. Through analyses that focus on the materials, stylistic traits, facture, and narrative qualities of the codices, she places these annals in their historical and social contexts. Her work adds to our understanding of the production and function of these manuscripts and explores how Mexica identity is presented and framed after the conquest.

The Anthrax Protocol J. Thompson, 2016 *It Kills Slowly...* In an excavation site in Mexico, a team of archeologists uncovers the lost tomb of Montezuma--and a deadly strain of anthrax as ancient as the Biblical plagues. One by one, the team falls violently ill, bleeding from their eyes and ears before succumbing to a slow, painful death. Whatever was buried with the Aztec chief is still active, infectious--and now airborne... *It Spreads Quickly...* In Austin, a young archeologist listens to the dying words of her mentor in Mexico--a warning to quarantine the site before all hell breaks loose. In Atlanta, the CDC's Dr. Mason Williams leads an emergency squad on a life-or-death mission--into the hot zone. At Fort Detrick, an army officer sends a trained team to secure the anthrax--as a biological weapon. But time is running out. The disease is spreading rapidly across the border, into the airports, and across the globe, killing thousands. With no cure, no vaccine, and no way to contain it, there will be no hope for humanity--to survive...
