**Archi-Graphic** Frank Jacobus,2015-10-27 This informative and engaging book uses a variety of inventive infographics to take an unusual look at architecture in a way that would not be possible with words and images alone. Through a variety of different infographics it compares, for example, the range of materials and colours used by different architects, the relative locations of their buildings, who influenced who, and which architects are the most discussed. It also approaches architecture from more unconventional angles with spreads that show the kinds of architecture favoured by dictators, the networks of love affairs that architects got entangled in; the defining facial features of famous architects and so on. Irreverent and entertaining, this book will appeal to all those with an interest in architecture or infographics.

*Neri & Hu Design and Research Office* Rossana Hu,2021-08-24 A stunning collection of projects from Shanghai's leading architecture and design firm, Neri&Hu. Founded in 2004 by partners Lyndon Neri and Rossana Hu, Neri&Hu is an interdisciplinary architectural and design practice based in Shanghai that has established an international reputation and following. Through their innovative buildings in China, across Asia, and beyond, the firm has become a design-world favorite, collecting awards such as Overall Winner of the PLAN Award. This lavish volume, the most comprehensive monograph of the studio's work to date, features more than thirty projects at all scales with specially commissioned photography. Based in research, Neri&Hu "anchors their work on the dynamic interaction of experience, detail, material, form, and light" rather than limiting designs to one specific style. This ethos allows the company to thrive in a number of design disciplines, including architecture, interior design, furniture design, branding, and product design. As engaged with the world of interior design as with large-scale urban redevelopment projects, Neri&Hu's corpus spans a wide range of works that display Western influences adapted to the particular contexts of Asia. This collection is a beautiful design resource and a must-have for admirers of the firm.

Cloud Computing with the Windows Azure Platform Roger Jennings,2010-12-29 Leverage the power of the Azure Services Platform for cloud computing With the Azure Services Platform, processing and storing data moves from individual corporate servers and Web sites to larger, more reliable, and more secure data centers. Roger Jennings, author of more than 30 books on Microsoft technologies, shows you how to leverage the power of Azure and its related services for cloud computing. The book begins with a look at the differences between cloud computing and application hosting and examines the various issues that .NET developers and IT managers face in moving from on-premise to cloud-based applications, including security, privacy, regulatory compliance, backup and recovery, asset cataloging, and other common technical issues. The author then drills down, showing basic programming for individual Azure components, including storage, SQL Data Services, and .NET Services. He then moves on to cover more advanced programming challenges. Explains the benefits of using the Azure Services Platform for cloud computing Shows how to program with Windows Azure components, including Azure Table and Blob storage, .NET Services and SQL Azure Addresses advanced programming challenges of creating useful projects that combine cloud storage with Web applications or services Companion Web site features complete, finished applications that can be uploaded to jump start a Windows Azure project Roger Jennings clears away the clouds and gets you started using the Azure Services Platform.

.NET DevOps for Azure Jeffrey Palermo,2019-10-21 Use this book as your one-stop shop for architecting a world-class DevOps environment with Microsoft technologies. .NET DevOps for Azure is a synthesis of practices, tools, and process that, together, can equip a software organization to move fast and deliver the highest quality software. The book begins by discussing the most common challenges faced by developers in DevOps today and offers options and proven solutions on how to implement DevOps for your team. Daily, millions of developers use .NET to build and operate mission-critical software systems for organizations around the world. While the marketplace has scores of information about the technology, it is completely up to you to put together all the blocks in the right way for your environment. This book provides you with a model to build on. The relevant principles are covered first along with how to implement that part of the environment. And while variances in tools, language, or requirements will change the needed implementation, the DevOps model is the architecture for the working environment for your team. You can modify parts of the model to customize it to your enterprise, but the architecture will enable all of your teams and applications to accelerate in performance. What You Will Learn Get your .NET applications into a DevOps environment in AzureAnalyze and address the part of your DevOps process that causes delays or bottlenecksTrack code using Azure Repos and conduct acceptance testsApply the rules for segmenting applications into Git repositoriesUnderstand the different types of builds and when to use eachKnow how to think about code validation in your DevOps environmentProvision and configure environments; deploy release candidates across the environments in AzureMonitor and support software that has been deployed to a production environment Who This Book Is For .NET Developers who are using or want to use DevOps in Azure but don't know where to begin

**The Azure Cloister** Carlos Germán Belli,2021-10-15 New translations of poems by prominent Peruvian poet Carlos Germ n Belli. This selection of poems by internationally renowned Peruvian poet Carlos Germ n Belli tempers a dark, ironic vision of worldly injustice with the red midnight sun of hope. Belli's contemplative verses express faith in language, in bodily joy, and in artistic form. These thirty-five poems explore public and domestic spaces of confinement and freedom, from paralysis to the ease of a bird in its azure cloister. Translations by Karl Maurer retain Belli's original meter, follow his complex syntax, and meet the challenges of his poetic language, which ranges from colloquial Peruvian slang to the ironic use of seventeenth-century Spanish. This volume also includes notes and reflections on Belli and on the art of translation. Beyond introducing American readers to a major presence in world poetry, The Azure Cloister offers a fresh approach to the translation of contemporary verse in Spanish in this bilingual edition.

*Designed for the Future* Jared Green,2015-04-21 In Designed for the Future, author Jared Green asks eighty of today's most innovative architects, urban planners, landscape architects, journalists, artists, and environmental leaders the same question: what gives you the hope that a sustainable future is possible? Their imaginative

answers—covering everything from the cooling strategies employed at Cambodia's ancient temple city of Angkor Wat to the use of cutting-edge eco-friendly mushroom board as a replacement for Styrofoam—show the way to our future success on earth and begin a much-needed dialogue about what we can realistically accomplish in the decades ahead. Featuring an international roster of leading design thinkers including: • Biomimicry pioneer Janine Benyus • Curator Barry Bergdoll • Educator and author Alan Berger • Environmentalist and author Lester Brown • Architect Rick Cook • Urban Planner Paul Farmer • Critic Christopher Hume • Architect Bjarke Ingels • Landscape designer Mia Lehrer • Architect Rob Rogers • Critic Inga Saffron • Artist Janet Echelman

*Bruce Mau: MC24* Bruce Mau,2020-06-17 24 global, generous, and galvanizing principles to overhaul the way we think and to inspire massive change Bruce Mau has long applied the power of design to transforming the world. Developed over the past three decades, this remarkable book is organized by 24 values that are at the core of Mau's philosophy. MC24 features essays, observations, project documentation, and design work by Mau and other high-profile architects, designers, artists, scientists, environmentalists, and thinkers of our time. Practical, playful, and critical, it equips readers with a tool kit and empowers them to make an impact and engender change on all scales.

**Salmon** Cooking Sections,2020-10 SALMON: A RED HERRING traces the construction of salmon: the colour of a wild fish, which is neither wild, nor fish (nor even salmon). In this highly original work, Cooking Sections show that disregarding colour as a mere feature of matter risks taking life on Earth for granted. Colour is a vector that composes forms, entwines species, and signals environmental changes. This book accounts for how we ended up in a deceptive world where sparrows moult pink, dogs turn blue, and honey glows maraschino red; where pharaohs tint paint, laptops flavour fog, and farms feed colour.

Queer X Design Andy Campbell,2019-05-07 The first-ever illustrated history of the iconic designs, symbols, and graphic art representing more than 5 decades of LGBTQ pride and activism--from the evolution of Gilbert Baker's rainbow flag to the NYC Pride typeface launched in 2017 and beyond. Organized by decade beginning with Pre-Liberation and then spanning the 1970s through the millennium, QUEER X DESIGN will be an empowering, uplifting, and colorful celebration of the hundreds of graphics-from shapes and symbols to flags and iconic posters-that have stood for the powerful and ever-evolving LGBTQ movement over the last five-plus decades. Included in the collection will be everything from Gilbert Baker's original rainbow flag, ACT-UP's Silence = Death poster, the AIDS quilt, and Keith Haring's Heritage of Pride logo, as well as the original Lavender Menace t-shirt design, logos such as The Pleasure Chest, protest buttons such as Anita Bryant Sucks Oranges, and so much more. Sidebars throughout will cover important visual grouping such as a Lexicon of Pride Flags, explaining the now more than a dozen flags that represent segments of the community and the evolution of the pink triangle.

**Twenty Over Eighty** Aileen Kwun,Bryn Smith,2016-09-06 Twenty Over Eighty is a collection of insightful, intimate, and often irreverent interviews with twenty architecture and design luminaries over the age of eighty. Revealing conversations with leaders from a variety of fields—including graphic designers Seymour Chwast, Milton Glaser, Lora Lamm, and Deborah Sussman; architects Michael Graves, Denise Scott Brown, and Stanley Tigerman; urbanist Jane Thompson; industrial designer Charles Harrison; furniture designer Jens Risom; and critic Ralph Caplan—spotlight creators, thinkers, and pioneers whose lifelong dedication to experimentation and innovation continues to shape their disciplines well into their ninth decade. Twenty Over Eighty is not only a record of the remarkable histories and experiences of design's most influential figures but also a source of knowledge and inspiration for contemporary creatives and generations to come.
