Great Books for Babies and Toddlers Kathleen Odean,2008-12-18 "The ideal time to begin sharing books with children is during babyhood, even with children as young as six weeks." —Starting Out Right National Research Council All parents hope to give their children the best possible start in life. Many of them know it's a good idea to read to their children at a very young age, not with the goal of teaching their kids to read, but with the joy of having special time together looking at pictures and playing with words. Carefully chosen books that introduce children to the pleasures of language, simple story structure, and wonderful artwork are the foundation for a future love of books. *Great Books for Babies and Toddlers* is the first book of its kind—a guide to the best age appropriate children's books available. Compiled by Kathleen Odean, former Chair of the Newbery Award Committee, *Great Books for Babies and Toddlers* provides lively annotations for more than five hundred books, divided into two helpful categories: Nursery Rhymes, Fingerplays, and Songs; and Picture-Story Books for the Very Young. With story selections ranging from such classics of children's

literature as *Goodnight Moon* and *Where's Spot?* to excellent new books like *How Does a Dinosaur Say Good Night?* and *Buzz!*, *Great Books for Babies and Toddlers* will be more than a cherished guide for parents—it will also be a child's first step in the lifelong adventure of reading.

More Words about Pictures Perry Nodelman, Naomi Hamer, Mavis Reimer, 2017-05-08 This volume represents the current state of research on picture books and other adjacent hybrid forms of visual/verbal texts such as comics, graphic novels, and book apps, with a particular focus on texts produced for and about young people. When Perry Nodelman's *Words about Pictures: the Narrative Art of Children's Picture Books* was published almost three decades ago, it was greeted as an important contribution to studies in children's picture books and illustration internationally; and based substantially on it, Nodelman has recently been named the 2015 recipient of the International Grimm Award for children's literature criticism. In the years since *Words About Pictures* appeared, scholars have built on Nodelman's groundbreaking text and have developed a range of other approaches, both to picture books and to newer forms of visual/verbal texts that have entered the marketplace and become popular with young people. The essays in this book offer 'more words' about established and emerging forms of picture books, providing an overview of the current state of studies in visual/verbal texts and gathering in one place the work being produced at various locations and across disciplines. Essays exploring areas such as semiological and structural aspects of conventional picture books, graphic narratives and new media forms, and the material and performative cultures of picture books represent current work not only from literary studies but also media studies, art history, ecology, Middle Eastern Studies, library and information studies, and educational research. In addition to work by international scholars including William Moebius, Erica Hateley, Nathalie op de Beeck, and Nina Christensen that carries on and challenges the conclusions of *Words about Pictures*, the collection also includes a wide-ranging reflection by Perry Nodelman on continuities and changes in the current interdisciplinary field of study of visual/verbal texts for young readers. Providing a look back over the history of picture books and the development of picture book scholarship, *More Words About Pictures* also offers an overview of our current understanding of these intriguing texts.
