Born to Run Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

The Ravenmaster Christopher Skaife, 2018-10-02 For centuries, the Tower of London has been home to a group of famous avian residents: the ravens. Each year they are seen by millions of visitors, and they have become as integral a part of the Tower as its ancient stones. But their role is even more important than that—legend has it that if the ravens should ever leave, the Tower will crumble into dust and great harm will befall the kingdom. The responsibility for ensuring that such a

disaster never comes to pass falls to one man: the Ravenmaster. The current holder of the position is Yeoman Warder Christopher Skaife, and in this fascinating, entertaining and touching book he memorably describes the ravens' formidable intelligence, their idiosyncrasies and their occasionally wicked sense of humour. The Ravenmaster is a compelling, inspiring and irreverent story that will delight and surprise anyone with an interest in British history or animal behaviour.

Extinct Animals Ross Piper, 2009-03-20 Everyone is familiar with the dodo and the woolly mammoth, but how many people have heard of the scimitar cat and the Falkland Island fox? Extinct Animals portrays over 60 remarkable animals that have been lost forever during the relatively recent geological past. Each entry provides a concise discussion of the history of the animal—how and where it lived, and how it became extinct—as well as the scientific discovery and analysis of the creature. In addition, this work examines what led to extinction—from the role of cyclical swings in the Earth's climate to the spread of humans and their activities. Many scientists believe that we are in the middle of a mass extinction right now, caused by the human undermining of the earth's complex systems that support life. Understanding what caused the extinction of animals in the past may help us understand and prevent the extinction of species in the future. Extinct Animals examines the biology and history of some of the most interesting creatures that have ever lived, including: The American Terror Bird, which probably became extinct over 1 million years ago, who were massive predators, some of which were almost 10 feet tall; the Rocky Mountain Locust, last seen in 1902, formed the most immense animal aggregations ever known, with swarms estimated to include over 10 trillion insects; the Giant Ground Sloth, which was as large as an elephant; and the

Neandertals, the first Europeans, which co-existed with prehistoric Homo sapiens. Extinct Animals includes illustrations—many created for the work—that help the reader visualize the extinct creature, and each entry concludes with a list of resources for those who wish to do further research.

Global Teachers, Australian Perspectives Carol Reid, Jock Collins, Michael Singh, 2013-09-04
This is the first book on global teachers and the increasingly important phenomenon of 'brain circulation' in the global teaching profession. A teaching qualification is a passport to an international professional career: the global teacher is found in more and more classrooms around the world today. It is a two-way movement. This book looks at the growing importance of immigrant teachers in western countries today and at teachers who exit from western countries (emigrant teachers) seeking teaching experience in other countries. Drawing on the international literature in Europe, North America, Asia and elsewhere supplemented by rich insights derived from recent Australian research, the book outlines the personal, institutional and structural processes nationally and internationally underlying the increasing global circulation of teachers. It identifies the key drivers of global teacher mobility: a range of factors including family, lifestyle, classroom experience, travel, opportunities for advancement, discipline, linguistic skills, taxation rates, cultural factors and institutional frameworks and policy support. The book is the first detailed contemporary account of the experiences of Australian immigrant and emigrant teachers in the schools and communities where they teach and live. It makes an important and original theoretical and empirical contribution to the contemporary fields of sociology of education and immigration studies.

Restoring the Shattered Nancy E. Head,2018-10-02 Written in an easy-to-understand, conversational style, *Restoring the Shattered* is an account of Nancy E. Head's journey through single-motherhood and poverty. The permanent divide between her and her husband led to a shattering of their family as the children settled into separate camps. The story begins when Nancy and her children have little to eat. Through a miraculous intervention, God provides—and leads them along their way. Other interventions and more guidance came from people of different denominations, illustrating Christ's love through the larger Church. When one of Nancy's grown children became Catholic, she became more aware of the ways her own evangelical tradition often dismisses Catholic believers and misinterprets many of their doctrines. While doctrines may differ, so many essential beliefs are the same. *Restoring the Shattered* looks at the causes of the Reformation and other schisms, and how the original schism in Christianity happened because of a mistranslation. Misunderstanding others' faith languages feeds so much separation today. Nancy encourages pursuing accord among evangelical, Catholic, and Christian Orthodox communities in order to lead the Church to the kind of ministry that helped Nancy's family so much and rebuild the ruins of society through obedience to Christ's call for Christian accord.
