Paul Klee Hajo Duchting, 2012-08-25 A talented violinist as well as a painter, Klee drew much of the inspiration for his abstract art from musical rhythms and structures. Like a composer, he developed and harmonized pictorial themes, weaving a complex series of signs and symbols into his painting. The book focuses on Klee's decade long tenure at the Bauhaus, where the artist's theories and practices first merged. Illustrated throughout with full-color reproductions of Klee's paintings and etchings, as well as entries from his diaries, this unique study sheds light on an important aspect of Klee's work while providing insights into his development as an abstract artist.

The Art of Eric Carle Eric Carle, 2021-03-09 Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Paint by Sticker: Music Icons Workman Publishing, 2017-06-27 Paint by Sticker is the most exciting new idea in activity books, both for grown-ups and kids. A compelling activity for crafters and artists, doodlers and colorers of all ages, each Paint by Sticker book includes everything you need to create twelve vibrant, full-color "paintings." The original images are rendered in low-poly, a computer graphics style using geometric polygon shapes to create a 3D effect. As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it's an activity that's utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a "painting" come to life, emerging from a flat black-and-white

illustration to a dazzling image with color, body, and spirit. *Paint by Sticker: Music Icons* brings us face-to-face with Elvis, The Beatles, Beyoncé, David Bowie, Cher, Prince, Michael Jackson, Kurt Cobain, Madonna, Nina Simone, Dolly Parton, and Weird Al Yankovic.

The introduction deals with the problems of creativity and which parts of the brain are involved. Then an overview of art presents the multiple facets, such as anatomy, and the myths appearing in ancient descriptions of conditions such as polio and migraine. The neurological basis of painters like Goya and van Gogh is analysed. Other chapters in the section on art cover da Vinci's mechanics and the portrayal of epilepsy. The section on music concerns the parts of the brain linked to perception and memory, as well as people who cannot appreciate music, and the effect of music on intelligence and learning (the Mozart effect). The section on literature relates to Shakespeare, Dostoyevsky, Conan Doyle, James Joyce and the poetry of one of England's most famous neurologists, Henry Head.
