**Pediatric Patient Education Manual** Sara N. Di Lima,Loretta Haught,Aspen Reference Group (Aspen Publishers),1998 Nowhere is patient education more important than in the pediatric setting. Proper education ensures that patients, parents, and caregivers remain active participants in a child's ongoing care. The Pediatric Patient Education Manual provides the pediatric health care professional with patient and practitioner reference materials spanning infancy to adolescence. With the help of an editorial advisory board, materials have been collected from hospitals, individual and group pediatric practices, health departments, home care agencies, and academic settings, as well as extracted from the pediatric literature. The manual contains guidelines, instructions, checklists, and other tools to facilitate pediatric patient education. All chapters are prefaced by a detailed table of contents, separated by tabbed dividers, and comprised of large-print, uncluttered handouts that highlight major concepts and simplify patient teaching.

*Raising Drug-Free Kids* Aletha Solter,2009-03-25 In a nation where an estimated 25 percent of high-school seniors use illegal substances on a monthly basis, parents are wise to be concerned about setting their children on a drug-free course. While much advice handed out these days focuses on teen behavior and on what to do once drugs have become a problem in the home, Raising Drug-Free Kids takes an innovative approach and focuses instead on preventative measures that can be followed early on in a child's life. Developmental psychologist and parent educator Aletha Solter provides parents with simple, easy-to use tools to build a solid foundation for children to say no to drugs. Organized by age group, from preschool through young adulthood, the handy 100 tips will show parents how to help their children to: Feel good about themselves without an artificial high. Cope with stress so they won't turn to drugs to relax. Respect their bodies so they will reject harmful substances. Have close family connections so they won't feel desperate to belong to a group. Take healthy risks (like outdoor adventures) so they won't need to take dangerous ones.
