The show cannot be remastered in high definition or released on Blu-ray because of the CGI. Remember that Babylon 5 was one of the first shows to use CGI and it was created for the standard-definition televisions of the 1990s. At an average of 6,000 frames per episode, re-creating it from scratch is prohibitively expensive. Examine Details That Could Never Really Be Seen On Screen Study the nuances of the Starfury flight suits, the control consoles on the White Star, the faces of the Telepath embryos in the Vorlon genetic engineering tanks, the progress mural in the casino, the flags of the League races in the Council Chamber, the stanchions supporting the underground tunnels on Mars and the etchings on Galen's staff...every page delivers a moment of wonder. What Really Went On Behind The Scenes From seeing aliens on a break to a look inside the prop and costume closets, from lunchtime on the set to a backstage pass for the last day of shooting, and intimate glimpses of J. Michael Straczynski directing *Sleeping in Light*, this section turns the cameras around and shows the cast and crew in unguarded moments. Friend or Foe? The Figure of Babylon in the Book of Jeremiah MT John Hill, 2021-09-06 This work presents a literary interpretation of Babylon in the book of Jeremiah MT. It moves beyond historical-critical approaches, which have long dominated Jeremiah research, and shows that metaphor is central to a synchronic reading of the book. The study shows that Babylon is a multi-layered metaphor: at one level it is the archetypal enemy of both Judah and its God; at another level it is metaphorically identified with Judah. The study also explores the idea of the unended exile, and shows how this idea, so central to post-exilic Judaism, is also found in the book of Jeremiah MT.

Unveiling Three Parts of Babylon William C. Taggart III PhD, 2022-12-06 This second book of the Unveiling Series, *Unveiling Three Parts of Babylon*, by Dr. William C. Taggart III, offers a biblical study based on Revelation 16:19 where the kingdom of Satan, portrayed as the great city Babylon, falls into three parts. The author noted that in Revelation 18:4, the saints are urged to leave Babylon to avoid her plagues, Jeremiah 51: 35, 49. That the Satanic kingdom is portrayed biblically in three parts in Revelation 16:19, makes it imperative that the saints have a biblical understanding of those three parts to exit the Satanic kingdom completely. A correct biblical understanding of the three parts of Babylon is essential to the fleeing saints as they seek to escape the Satanic influences in all its forms. *Unveiling Three Parts of Babylon* continues the Unveiling Series by further biblically developing the three parts of Babylon which initially was presented by the author's doctoral dissertation through corrections made and additional analysis. This second book not only exposes more fully the kingdom of Satan but encourages the successful exit of all humanity from the Babylonian entanglements of all three parts, Revelation 18:4.

Sherlock Holmes in Babylon and Other Tales of Mathematical History Marlow Anderson, Victor Katz, Robin Wilson, 2022-04-26 Covering a span of almost 4000 years, from the ancient Babylonians to the eighteenth century, this collection chronicles the enormous changes in mathematical thinking over this time as viewed by distinguished historians of mathematics from the past and the present. Each of the four sections of the book (Ancient Mathematics, Medieval and Renaissance Mathematics, The Seventeenth Century, The Eighteenth Century) is preceded by a Foreword, in which the articles are put into historical context, and followed by an Afterword, in which they are reviewed in the light of current historical scholarship. In more than one case, two articles on the same topic are included to show how knowledge and views about the topic changed over the years. This book will be enjoyed by anyone interested in mathematics and its history - and, in particular, by mathematics teachers at secondary, college, and university levels.

Puritans in Babylon Bruce Kuklick, 2018-12-04 From the 1880s through the 1920s a motley collection of American scholars, soldiers of fortune, institutional bureaucrats, and financiers created the academic fields that give us our knowledge of the ancient Near East. Bruce Kuklick's new book begins with the story of the initial adventure of these determined investigators--a twelve-year dig near the Biblical Babylon, at Nippur, conducted at intervals from 1888 through 1900 and bankrolled by the Babylonian Exploration Fund. To unearth tens of thousands of cuneiform tablets, the leaders of this venture faced harsh living conditions in the desert and an academic war of each against all that was quickly begun at the site itself. As their knowledge increased, they risked their personal religious beliefs in the search for historical truth. Kuklick discusses their tribulations to illuminate two other contemporary developments: first, the maturation of the American university, particularly in contrast to its German counterpart; and second, the influence of religious-secular conflict on the ways in which Western scholarship appropriated or appreciated other cultures. The Nippur expedition spawned unseemly (and entertaining) fights among the University of Pennsylvania, Johns Hopkins, Yale, Harvard, and Chicago for leadership in the study of ancient Near East--not to mention disagreements with their own developing museums and an international scandal called the Hilprecht controversy. More significant than these quarrels was the concern for the meaning of history displayed in this period of Near Eastern scholarship. The field was linked to Biblical criticism and Judeo-Christian interests, and many of the orientalist originally possessed strong religious commitments--which some put aside as they struggled for objectivity. As recent critics have shown, orientalism was an example of the West's ability to appropriate the other for its own purposes. However, Kuklick's study demonstrates that the censure of orientalism hinges on modes of argumentation that scholars of the ancient Near East helped to legitimate, and at no small cost to themselves. Bruce Kuklick is Killbrew Professor of History at the University of Pennsylvania. Among his books are *To Every Thing a Season: Shibe Park and Urban Philadelphia, 1909-1976* (Princeton), *Churchmen and Philosophers: Jonathan Edwards to John Dewey*, and *The Rise of American Philosophy: Cambridge Massachusetts, 1860-1930*. Originally published in 1996. The Music Master of Babylon Edgar Pangborn, 2016-10-01 Influential science-fiction writer Edgar Pangborn drew on his own experiences as a musical prodigy to add realistic texture and detail to his engaging short story, *The Music Master of Babylon*. The tale is set in a post-apocalyptic version of New York that has been ravaged by war, giving rise to a new religion known as Abraham.

Battle of the Gods: The God of Israel Versus Marduk of Babylon Kessler, 2018-03-20 This monograph is a literary study of the oracles against Babylon in Jeremiah chapters 50-51. They form the climax of the foreign oracle collection in the book of Jeremiah. Included are a survey of early scholarship on these chapters, a discussion of genres and motifs, verbal components, and a succinct survey of the historical context. However, the major emphasis is directed to the dynamic of these oracles as a literary creation with a message. That message is directed to Judah and Israel, who are urged to flee a doomed city with its idolatrous civilization, and to return to their homeland, to Jerusalem, to enter a permanent covenant with YHWH the God of their fathers. Throughout, the literature is discussed in its natural contexts: within the oracle collection in Jeremiah, in comparison with the Isaian oracles against Babylon, and within the canonical book of Jeremiah, demonstrating the climactic position of these oracles.
