Sharent hood Leah A. Plunkett,2019-09-10 From baby pictures in the cloud to a high school's digital surveillance system: how adults unwittingly compromise children's privacy online. Our children's first digital footprints are made before they can walk—even before they are born—as parents use fertility apps to aid conception, post ultrasound images, and share their baby's hospital mug shot. Then, in rapid succession come terabytes of baby pictures stored in the cloud, digital baby monitors with built-in artificial intelligence, and real-time updates from daycare. When school starts, there are cafeteria cards that catalog food purchases, bus passes that track when kids are on and off the bus, electronic health records in the nurse's office, and a school surveillance system that has eyes everywhere. Unwittingly, parents, teachers, and other trusted adults are compiling digital

dossiers for children that could be available to everyone—friends, employers, law enforcement—forever. In this incisive book, Leah Plunkett examines the implications of “sharenthood”—adults' excessive digital sharing of children's data. She outlines the mistakes adults make with kids' private information, the risks that result, and the legal system that enables “sharenting.” Plunkett describes various modes of sharenting—including “commercial sharenting,” efforts by parents to use their families' private experiences to make money—and unpacks the faulty assumptions made by our legal system about children, parents, and privacy. She proposes a “thought compass” to guide adults in their decision making about children's digital data: play, forget, connect, and respect. Enshrining every false step and bad choice, Plunkett argues, can rob children of their chance to explore and learn lessons. The Internet needs to forget. We need to remember.

Diagnosing and Caring for the Child with Autism Spectrum Disorder Tina Iyama-Kurtycz, 2019-10-30 This unique resource is designed to be a practical, user-friendly guide for pediatricians, primary care providers, and all healthcare providers who work with children with autism spectrum disorder. Diagnosing and Caring for the Child with Autism Spectrum Disorder offers state-of-the art instruction to clinicians on how to recognize, diagnose and assist children with autism spectrum disorders, from early in life to transition to adulthood. This book will also delve into how to support pediatric patients by working with families, and discuss how to best interact with and support these families. The book opens with a comprehensive introduction of ASD and obstacles to diagnosis and common myths. Section Two is devoted to the early recognition of atypical development and reviews the steps in diagnosing autism, including the evaluation, the diagnostic visit, the developmental exam, and the discussion of findings with parents. Section Three covers treatment and interventions for the autism spectrum and includes a discussion on alternative therapies and how to direct parents toward evidence-based or plausible treatments. Section Four and Five addresses special topics that are relevant to the PCP's or pediatrician's long-term relationship with families, including chapters on anxiety, parents, challenging behaviors and common scenarios that occur across childhood for those who have ASD. Later chapters delve more deeply into providing informed, sensitive care for patients with intersecting identities, and discusses how gender identity and cultural perspective and attitudes can impact the pediatric patient with ASD. Engaging, and written in a conversational style, Diagnosing and Caring for the Child with Autism Spectrum Disorder will be an ideal resource for the pediatrician, primary care provider, and all healthcare providers working with children with ASD, providing concrete, step-by-step methods that readers can incorporate into their own practice.

Summary of Suzy Giordano & Lisa Abidin's The Baby Sleep Solution Everest Media, 2022-03-05T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The first step in training your baby to sleep through the night is to get them to sleep for twelve hours at night, one hour in the morning, and two hours in the afternoon. This is what I call the quick fix because it is a short-term solution that turns into a daily habit. #2 A new baby should not dictate the when, where, and how of normal family life. Babies are adaptable, and they should be exposed to all facets of family life. Otherwise, the existing family ends up living in a fearful and tense environment in which even breathing is frowned upon. #3 Parents need to be empowered to make decisions for their families. Do not feel like you have to incorporate every piece of parenting advice that you hear. You are the ultimate decision maker when it comes to raising your child. #4 The skill of sleeping soundly is as important as learning how to talk, walk, and other milestones in a baby's mental and physical development. You should therefore encourage good sleep skills by giving your baby the opportunity to self-soothe and fall asleep without you or other aids.

Bringing Home Baby Jeanne Murphy, 2005 More than 100 easy-to-use and wonderfully helpful tips for the early days of parenting.

Complete Baby & Child Care Miriam Stoppard, 2008-06-30 Authoritative but easily accessible, Complete Baby and Childcare is an invaluable source of information for all parents of infants, toddlers, and preschool kids. Dr. Miriam Stoppard takes the mystery out of child-rearing in this guide to the first five years of a child's life. The book provides information on topics as diverse as potty training and sleeping patterns to childhood phobias and developmental issues. This new edition has not only been given a completely new look with stunning new photography, but it has also been updated and rewritten with 20-25 percent new material. New information will cover the latest developments in baby and childcare, such as using sign language to communicate with your baby and progressive child-centered parenting tactics.

Losing Sleep Laura Harrison, 2022-08-16 New insights into the anxiety over infant sleep safety New parents are inundated with warnings about the fatal risks of “co-sleeping,” or sharing a bed with a newborn, from medical brochures and website forums, to billboard advertisements and the evening news. In Losing Sleep, Laura Harrison uncovers the origins of the infant sleep safety debate, providing a window into the unprecedented anxieties of modern parenthood. Exploring widespread rhetoric from doctors, public health experts, and the media, Harrison explains why our panic has reached an all-time high. She traces the way safe sleep standards in the United States have changed, and shows how parents, rather than broader systems of inequality that impact issues of housing and

precarity, are increasingly being held responsible for infant health outcomes. Harrison shows that infant mortality rates differ widely by race and are linked to socioeconomic status. Yet, while racial disparities in infant mortality point to systemic and structural causes, the discourse around infant sleep safety often suggests that individual parents can protect their children from these tragic outcomes, if only they would make the right choices about safe sleep. Harrison argues that our understanding of sleep-related infant death, and the crisis of infant mortality in general, has burdened parents, especially parents of color, in increasingly punitive ways. As the government takes a more visible role in criminalizing parents, including those whose children die in their sleep, this book provides much-needed insight into a new era of parenthood.
