Marketing the Million Dollar Practice Bill

Williams, 2013-09-11 Marketing The Million Dollar Practice defines the new paradigm of creating rapid growth and higher profits by generating loyal new patients for any professional practice. Dr Bill Williams, a dentist in Suwanee, GA, reveals 27 steps to follow to grow a practice 1/2 million dollars a year. Starting over with no patients, he grew from zero to \$5.8 million in 10 years. Every step can be duplicated, no matter what type of professional practice employs them; they are universal truths, not just unique-to-dentistry concepts. Endorsements by dental luminaries such as Dr Mike Abernathy of Summit Practice Solutions, Dr Bruce Baird of The Productive Dentist Academy, Dr Chris Kammer of the American Academy of Cosmetic Dentistry, Dr Bill Blatchford of Blatchford Solutions, and Gary Takacs, founder of Takacs Learning Center all point to one common recommendation: This book is a must get, must read and must apply book if you want a thriving professional practice in today's economic climate. Marketing The Million Dollar Practice is not just book of how to's on marketing. Dr Williams takes you through his personal journey that led him to make the Big Decision to start over. He gives the reader the tools to do a mental makeover that allows a complete re-framing of what is important in life and how to negotiate that often frightening tightrope stretched between those canyon walls called failure and success. Do you need to

rearrange your approach to marketing, tweak an already successful practice, or make a brand new start and create the practice of your dreams? This book is full of ideas; it can help any service business. Physicians, chiropractors, veterinarians, audiologists, spas and salons could all benefit from applying these new marketing methods. If you've ever heard of Guerrilla Marketing and want to see how it's implemented, you will want to read this book. Dr Williams is the only dentist who is a Certified Trainer in Guerrilla Marketing by Guerrilla Marketing's founder, Jay Conrad Levinson. This book includes 10 Guerrilla Marketing tactics for startup practices and his Seven Mountain Marketing Strategy. The centerpiece of Dr Williams' success is the New Patient Experience (93% case acceptance success). To understand how it is possible to average over \$10,000 per day in production, day in and day out, as an individual practitioner, it is essential to understand the psychology of sales and marketing and why people make the decisions they do. If you are a person who wants to find answers through prayer, you will want to see how Dr. Williams and his wife, Sheila, received The Answer. Follow their spiritual journey into Africa and back. Climb the Seven Mountains of Marketing, Dr Williams own prescription for practice growth. See the view of how to run a successful business from 10,000 feet. Running a \$5 million practice is not about doing all the work yourself. Dr Williams identifies the steps he took so that he could travel, take continuing education courses, do dental missions

and family vacations. Learn the value of mentors and how to position yourself as a mentor to others. Finally, Dr Williams describes the Perfect Dental Storm; when it all came together and how you can also achieve a similar result. Years of being an understudy paid handsome dividends. The road to success is paved with stones collected over a lifetime of experiences. Dr Williams offers readers to take and use stones he has collected over four decades of practice. All of this would never have been possible without the inspiration and guidance of Dr Williams' main mentor, Dr Omer Reed of Phoenix, AZ. Dr Reed opens this book with his Forward that provides contextual congruity, defines how it all came to be and why this book is important. Reed says that When the paradigm shifts, everyone starts at the beginning and in the case of this generation, Marketing has come a long way. The paradigm has shifted

The Trust Factor(tm) Jonathan Abenaim,Jonathan M Abenaim D M D,2017-01-18 As a dental practice owner, you spend countless hours ensuring your patients receive the very best treatment. And as the owner, you also feel the burden of running a successful business with many moving parts. You may feel as if you're alone at the top of the mountain, and it's up to you to make sure everything runs smoothly-and that's exactly what holds you back. When Dr. Abenaim bought his first practice, within six months, he lost 30 percent of

his patients despite his skills in dentistry, and the talent and efforts of his team. It wasn't until he realized that success did not depend on him, but rather on the unity of his team, that his practice began to transform. That transformation is only possible through the trust you cultivate with your team. Today, Dr. Abenaim runs a successful practice with grateful patients and a rock star team. Patients love coming to his practice, and his team loves their work. Do you want to learn how to get more out of your practice, your team, and your life? The Trust Factor(TM) will show you how.

Climb Every Mountain Linda J Edgar Med, Dds, Linda J. Edgar DDS, 2022-07-28 **Climb Every Mountain: Dr. Linda's Leadership Lessons** is a culmination of over 20 years of reading leadership books and gathering inspirational quotes and poems that helped Dr. Linda grow, become a better leader, a better speaker, a better coach and inspire others. The word Inspire means to Breathe Life into another. Her vision was to gather a lot of great leadership information in one book to help other leaders and future leaders be efficient with their time when preparing a talk, writing an article or just wanting to be inspired. As a national class marathon and triathlon competitor and running coach she often used the poems and quotes she has gathered in this book for inspiration. The book also talks about her leadership and athletic journey to show anyone that with enough grit and determination and removing the words can't and impossible from your vocabulary anything is possible. Blue Fire John Gilstrap, 2022-11-29 Stephen King's *THE STAND* meets *ONE SECOND AFTER* by William R. Forstchen in New York Times and USA Today bestselling author John Gilstrap's second pulse-pounding thriller set in the wake of a global conflict that has devastated America. Those who survived live in a world without technology or governance and ruled by the whims of nature. They look to one woman—single mother and former West Virginia Congressperson Victoria Emerson—to lead and protect those determined to rebuild all they have lost... “Engrossing...Fans of doomsday military thrillers will delight in the resilience of Gilstrap's family of preppers and their quest for survival on their terms.” —Publishers Weekly One-time congressional representative Victoria Emerson has become the leader of a small town in West Virginia, where it's a struggle just to provide food and shelter. Progress is encouraging—until one morning her son sounds the alarm “Blue Fire!”—the code phrase for imminent danger. A renegade band of National Guardsmen wants to take over the town and steal its resources. They've got the firepower to eliminate anyone who puts up a fight. But Victoria swore an oath to defend her people. It's time to tap into the traditional American values of courage, ingenuity, and patriotism—and fight fire with fire.

Public Health in Appalachia Wendy

Welch,2014-06-26 The Appalachian region of the United States sees hunger, poverty, disability, preventable illness and premature death in disproportionally high numbers. Yet, Appalachia also knows the quiet strength of people working together to lift one another up as a community. In this collection of essays, health professionals explore how clinics and communities address the barriers to healthcare that continue to plague this underserved region and discuss theoretical perspectives about Appalachian healthcare. Topics include regional dental care, cancer and diabetes treatment, the integration of primary care and behavioral health, telehealth, the importance of "patient responsibility," and the effects of faith, fatalism and family dynamics on the health of Appalachian youth. Avoiding simplification and stereotype while presenting data, analysis and anecdotes, this volume gives a detailed picture of Appalachia's complex and multi-faceted public health challenges.
