Back of The Napkin: Solving Problems and Selling Ideas with Pictures Dan Roam,2009-09-03 This original book provides a whole new way of looking at business problems and ideas. Dan Roam demonstrates how thinking with pictures can help you discover and develop new ideas, solve problems in unexpected ways, and dramatically improve your ability to share your insights with others. Used properly, a simple drawing on a humble napkin is more powerful than Excel or PowerPoint. It can help us crystallise ideas, think outside of the box, and communicate in a way that other people simply “get”. Drawing on 20 years of visual problem solving combined with recent discoveries in vision science, Roam shows us how to clarify a problem or sell an idea by visually breaking it down using a simple set of visualisation tools. His strategies take advantage of everyone’s innate ability to look, see, imagine and show

Show and Tell Dan Roam,2014-04-10 “If I tell you the truth, if I tell it with a story, and if I tell that story with pictures, I can keep you glued to your seat. Let me show you how.” For the vast majority of us, giving a presentation is an extremely difficult and nerve-wracking process, whether we’re in a one-on-one meeting, a conference room with a dozen strangers, or a lecture hall in front of thousands. But according to Dan Roam, the visual communications expert and acclaimed author of *The Back of the Napkin*, it doesn’t have to be so hard. We struggle when we forget the basic steps we learned in kindergarten: show and tell. In this short but powerful book, Roam introduces a new set of tools for making extraordinary presentations in any setting. He also draws on ideas he’s been honing for more than two decades, as an award-winning presenter who has brought his whiteboard everywhere from Fortune 500 companies to tiny startups to the White House. Even if you’re already a good speaker, you’ll learn more about understanding your audience, organizing your content, building a clear storyline, creating effective visuals, and channeling your fear into fun. And you’ll master three fundamental rules: • When we tell the truth, we connect with our audience, we become passionate, and we find self-confidence. • When we tell a story, we make complex concepts clear, we make ideas unforgettable, and we include everyone. • When we use pictures, people see exactly what we mean, we captivate our audience’s mind, and we banish boredom. From nailing the opening to leaving a lasting impression, you’ll soon be able to give the performance of a lifetime . . . time after time. PLEASE NOTE: This eBook edition of *SHOW AND TELL* is carefully laid out to match the print book; this means it reads much better as designed pages, but you won't be able to use some features such as highlighting and annotating text.

Blah Blah Blah Dan Roam,2011-11-01 Ever been to so many meetings that you couldn't get your work done? Ever fallen asleep during a bulletpoint presentation? Ever watched the news and ended up knowing less? Welcome to the land of Blah Blah Blah. The Problem: We talk so much that we don't think very well. Powerful as words are, we fool ourselves when we think our words alone can detect, describe, and defuse the multifaceted problems of today. They can't-and that's bad, because words have become our default thinking tool. The Solution: This book offers a way out of blah-blah-blah. It's called Vivid Thinking. In Dan Roam's first acclaimed book, *The Back of the Napkin*, he taught readers how to solve problems and sell ideas by drawing simple pictures. Now he proves that Vivid Thinking is even more powerful. This technique combines our verbal and visual minds so that we can think and learn more quickly, teach and inspire our colleagues, and enjoy and share ideas in a whole new way. The Destination: No more blah-blah-blah. Through Vivid Thinking, we can make the most complicated subjects suddenly crystal clear. Whether trying to understand a Harvard Business School class, or what went down in the Conan versus Leno battle for late-night TV, or what Einstein thought about relativity, Vivid Thinking provides a way to clarify anything. Through dozens of guided examples, Roam proves that anyone can apply this systematic approach, from leftbrain types who hate to draw to right-brainers who hate to write. This isn't just a book about improving communications, presentations, and ideation; it's about removing the blah-blah- blah from your life for good.

Draw to Win Dan Roam,2016-09-13 Get ready for the ultimate crash course in communicating and solving problems through simple pictures. Thirty-two thousand years ago, your many-times-great-grandparents Oog and Aag drew pictures on the wall of a cave. They had an innate need to communicate, but no written language. So they found an easy and natural way to share their thoughts and stories. Today, after so many years when speaking and writing dominated, we're back in another highly visual age. About 90 percent of everything shared online is now visual—selfies, GIFs, smartphone videos, and more. This explosion of communication through pictures isn't a millennial-driven fad; it's as natural as those lines first drawn by Oog and Aag. Just turbo-charged by the latest technology. And yet over the past twenty years, as I've taught people from Fortune 500 CEOs to White House staffers how to harness the power of imagery, the biggest objection I've always heard is, But I can't draw! Trust me, you can. You don't need to be da Vinci to be an outstanding visual thinker and communicator. The most effective drawings are the simplest, and you can get good at those in three minutes. In this little book, I'll teach you how to use seven basic shapes to explain just about anything to just about anyone. If you've read my previous books, you'll see one or two familiar tools here, along with a bunch of new tools you can start using right away. If you're new to my approach—welcome! Get ready to work smarter, communicate more clearly, and get better at whatever you do, just by picking up a pen. Get ready to draw to win.

Guesstimation 2.0 Lawrence Weinstein,2012-09-30 Simple and effective techniques for quickly estimating virtually anything *Guesstimation 2.0* reveals the simple and effective techniques needed to estimate virtually anything—quickly—and illustrates them using an eclectic array of problems. A stimulating follow-up to *Guesstimation*, this is the must-have book for anyone preparing for a job interview in technology or finance, where more and more leading businesses test applicants using estimation

questions just like these. The ability to guesstimate on your feet is an essential skill to have in today's world, whether you're trying to distinguish between a billion-dollar subsidy and a trillion-dollar stimulus, a megawatt wind turbine and a gigawatt nuclear plant, or parts-per-million and parts-per-billion contaminants. Lawrence Weinstein begins with a concise tutorial on how to solve these kinds of order of magnitude problems, and then invites readers to have a go themselves. The book features dozens of problems along with helpful hints and easy-to-understand solutions. It also includes appendixes containing useful formulas and more. Guesstimation 2.0 shows how to estimate everything from how closely you can orbit a neutron star without being pulled apart by gravity, to the fuel used to transport your food from the farm to the store, to the total length of all toilet paper used in the United States. It also enables readers to answer, once and for all, the most asked environmental question of our day: paper or plastic?

Napkin Notes W. Garth Callaghan, 2015-10-13 Garth Callaghan doesn't know how long he has to live. But he can be certain of one simple thing: No matter his fate, his daughter, Emma, will find a handwritten note inside her lunchbox each day until she graduates from high school. Cancer has given Garth Callaghan a new purpose: to inspire parents to connect more with their children even in small ways, as he has done before and since his diagnosis by tucking a napkin note into his daughter's lunch every day. Every morning as he packs Emma's lunch, Garth adds a little surprise: a "napkin note"—a short, tender message to convey his love, encouragement, and pride. Garth began writing his napkin notes when Emma was in grade school, and as she grew up, his notes became more meaningful. Shortly after Emma turned twelve, Garth learned he had kidney cancer. Determined to make the time he has left meaningful, he has compiled years' worth of notes to get his daughter through her high school graduation. Now, in this moving book, a blend of inspiration and memoir, he makes his remarkable legacy available to all of us, to deepen our relationships with our own children and those we love. Garth introduces each chapter with a napkin note and then shares a story connected to it and to his life. In the vein of *The Last Lecture*, *Tuesdays with Morrie*, and *Until I Say Good-bye*, *Napkin Notes* is an inspiring tale of family, love, and wisdom. Beautifully written, tender, and wise, it is sure to warm the hearts and touch the souls of readers everywhere.

Presentation Zen Garr Reynolds, 2009-04-15 FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. *Presentation Zen* challenges the conventional wisdom of making slide presentations in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Napkins with a Twist David Stark, 2006-01-01 As sweet as a love note, as welcome as a holiday, as easy as pie. Take simple squares of cloth, succinctly written directions, and clearly photographed steps and create fantastic napkin folds that transform your table into a showpiece. Mixing whimsy and elegance, celebrity event designer David Stark fashions stylish setups for every occasion. In *Napkins with a Twist*, Stark turns his unerring eye to the art of the perfect table setting, focusing on the quick, inexpensive, and creative. From everyday to evening, children's parties to black-tie affairs, a clever napkin fold turns any gathering into a memorable event. Classic folds such as the Tuexedo Fold, together with Stark's own innovative designs—including the wildly fun Fortune Cookie and Sushi Roll folds—make setting the table a no-brainer. Folds from Buckingham Palace and the Kennedy White House, New York's Pierre and Napa Valley's French Laundry, reveal how royalty, the rich and famous, the world's legendary restaurants, all put just the right touches on their signature starched linens. Along with its array of napkin folds, *Napkins with a Twist* spills over with useful tips, how-to lists, etiquette reminders, table settings, and surprising suggestions for how a napkin fold can become the starting point for designing an entire occasion.

The Back of the Napkin Dan Roam, 2009 When Herb Kelleher was brainstorming about how to beat traditional airlines, he grabbed a bar napkin and a pen. Three dots to represent three cities. Three arrows to show direct flights. Problem solved, and the picture made it easy to sell Southwest Airlines to investors and customers. Consultant Dan Roam shows readers how to harness their innate talent for visual thinking, promising that thinking with pictures can help anyone discover and develop new ideas, solve problems in unexpected ways and dramatically improve their ability to share their insights.

Guesstimation Lawrence Weinstein, John A. Adam, 2009-02-09 Guesstimation is a book that unlocks the power of approximation--it's popular mathematics rounded to the nearest power of ten! The ability to estimate is an important skill in daily life. More and more leading businesses today use estimation questions in interviews to test applicants' abilities to think on their feet. Guesstimation enables anyone with basic math and science skills to estimate virtually anything--quickly--using plausible assumptions and elementary arithmetic. Lawrence Weinstein and John Adam present an eclectic array of estimation problems that range from devilishly simple to quite sophisticated and from serious real-world concerns to downright silly ones. How long would it take a running faucet to fill the inverted dome of the Capitol? What is the total length of all the pickles consumed in the US in one year? What are the relative merits of internal-combustion and electric cars, of coal and nuclear energy? The problems are marvelously diverse, yet the skills to solve them are the same. The authors show how easy it is to derive useful ballpark estimates by breaking complex problems into simpler, more manageable ones--and how there can be many paths to the right answer. The book is written in a question-and-answer format with lots of hints along the way. It includes a handy appendix summarizing the few formulas and basic science concepts needed, and its small size and French-fold design make it conveniently portable. Illustrated with humorous pen-and-ink sketches, Guesstimation will delight popular-math enthusiasts and is ideal for the classroom.

The Complete Illustrated Book of Napkins and Napkin Folding Rick Beech, 2012 Napkins add the finishing touch to every table setting. The Napkin Advisor Jeff Kerns,Chris Carlson,2017-10-06 Have you ever imagined what it would be like if you could easily explain any concept to any prospect or client? And, explain it in such a way that it would be etched in their mind for months to come?For years, salespeople have used the back of a napkin to illustrate concepts and ideas. The reason? Using the back of the napkin requires making the even the most complex ideas easy to understand.Since the overwhelming majority of people have little understanding of either need for income protection or the products that provide the solutions, it is critical that agents, planners and advisors have a simple and effective way to communicate not only the importance of income protection, but also how the various products work.In this book, Jeff Kerns and Chris Carlson will reveal 50 ways you can use the back of a napkin to have a robust income protection conversation with an individual, a business owner or a corporate decision maker. If you become proficient in only one or two of these concepts, presenting income protection products will become so easy and your sales and commissions will skyrocket!

The Pop-up Pitch Dan Roam,2021-11-09 A fast and practical visual storytelling method that puts a powerful new toolkit into the hands of leaders, innovators, salespeople, teachers and anyone else who needs to quickly make an impact on increasingly distracted audiences. The Pop-Up Pitch is a radical new approach to help you create the perfect presentation, combining three key elements of persuasive storytelling-simple pictures, clear words, and powerful emotions-that together motivate audiences to pay attention, learn something new, and make effective decisions. The Pop-Up Pitch weaves together the latest insights on visual cognition, behavioral economics, and classic story structures in an easy-to-learn and inspiring storytelling algorithm. In this new era of remote, work and online presenting, it delivers powerful and persuasive outcomes for time-limited professionals dealing with complex ideas, attention-deficit audiences, and the evolving challenges of modern meetings.

The Back of the Napkin Dan Roam,2008 Explains how to use visual-thinking tools to solve business problems and convey ideas with little more than a scrap of paper.
