Pat Milner,Stephen Palmer

Doing Therapy Briefly Robert Bor, Sheila Gill, Riva Miller, 2017-03-14 With lengthy waiting lists, reduced resources and demands for more clearly defined performance outcomes, more and more counsellors, psychotherapists and psychologists are finding themselves under pressure to provide short-term treatment for their patients. In this book the authors argue that to work briefly counsellors need not just use a diluted version of their usual longer-term therapeutic model. They suggest that to work briefly is to work differently and they present the basic principles underlying a new trans-theoretical model.

Counselling Pat Milner, Stephen Palmer, 2001-12-18 'This Second Volume of Counselling is a comprehensive array of articles which convey the breadth and depth of the specialty as it grew during the 1990s. The volume brings together the most important and influential papers published in Counselling, the official journal of the BACP as it then was, over the last decade. In all, 92 articles have been chosen and scrupulously checked by the editors and, in most cases, the original authors, to fill the 680 pages of the Second Volume. These provide direct access to the main theories, practices and issues which underpin and continue to shape counselling and psychotherapy today. Each article concludes with discussion points to provoke further thought and study. For ease of access these papers are clustered in five sections: counselling approaches; contexts and practice; counselling issues; research; and the future. We can expect the number of research articles to double in the next volume as the way opens up for all practitioners to consider research a crucial part of professional life. The final section on the future has been written by the past Chief Executive of the BACP, and contains insight and wisdom on the challenges facing the profession at the dawn of the new century, with statutory regulation only a few years away. BACP receives many requests for back copies of the journal, Counselling, upon which this Reader is based, for use in training courses and programmes. The Second Volume of the Reader merits at least one copy in every medical library across the land for use not only in counselling and psychotherapy training, but for all those healthcare workers who use counselling skills in their work' - Maggie Pettifer, past Head of Publishing of BACP for Counselling and Psychotherapy Research Counselling provides direct access to the main theories, practices and issues which have underpinned and which continue to shape the development of counselling today. Combining accessible research studies with professional and personal reflections, the Reader draws on a diverse and authoritative range of articles to cover the key aspects of counselling, including: · counselling approaches · contexts and practice · counselling issues · research; and · future trends The Reader is ideal for use in training. It provides a wealth of source material and each article concludes with discussion issues to help initiate further thought and study. Students, trainees and practitioners in counselling and other professions will find this essential reading which challenges them to think deeply about counselling as it is practised today, and as it will be in the future.

Counselling Stephen Palmer, Sheila Dainow, Pat Milner, 1996-10-14 'The Reader reflects some of the best work published in Counselling, the Journal of the British Association for Counselling, over the past 15 years. The choice of articles also gives a historical perspective on the development of counselling in Britain... provides many hours of interesting reading and a wealth of learned experience all in one volume. I can see this book becoming recommended reading for counsellor training programmes' - British Psychological Society Counselling Psychology Review This comprehensive and stimulating Reader draws together key material which has been published in Counselling, the Journal of the British Association for Counselling, in recent years.

Legal Issues in Counselling & Psychotherapy Peter Jenkins, 2002-12-26 Peter Jenkins is a Lecturer in Counselling at the University of Manchester and a member of the Professional Conduct Committee of the

British Association for Counselling and Psychotherapy. He is author of three books on the law and counselling, including *Counselling, Psychotherapy and the Law* (London, SAGE, 1997). Providing much-needed advice and reference, this book examines the rapidly growing range of situations in which therapists find themselves in contact with the law. The book covers the current legal context of therapeutic work, and specific implications for therapists in relation to: working with survivors of sexual abuse; false memory; and the implications of the Human Rights Act. The book also examines the implications of professional regulation.

Forms Of Ethical Thinking In Therapeutic Practice Hill, Derek, Jones, Caroline, 2003-10-01 Most books about ethics focus either on the origins of ethics, or on the application of ethical thinking to a single form of therapy. This book sets out to span a range of very different forms of therapy and explores the similarities and the differences between the ethical thinking of the practitioners concerned. By looking at ethical issues in different therapeutic settings the reader is challenged to reconsider the working assumptions which underpin familiar therapeutic practice.

Getting the Best Start in Therapy Mamood Ahmad - Registered Psychotherapist (UKCP), 2020-05-07 Therapy, sometimes called counselling or psychotherapy, can and does change lives. However, it can be a daunting prospect, especially if you haven't worked with a therapist before or don't know if therapy (or the therapist) is going to be suitable for you. This book aims to empower your beginning in therapy by helping you feel confident about how and why therapy works, what problems it can help with, finding the right therapist, navigating the multitude of options and approaches, as well as answering your questions and concerns. You'll learn about what to expect at the initial session and understand contracting considerations. For therapists and trainee therapists many parts of this book will be familiar. However, the material here is an accumulation of research and my personal experience of clients, about their questions and concerns as they begin therapy. These concerns are addressed throughout this book and I hope they will provide a source for reflection and client centred adaptation in attuning to what consumers may need when they first enter therapy. Here are some of the biggest questions addressed in this book, if you are entering therapy you may well be asking some of these questions: *What is therapy? What is it like? How can this possibly work? You may be confused about how or why therapy would work as it appears to be just talking. *Is therapy going to work for me? Is it really an option? How do I navigate the minefield of therapy approaches, options and therapists available? Am I making the right choices? *How will I know I am working with a good therapist who is competent and will be able to help and keep me safe? *What can I expect when beginning therapy? What can I do to prepare and what do I need to be aware of when contracting for therapy? What if the therapist does not want to work with me? What can I do to make the best of therapy? What is my role? *Performance, Safety and Vulnerability concerns. Am I going to be judged? And not understood or told I'm wrong? What if I don't perform well? What if I can't say what I need to say? What can I do if I find it hard to be vulnerable? What if I don't want to talk about something? How do I deal with the proximity intimacy of face to face setting and the embarrassment of going to therapy? *Will I be safe? How confidential is confidential? What if I am part of a legal trial? Or I want to have records kept of what I talk about? Will I or someone I know get into trouble? What are my rights in therapy? *How is therapy going to impact my life? Financially, time, effort, my wellbeing and relationships? How can I reduce the financial cost of going to therapy? *How can I support someone who is in therapy? Does it matter that the therapist has recovered from similar problems to me? Or from the same cultural or similar beliefs e.g. spirituality. *Does the therapist gender, age, and how much they charge matter? Should I work with a trainee? How come I keep finding the wrong therapist? The beginning of

Why Therapy Works Louis Cozolino, 2015-11-10 The story of why psychotherapy actually works. That psychotherapy works is a basic assumption of anyone who sees a therapist. But why does it work? And why does it matter that we understand how it works? In *Why Therapy Works*, Louis Cozolino explains the mechanisms of psychotherapeutic change from the bottom up, beginning with the brain, and how brains have evolved—especially how brains evolved to learn, unlearn, and relearn, which is at the basis of lasting psychological change. Readers will learn why therapists have to look beyond just words, diagnoses, and presenting problems to the inner histories of their clients in order to discover paths to positive change. The book also shows how our brains have evolved into social organs and how our interpersonal lives are a source of both pain and power. Readers will explore with Cozolino how our brains are programmed to connect in intimate relationships and come to understand the debilitating effects of anxiety, stress, and trauma. Finally, the book will lead to an understanding of the power of story and narratives for fostering self-regulation, neural integration, and positive change. Always, the focus of the book is in understanding underlying therapeutic change, moving beyond the particular of specific forms of therapy to the commonalities of human evolution, biology, and experience. This book is for anyone who has experienced the benefits of therapy and wondered how it worked. It is for anyone thinking about whether therapy is right for them, and it is for anyone who has looked within themselves and marveled at people's ability to experience profound transformation.

Confidentiality and Record Keeping in Counselling and Psychotherapy Tim Bond, Barbara Mitchels, 2008-09-12 'This is an excellent book...Those involved in writing agency policy as well as therapists working within these structures and independently should view this as a mainstay of their reference library. Trainers and supervisors will also find it invaluable' - Therapy Today Journal, December 2008 'This book is an original, insightful, comprehensive and practical guide for all working in the field...a must read for any counsellor or psychotherapist or anybody else working in the field of psychological therapies' - Professor Cary L. Cooper, CBE, President of BACP 'There are few legal issues as important to clients and their therapists as confidentiality and record keeping. This book is essential reading for all counsellors and psychotherapists' - Esther Rantzen, Chair & Founder of Childline and Vice President of BACP Confidentiality is an essential condition of counselling and psychotherapy that enables clients to talk honestly and openly about their situation. As a core aspect of everyday practice, therapists need to understand both the legal and ethical implications of providing confidentiality and of keeping records concerning their clients. Confidentiality and Record Keeping in Counselling and Psychotherapy provides a practical introduction to the topic, containing guidance on: - why and how records should be kept - how to balance therapeutic benefits from keeping records with potential legal ramifications - confidentiality

agreements with clients in a variety of therapeutic settings - confidentiality in training and supervision.

Counselling and Psychotherapy for the Prevention of Suicide David A. Winter, Siobhan Bradshaw, Frances Bunn, David Wellstead, 2009

When Someone You Love Has Depression Barbara Baker, 2013-02-21 This work describes the causes, symptoms and treatment of depression and goes into detail about the difficulties of caring for someone who is depressed. It explores how depression affects relationships and the emotions of carers.

Short-term Counselling in Higher Education David Mair, 2015-11-19 As demand for counselling from students across Higher Education (HE) increases year on year, counselling services are continually seeking to explore creative ways of working under the pressure that results from this rise in client numbers. One of the most frequent responses to increased demand is limiting the number of sessions that individual students may have. Until *Short-term Counselling in Higher Education*, there has been no text which provides a contextual, theoretical and practical input to this evolving way of working. This book explores constructive ways of providing very short-term counselling within a Higher Education context. Using case-studies, and employing up-to-date statistics from the sector, the book gives readers a clear understanding of the nature of the professional challenges, and offers ways of addressing these, including managing waiting lists, developing policies to facilitate timely intervention, and understanding the limitations of what short-term therapy can offer. *Short-term Counselling in Higher Education* explores the implications of working in Higher Education counselling services in this very short-term way, and as such it will be an essential resource for counsellors, heads of counselling services and student services managers in Higher Education, helping to find ways of delivering effective short-term interventions within existing counselling services.

Counselling and Psychotherapy in Organisational Settings Ruth Roberts, Judith Moore, 2010-09-08 This book introduces some of the specific contexts in which today's counsellors and psychotherapists find themselves working. It draws upon the experience of counsellors active in their field and uses relevant examples of the potential pitfalls and rewards of counselling in diverse institutional settings. Counsellors are introduced to the regulatory, legislative, economic, social and cultural considerations relevant to the confidential work between counsellor and client. They are also encouraged to think beyond the therapy room to the institutional context of the encounter with the client while keeping professional identity and integrity at the forefront of their work.

How to Succeed in your Counselling and Psychotherapy Training Cecilia Jarvis, 2023-03-28 "A much needed and long-awaited book. An important read for all wishing to succeed in their training." Professor John Nuttall, Regent's University London and Chair of West London Centre for Counselling, UK "This is an eminently useful and accessible book for anyone considering embarking on counselling and psychotherapy training. I can recommend it to anyone considering training, or at the beginning part of their journey." Dr Biljana van Rijn, Metanoia Institute, UK "This beautifully structured manual serves as a companion to navigating the complex and multi-layered journey of a therapy training. It adds an invaluable contribution to any reading list for Counselling and Psychotherapy trainings." Sue Healey BACP Accredited Counsellor, Counselling Tutor *How to Succeed in Your Counselling and Psychotherapy Training* is an accessible and friendly guide for new trainee counsellors and psychotherapists. It outlines the difficulties that a new trainee may encounter and provides guidance on the main aspects of the training journey, both in the classroom and in a clinical placement. As well as excerpts from trainees who have shared their experience of the training journey this book includes guidance on: • The full cycle of training – from choosing a training to the post qualifying year • The key components of clinical practice – starting

work in a clinical placement and how to make the most of supervision • The essential aspects of training – from development of reflective practice to competency in assessment • How to develop a therapeutic presence, the ability to work with a client's feelings and how to communicate and work within the therapeutic relationship The book is structured so that readers can dip in and out of chapters depending on their current needs or interests. Additionally, there are self-reflection exercises throughout to help stimulate thinking and to prepare the reader for supervision. Cecilia Jarvis is a UKCP registered psychotherapist. Cecilia has over thirty years' experience of being a trainer and clinical supervisor in the field of counselling and psychotherapy. She was the co-founder of The Professional Diploma in Integrative Counselling at the Mary Ward Centre, London, UK.

Living with Othello Syndrome: A Modern Day Tragedy Debbi Wood, 2013-12 The book raises the issue of morbid obsessions especially Jealousy, It goes deep into the condition of Othello Syndrome, Which is the psychiatric disorder of the mind, where you become obsessed with your partners fidelity, repeated accusations of the partner cheating on you, checking their phone, emails, and social media sites for signs of cheating, and the more bizarre things that you do once you are obsessed, Such as bugging the house, buying a lie detector, having your partner followed, checking up on them at work, checking up on them when they are with their friends, needing evidence and reassurance they are not cheating on you, even to the point of hearing a person of the opposite sex in the background where ever they are, and thinking they are with them and cheating on you. It is natural to have a form of anxiety about a partner, even mild jealousy.

Understanding Depression Nicolette Heaton-Harris, 2008-01-25 Without doubt, the rising incidence of depression in society is of growing concern to both the layperson and the professional. This is a wide-ranging introduction to the nature and origins of depression, and also the existing support framework. It covers topics including the sources and types of depression, medications and treatment, post natal depression, manic depression, self harm and suicide, CBT and case studies.
