**With a Little Help** Cory Doctorow, 2015-07-16 With a Little Help is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. With a Little Help consists of 12 stories, all reprints except for Epoch (commissioned by Mark Shuttleworth).

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of Furiously Happy. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent Let's Pretend This Never Happened, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. **Rescue, Response, and Resilience: a Critical Incident Review of the Orlando Public Safety Response to the Attack on the Pulse Nightclub** Frank Straub, Jack Cambria, Jane Castor, Ben Gorban, Brett Meade, David Waltemeyer, Jennifer Zeunik, U. S. Department of Justice, 2019-08-15 The shooting attack on the Pulse nightclub in June 2016 claimed the lives of 49 individuals and injured 58 more. It was an event of extreme violence, carnage, and confusion. Yet the Orlando Police Department (OPD) performed with great courage and professionalism, averting a potentially greater loss of life. Recognizing that there were many lessons to be shared and learned from this incident, the OPD asked the COPS Office to conduct a Critical Incident Review of the attack. This Police Foundation report on the incident review details multiple aspects of the attack and response, including leadership, collaboration, tactics, equipment, training, emergency medical care, officer safety, public information, and community relationships. In so doing, it identifies best practices for planning, training, and procedures in all areas of response to a similar attack or mass casualty event and can serve as a valuable guide to law enforcement or first responders seeking to prepare for similar incidents.

**Why You Have Not Committed the Unforgivable Sin** Jeremy Myers, 2012-06-12 Most Christians have wondered at one time or another if they have committed the unpardonable sin. If this is your fear, be encouraged. You have not committed the unforgivable sin. You are not eternally damned. You are not forsaken by God. You are not hated by God. You are not outside the bounds of His love and grace. Quite to the contrary, you are loved by God more than you possibly know. You are forgiven. You are accepted. In this book, Jeremy Meyers shows why you have not committed the unforgivable sin. He surveys the various views about blasphemy against the Holy Spirit and examines Matthew 12:31-32 to show what Jesus meant when He talked about blasphemy against the Holy Spirit.

*The Global Smartphone* Daniel Miller, Laila Abed Rabho, Patrick Awondo, Maya de Vries, Marília Duque, Pauline Garvey, Laura Haapio-Kirk, Charlotte Hawkins, Alfonso Otaegui, Shireen Walton, Xinyuan Wang, 2021-05-06 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland – all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.

*Start-up Nation* Dan Senor, Saul Singer, 2011-09-07 What the world can learn from Israel's meteoric economic success. Start-Up Nation addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the Israel effect, there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Ken Jennings's Trivia Almanac Ken Jennings, 2008-01-15 Ken Jennings's Trivia Almanac is the ingeniously organized book where, for a change, the all-time Jeopardy! champ gets to ask the questions--and where every day of the year will give you the chance to test your trivia mettle. For example--February 21: In 1912, on this day, Teddy Roosevelt coined the political phrase "hat in the ring," so Ken Jennings fires off a series of "ring" questions. What two NFL quarterbacks have four Super Bowl rings each?\* What rings are divided by the Cassini Division?\*\* Also on this date, in 1981, the "goth" music scene was born in London, so here's a quiz on black-clad icons like Darth Vader, Johnny Cash, and Zorro. Do you know the secret identities of Ivanhoe's Black Knight\*\*\* or Men in Black's Agent M\*\*\*\*? In this ultimate book for trivia buffs and other assorted know-it-alls, the 365 entries feature "This Day in History" factoids, trivia quizzes, and questions categorized by Jennings as "Easy," "Hard," and "Yeah, Good Luck." Topics cover every subject under the sun, from paleontology to mixology, sports feats to Bach suites, medieval popes to daytime soaps. This addictive gathering of facts, oddities, devilishly clever quizzes, and other flights of fancy will make each day a fun and intriguing new challenge.

Blueprint for Revolution Srdja Popovic, Matthew Miller, 2015-02-03 An urgent and accessible handbook for peaceful protesters, activists, and community organizers—anyone trying to defend their rights, hold their government accountable, or change the world Blueprint for Revolution will teach you how to • make oppression backfire by playing your opponents' strongest card against them • identify the "almighty pillars of power" in order to shift the balance of control • dream big, but start small: learn how to pick battles you can win • listen to what people actually care about in order to incorporate their needs into your revolutionary vision • master the art of compromise to bring together even the most disparate groups • recognize your allies and view your enemies as potential partners • use humor to make yourself heard, defuse potentially violent situations, and "laugh your way

to victory” Praise for Blueprint for Revolution “The title is no exaggeration. Otpor’s methods . . . have been adopted by democracy movements around the world. The Egyptian opposition used them to topple Hosni Mubarak. In Lebanon, the Serbs helped the Cedar Revolution extricate the country from Syrian control. In Maldives, their methods were the key to overthrowing a dictator who had held power for thirty years. In many other countries, people have used what Canvas teaches to accomplish other political goals, such as fighting corruption or protecting the environment.”—The New York Times “A clear, well-constructed, and easily applicable set of principles for any David facing any Goliath (sans slingshot, of course) . . . By the end of Blueprint, the idea that a punch is no match for a punch line feels like anything but a joke.”—The Boston Globe “An entertaining primer on the theory and practice of peaceful protest.”—The Guardian “With this wonderful book, Srdja Popovic is inspiring ordinary people facing injustice and oppression to use this tool kit to challenge their oppressors and create something much better. When I was growing up, we dreamed that young people could bring down those who misused their power and create a more just and democratic society. For Srdja Popovic, living in Belgrade in 1998, this same dream was potentially a much more dangerous idea. But with an extraordinarily courageous group of students that formed Otpor!, Srdja used imagination, invention, cunning, and lots of humor to create a movement that not only succeeded in toppling the brutal dictator Slobodan Milošević but has become a blueprint for nonviolent revolution around the world. Srdja rules!”—Peter Gabriel “Blueprint for Revolution is not only a spirited guide to changing the world but a breakthrough in the annals of advice for those who seek justice and democracy. It asks (and not heavy-handedly): As long as you want to change the world, why not do it joyfully? It’s not just funny. It’s seriously funny. No joke.”—Todd Gitlin, author of *The Sixties* and *Occupy Nation*

The Precariat Guy Standing, 2021-07-15 This book presents the new Precariat – the rapidly growing number of people facing lives of insecurity, on zero hours contracts, moving in and out of jobs that give little meaning to their lives. The delivery driver who brings your packages, the uber driver who gets you to work, the security guard at the mall, the carer looking after our elderly...these are The Precariat. Guy Standing investigates this new and growing group, finding a frustrated and angry new underclass who are often ignored by politicians and economists. The rise of zero hours contracts, encouraged by fat cat corporations as risk-free employment, and by silicon valley as a way of outsourcing costs and responsibility, has been exacerbated by the COVID pandemic. At the same time, in its experience of lockdown, the western world is realizing the true value of these nurses, carers and key workers. The answer? The return of income security and meaningful work - the principles 20th century capitalism was built on. By making the fears and desires of the Precariat central to economic thinking, Standing shows how concepts like Basic Income are not just desirable but inevitable, and plots the way to a better future.

Hanging Out, Messing Around, and Geeking Out, Tenth Anniversary Edition Mizuko Ito, Sonja Baumer, Matteo Bittanti, Danah Boyd, Rachel Cody, 2019-09-24 The tenth-anniversary edition of a foundational text in digital media and learning, examining new media practices that range from podcasting to online romantic breakups. *Hanging Out, Messing Around, and Geeking Out*, first published in 2009, has become a foundational text in the field of digital media and learning. Reporting on an ambitious three-year ethnographic investigation into how young people live and learn with new media in varied settings—at home, in after-school programs, and in online spaces—it presents a flexible and useful framework for understanding the ways that young people engage with and through online platforms: hanging out, messing around, and geeking out, otherwise known as HOMAGO. Integrating twenty-three case studies—which include Harry Potter podcasting, video-game playing, music sharing, and online romantic breakups—in a unique collaborative authorship style, *Hanging Out, Messing Around, and Geeking Out* combines in-depth descriptions of specific group dynamics with conceptual analysis. Since its original publication, digital learning labs in libraries and museums around the country have been designed around the HOMAGO mode and educators have created HOMAGO guidebooks and toolkits. This tenth-anniversary edition features a new introduction by Mizuko Ito and Heather Horst that discusses how digital youth culture evolved in the intervening decade, and looks at how HOMAGO has been put into practice. This book was written as a collaborative effort by members of the Digital Youth Project, a three-year research effort funded by the John D. and Catherine T. MacArthur Foundation and conducted at the University of California, Berkeley, and the University of Southern California.

**Human Factors Considerations of Undergrounds in Insurgencies** Us Army Special Operations Command, 2017-08-31 From the preface: The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtria e Lirimitare e Kosovës (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al'Islamiyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines.

**Digital Material** Marianne van den Boomen, 2009 This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. New Media Studies crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to blogging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

Bruce Springsteen: Songs Bruce Springsteen, 2001-01-01 Commemorating Bruce Springsteen's twenty-five years as a recording artist, here is a panoramic view of his career in a form never seen before. This is the complete collection of Bruce Springsteen's recorded lyrics, illustrated with hundreds of never-before-published images from some of rock & roll journalism's greatest photographers, including Annie Leibovitz, David Gahr, Lynn Goldsmith, Bruce Weber, and many others. From Jim Marchese's informal backstage shots during the European leg of the 1980 *The River* tour to Neal Preston's amazing documentation of the *Born in the U.S.A.* days to Pam Springsteen's portraits showing a side of the musician rarely seen by the public, this is the most intimate look at Bruce Springsteen ever published. The photos and lyrics are accompanied by original commentary by Springsteen, in which he reflects on the songs, the performances, and the quarter-century career that for many defines the American dream. In words and in pictures, here is the one book no Bruce Springsteen fan can afford to be without.
