Guide to the Decision-making Tool for Evaluating Passenger Self-tagging Francis Barich, 2011 TRB's Airport Cooperative Research Program (ACRP) Report 41: Guide to the Decision-Making Tool for Evaluating Passenger Self-Tagging provides the information and tools, included on and accompanying CD-ROM, necessary for an airport or airline to determine the appropriateness of pursuing passenger self-tagging should it be allowed in the United States in the future. The tools, in an Excel Spreadsheet format, allow for the input of airport-specific information, such as facility size and passenger flows, while also providing industry averages to assist those airports and airlines that haven't yet collected their individual information. The decision-making tools provide both qualitative and quantitative information that can then be used to assess if passenger self-tagging meets organizational needs or fits into their strategic plan. Appendix A to ACRP 41 was published online as ACRP Web-Only Document 10: Appendix A: Research Documentation for ACRP Report 41. The CD-ROM included as part of ACRP Report 41 is also available for download from

Full Upright and Locked Position Mark

Gerchick, 2013-06-10 Sit back, relax, and enjoy the flight, our pilots still intone, but who are they kidding? The reality of commercial air travel—a multi-billion-dollar business obsessed with efficiency and the bottom line—has little to do with the “miracle” of soaring serenely above the clouds. In Full Upright and Locked Position Mark Gerchick draws on his twenty years spent advising several of America's largest airlines and airports, and as a key government aviation official, to decipher the quirks, mysteries, and unseen forces that have shaped the flying experience since September 11, 2001. From the effects of crushing fuel prices to the alchemy of air fares and endless nickel-and-diming, Gerchick explains how flying is losing its soul and what that means practically for our health, safety, and most of all our sanity. Aviation enthusiasts and everyday travelers alike will find this journey alternately fascinating, disturbing, and even a little funny.
