My Blue Elephant Vidya Varadarajan,2019-08-30 A little girl has a BIG secret. It's her pet elephant, but sshhh ... nobody knows! Will she be able to hide him for long?

In Search of Another Life Chirag Jain,2020-11-09 Remember! We all have that uncomfortableness in us, urging us to walk away; away in search of another life; away in search of things mightier than us, only to make us realize that these mightier things dwell in ourselves, not in society. They lie in deepening of the valleys, shallows of the brooks, narrow stretches of the trees, voids of the wilderness. They lie deep inside you; on the plains of the knowledge, in the vastness of the love and fountains of the youth. This is the story of finding freedom, of breaking shackles, and of how life experiences are far beyond enriching and educating. This is about a fourteen-year-old boy, inspired by Tolstoy and Twain, staggering in search of another life. Leaving a miserable life full of unanswered questions and loneliness, an orphan begins a journey. A journey traversing through the hilly terrains of Pachmarhi - the Queen of the Satpura, wherein a child gets lost and finds himself as a grown human This travelogue cum diary is written from the perspective of a child who has nothing and no one to rely on. And how the words of long-gone authors etched in ink, inspire him to set his foot out of the boundaries created by society. Walking with Roli, join him on his journey between life and death, happiness and sorrow, societal and secluded life.

Advanced Antimicrobial Materials and Applications Inamuddin,Mohd Imran Ahamed,Ram Prasad,2020-11-04 Surface bio-contamination has become a severe problem

that contributes to outbreaks of community acquired and nosocomial infections through contiguous fomite transmission of diseases. Every year, thousands of patients die due to nosocomial infections by pathogens. It is therefore essential to develop novel strategies to prevent or improve the treatment of biomaterial concomitant infections. The concept of antimicrobial materials is becoming increasingly important not only in the hospital and healthcare environments, but also for laboratories, home appliances, and certain industrial applications. Materials are now being developed to prevent the buildup, spread and transfer of harmful microbes, and to dynamically deactivate them. Drawing on research and examples from around the world, this book highlights the latest advances in, and applications of, antibacterial biomaterials for biomedical devices, and focuses on metals with antibacterial coatings/surfaces, antibacterial stainless steels and other commonly used antibacterial materials. It also discusses the role of innovative approaches and provides a comprehensive overview of cutting-edge research on the processing, properties and technologies involved in the development of antimicrobial applications. Given its scope, the book will be of interest to researchers and policymakers, as well as undergraduate and graduate students of biochemistry, microbiology, and environmental chemistry

Flipka Jt Twissel, 2013-07 JT Twissel artfully mixes mystery, conspiracy theories, the supernatural, and Native American folklore with a sardonic wit and ambitious search for the truth to take the reader on a journey with a cast of colorful characters that begins--and ends--with a found Civil War journal. The year is 1978 when former psychoanalyst Fiona Butters is sent to a notorious reformatory for girls in the middle of the Nevada desert by

Mr. Las Vegas--her powerful and persuasive boss--to check on his daughter's welfare after a counselor inexplicably disappears. The reluctant Butters is suddenly thrust into the unintended role of private investigator in a search for answers to questions she doesn't yet know to ask. A junk food junkie with a knack for rubbing people the wrong way, Butters encounters evasion by the reformatory Head Mistress, roadblocks by the authorities, and a handler compliments of Mr. Las Vegas--a surly alcoholic who would rather spend his time in the local bars. It isn't until Butters forms an unlikely alliance with a button-down professor and an eccentric WWII veteran with a penchant for alliteration and sexual innuendo that she begins to learn the secrets of the desert. An intriguing adventure with lots of plot twists, Flipka will entertain and engage with the irreverent and quirky, as well as raise provocative and timeless questions of what government doesn't tell...and why.

Bootstrapping a Software Company Pawan

Yadav,2010-05-13 We have great pleasure in presenting this book (Concept) to forthcoming/budding Entrepreneurs in the software development arena. The future of Indian software industry is bright and we want to help create leaders in the software industry. This book throws light on a step-by-step approach to set up a software company with little or no money known as bootstrapping. This book is an essence of experiences of people who worked hard to become Entrepreneurs. This book does not describe the theory but presents a 100% practical approach. It doesn't matter whether you are experienced in this field, are looking to invest or making a fresh start, we hope that this book will boost your confidence tremendously. We express our sincere thanks to all Entrepreneurs who helped us in sharing their valuable time, experiences, guidance and knowledge to make this project a grand success. In fact, without them it would have remained a mere hypothesis. With the help of our expert entrepreneurs, we have divided the majority of our concepts into two parts: 1. Pre-planning: Planning is required before starting the start up. 2. Post-planning: Planning required for sustaining the company with profitability after you have started it. In spite of our best efforts, the book may contain within it some shortcomings. We would be thankful if they are brought to our notice. We shall consider our labor amply rewarded if this concept is appreciated for whom it is

meant. About the Author Pawan Yadav is an enthusiastic writer on entrepreneur skills and youth expert. He writes extensively on youth, careers and entrepreneurship.
