**Tackling the Wicked Challenge of Strategic Change** Professor Longmore,2014-06-19 The aim of this book is to make better sense of a long, complex, messy, change process through the stories of those who were involved. Over fifty participants were interviewed during the course of the study and their uniquely personal perspectives have been woven into a compelling story of organisational change. This book describes their ingenuity and effort in bringing about change that they and their organisation valued. Between 2009 and 2012, Southampton Solent University (UK) engaged in an unprecedented and highly complex strategic initiative which ran across the entire institution, its structures, processes and systems; it aimed to produce a fundamental shift in institutional culture. Such an all-embracing approach is rare in universities. This programme of organisational change is seen through the eyes of people who were immersed in the process. Their perspectives and feelings will resonate with anyone who has tried to bring about significant change in a university. Universities are inherently creative places but too often there is a pervasive inertia that prevents ideas from being turned into new and better practices. This programme aimed to create a culture of innovation. Conventional project planning techniques were deliberately avoided and replaced with an approach based on complexity theory, recognising that the process of change requires constant adaptation, acceptance of non-linear progress and subversion of conventional management discourse. Offering an unusual example from the higher education sector, this study is a distinctive contribution to the extensive literature on organisational change. Learning gained from participants is related to theories and research from this wider literature. The study proposes a holistic and integrated approach to change which might offer a more culturally relevant and sustainable model both for higher education and for those sectors of industry and commerce from which much change management practice has conventionally been drawn.

**Global Perspectives on Strategic Storytelling in Destination Marketing** Campos, Ana Cláudia,Almeida, Sofia,2022-05-27 Stories have always been part of tourism with tourists eager to both share and listen to stories about destinations. Destinations also build identity and distinctiveness by sharing stories with visitors. It is essential to gain a deeper understanding of the role that stories play in marketing and branding destinations, as well as how storytelling through digital mobile technologies can aid in these practices. Global Perspectives on Strategic Storytelling in Destination Marketing is a key reference that offers theoretical frameworks and empirical approaches to the study of storytelling in tourism at the organizational and destination levels, and from the perspectives of experience providers and customers. It further addresses current and future challenges of tourism organizations and destinations that may be tackled by creatively adopting storytelling as a strategy for brand differentiation and customer involvement. Covering topics such as film-induced tourism, heritage tourism, and community engagement, this premier reference source is an excellent resource for marketers, advertising executives, brand managers, travel agencies, tour operators, event and program managers, business executives, government officials, community leaders, students, researchers, academicians, professionals, and practitioners in the tourism and hospitality industry.

**The Strategy-Focused Organization** Robert S. Kaplan,David P. Norton,2000-09-13 The creators of the revolutionary performance management tool called the Balanced Scorecard introduce a new approach that makes strategy a continuous process owned not just by top management, but by everyone. In The Strategy-Focused Organization, Robert Kaplan and David Norton share the results of ten years of learning and research into more than 200 companies that have implemented the Balanced Scorecard. Drawing from more than twenty in-depth case studies--including Mobil, CIGNA, and AT&T Canada--Kaplan and Norton illustrate how Balanced Scorecard adopters have taken their groundbreaking tool to the next level. These organizations have used the scorecard to create an entirely new performance management framework that puts strategy at the center of key management processes and systems. Kaplan and Norton articulate the five key principles required for building strategy-focused organizations: 1) translate the strategy into operational terms, 2) align the organization to the strategy, 3) make strategy everyone's everyday job, 4) make strategy a continual process, and 5) mobilize change through strong, effective leadership. The authors provide a detailed account of how a range of organizations in the private, public, and nonprofit sectors have deployed these principles to achieve breakthrough, sustainable performance improvements.

**Accelerating K-8 Math Instruction** Nicki Newton,2023-05-26 Schools have been using various approaches to address the pandemic-related struggles that students are experiencing with mathematics. There is an overwhelming consensus by both educators and researchers that we need to adapt acceleration rather than remediation as a tool to counteract the challenges that students currently face. Acceleration is about equity, which allows all our students to access an engaging, standards-based, academically rigorous, grade-level curriculum. In this book, educational consultant Dr. Nicki Newton shows K-8 teachers how to accelerate mathematics instruction so that all students learn and work on grade level, receive the right scaffolding when they need it, and feel a sense of achievement and success. Educators will in turn experience lower frustration and the joy of helping students thrive. Taking a deep dive into in-school acceleration, chapters address research, planning, assessment, pedagogy, teaching math vocabulary, lesson planning, goal setting and motivation, and action planning. Readers will learn how to use acceleration to get everybody motivated to learn and to create pathways of achievement. Book Features: Unpacks accelerating instruction as a way of saying everybody is invited to this party. Looks at how acceleration provides a pathway to helping academically challenged students achieve and move in step with their grade-level standards. Offers detailed ways to plan, implement, and evaluate accelerated math lessons in grades K-8. Provides numerous tools, templates, and strategies so readers can use ideas right away.

Strategic Corporate Social Responsibility David Chandler, 2022-09-12 Strategic Corporate Social Responsibility: Sustainable Value Creation (Sixth Edition) redefines corporate social responsibility (CSR) as being central to the value-creating purpose of the firm. Based on a theory of empowered stakeholders, this bestselling text argues that the responsibility of a corporation is to create value, broadly defined. The primary challenge for managers today is to balance the competing interests of the firm's stakeholders' understanding that what they expect today may not be what they will expect tomorrow. This tension is what makes CSR so complex and demanding, but it is also what makes CSR integral to the firm's strategy and day-to-day operations. In this new Sixth Edition, author David Chandler explores issues around COVID-19, the BLM movement, the supply chain crunch, and the great resignation.

**Gender Equality in a Global Perspective** Anders Ortenblad, Raili Marling, Snjezana Vasiljevic, 2017-01-06 Gender Equality in a Global Perspective looks to discuss whether Gender Equality can be adopted as it has been defined in international documents anywhere, or whether it needs to be adapted in a more local context; discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts; suggest research approaches for studies on whether a universal (Western) concept of Gender Equality fits in certain specific contexts; and finally suggests challenges to the existing interpretation of Gender Equality (e.g., theory of intersectionality); and the development of legal and policy framework. This book is situated within the tradition of comparative gender studies. While most other such books take up and compare various ways of implementing (or not implementing) gender equality, this book studies and compares whether or not (and to what extent) a specific definition of Gender Equality (GE) could be adopted by various nations. Thus, all chapter contributors will engage with the same definition of GE, which will be presented within the book, and discuss the possibilities and constraints related to applying such a definition in their particular national context. The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts. Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open-ended answers. As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically. The intended audience is not limited only to but will include policy makers, scholars and students with an interest in Gender issues, Organizational Theory, Political Science, Human Development, Policy Analysis, Globalization and other management sub-disciplines.
