This series capture the language spoken on America's main streets and country roads, words and phrases passed along within homes and communities, from east to west, north to south, childhood to old age. Built upon an unprecedented survey of spoken English across America and bolstered by extensive historical research, this series preserves the language with all its idioms and peculiarities.

Nature's Ghosts Mark V. Barrow, Jr.,2011-04-15 The rapid growth of the American environmental movement in recent decades obscures the fact that long before the first Earth Day and the passage of the Endangered Species Act, naturalists and concerned citizens recognized—and worried about—the problem of human-caused extinction. As Mark V. Barrow reveals in *Nature's*

Ghosts, the threat of species loss has haunted Americans since the early days of the republic. From Thomas Jefferson's day—when the fossil remains of such fantastic lost animals as the mastodon and the woolly mammoth were first reconstructed—through the pioneering conservation efforts of early naturalists like John James Audubon and John Muir, Barrow shows how Americans came to understand that it was not only possible for entire species to die out, but that humans themselves could be responsible for their extinction. With the destruction of the passenger pigeon and the precipitous decline of the bison, professional scientists and wildlife enthusiasts alike began to understand that even very common species were not safe from the juggernaut of modern, industrial society. That realization spawned public education and legislative campaigns that laid the foundation for the modern environmental movement and the preservation of such iconic creatures as the bald eagle, the California condor, and the whooping crane. A sweeping, beautifully illustrated historical narrative that unites the fascinating stories of endangered animals and the dedicated individuals who have studied and struggled to protect them, *Nature's Ghosts* offers an unprecedented view of what we've lost—and a stark reminder of the hard work of preservation still ahead.

Monthly Entries for the Spiritual but not Religious through the Year Mark G. Boyer, 2022-08-30

This is a book about spirituality for the spiritual but not religious. Those who identify themselves as spiritual but not religious make up one quarter of the population in the United States. This book provides 189 monthly entries based on the national and international celebrations that occur every month. Each entry begins with the name of the occasion and the date when it is marked during the month. A text from the Bible, a US public law, a presidential proclamation, a United Nations declaration, etc. that illustrates the day is presented. The text is followed by a reflection which gleans the spirituality from the text and provides historical background on the day being celebrated. Journal/meditation questions follow the reflection, and a prayer concludes the entry. This book is for the spiritual but not religious, a practice of spirituality that does not regard organized religion as a valuable means to further interior spiritual growth. A section of the introduction to the book explores who the spiritual but not religious are and presents the common themes that surface from research about them.
