The Honda Way Masaaki Sato,

Driving Honda Jeffrey Rothfeder,2014-07-10 For decades there have been two iconic Japanese auto companies. One has been endlessly studied and written about. The other has been generally underappreciated and misunderstood. Until now. Since its birth as a motorcycle company in 1949, Honda has steadily grown into the world's fifth largest automaker and top engine manufacturer, as well as one of the most beloved, most profitable, and most consistently innovative multinational corporations. What drives the company that keeps creating and improving award-winning and bestselling models like the Civic, Accord, Odyssey, CR-V, and Pilot? According to Jeffrey Rothfeder - the first journalist allowed behind Honda's infamously private doors - what truly distinguishes Honda from its competitors, especially archrival Toyota, is a deep commitment to a set of unorthodox management tenets. The Honda Way, as insiders call it, is notable for decentralization over corporate control, simplicity over complexity and unyielding cynicism toward the status quo and whatever is assumed to be the truth - ideas embedded in the DNA of the company by its colourful founder Soichiro Honda, sixty-five years ago. With dozens of interviews of Honda executives, engineers, and frontline employees, Rothfeder shows how the company has developed and maintained its unmatched culture of innovation, resilience, and flexibility - and how it exported that culture to other countries that are strikingly different from Japan, establishing locally controlled operations in each region where it lays down roots. For instance, Rothfeder reports on life at a Honda factory in the tiny town of Lincoln, Alabama. When the American workers were trained to follow the Honda Way as a self-sufficient outpost of the global company, their plant pioneered a new model for manufacturing in America. As Soichiro Honda himself liked to say, Success can be achieved only through repeated failure and introspection. In fact, success represents one percent of your work, which results only from the ninety-nine percent that is called failure.

La Honda Bob Dougherty,2007-06-13 Less than 45 miles from San Francisco and Silicon Valley, La Honda is an isolated rural community nestled in the majestic coastal redwood forests of the Santa Cruz Mountains. Pioneers in the late 19th century were loggers and ranchers who competed against grizzly bears and mountain lions for food. Outlaws like the Younger brothers (partners with Jesse James) used La Honda's isolation to avoid justice. Gradually the community became a mountain retreat for cityweary San Franciscans, and in the 1960s, La Honda was home to One Flew Over the Cuckoo's Nest author Ken Kesey and his psychedelic Merry Pranksters. Today's La Honda is an enigma—its size and character have barely changed while the rest of the San Francisco Peninsula has exploded around it.

The Honda Myth: The Genius and His Wake Masaaki Sato,2006-12-19 In this award-winning book, Sato explores the rise and fall of Honda, an international brand name that was created by two very different men.

THE ADVENTURES OF JAMES HONDA d.a. hamilton,2010-12-08 Are you an ordinary person? Can you do ordinary things? Can you do EXTRAORDINARY things? You know, things that are unique, different, special, unusual or above average; things that many people cannot do. If you can, these things DO NOT make you special; you ALREADY ARE SPECIAL. Everyone is! Everyone is different from everyone else, and this makes them unique, special. And everyone CAN DO extraordinary things. History books, magazines, newspapers, even television programs are full of stories of extraordinary things done by so called 'ordinary' people. Ordinary people who are special. Special people who are ordinary. Read this true (or maybe not) story about an ORDINARY CAR that does EXTRAORDINARY things. At least, in the eyes of the owners. You be the judge. Is this an ordinary car that is special, or is it a special car that is ordinary? Your opinion is important. Because YOU ARE SPECIAL!

The Book of the Honda S2000 Brian Long,2020-12-29 Researched and written in Japan with the full co-operation of the factory, here in definitive detail is the story of the Honda S2000 – a series of open two-seaters that built on the success of the NSX, helping the company justify its on-track exploits with a proper line of sporting machinery. Successful immediately, the S2000 models defended Honda's honour on the tracks, but it was in the showrooms where the S2000 excelled. After a major face-lift, it was eventually killed off in 2009, but is as popular today as it ever was as a modern classic for enthusiasts.

Honda Acura NSX Ultimate Portfolio R.M. Clarke,2010-12-01 Honda announced

the NSX in 1989. It was a technical tour de force, but despite the car's excellence it did not have the pedigree from makers like Porsche and Ferrari. In 2005, with worldwide production down to a couple of hundred cars per year and the resulting high production costs, Honda decided that it was not financially viable to continue manufacturing the NSX.
