Senior Leadership Roundtable on Military and Defence Aspects of Border Security in South East Europe I.V.

Lochard,2019-02-08 The region of South East Europe (SEE), which is home to both NATO and Partnership for Peace (PfP) countries, serves as an important corridor between Europe and the Middle East, North Africa, and the Caucasus. In recent years, however, SEE has also experienced high levels of cross-border, military and defense-related challenges in the form of migration, smuggling, terrorism, and cyber threats. Furthermore, the use of the new information environment (IE) to further extremism in SEE and elsewhere in NATO and PfP countries has had far-reaching command and control (C2) implications for the Alliance. A collaborative interdisciplinary, international and regional approach is clearly needed to adequately assess and address these hybrid threats. This book presents papers delivered at the NATO Science for Peace and Security (SPS) event: “Senior Leadership Roundtable on Military and Defense Aspects of Border Security in South East Europe”, held in Berovo, the Former Yugoslav Republic of Macedonia* from 23-30 September 2017. The aim of this special SPS grant was to maximize opportunities for extensive dialogue and collaboration between senior regional members, and the almost 70 distinguished academic and legal experts, as well as current or former senior-level practitioners from various governments, NATO bodies, and international organization that participated. It was the first SPS event of its kind in SEE as well as the first NATO SPS grant to be co-executed by the U.S. Department of Defense via the U.S. National Defense University. Other co-organizers were the C4I and Cyber Center of Excellence at George Mason University and PfP partner institution, the General Mihailo Apostolski Military Academy – Skopje, Associate Member of the University of Goce Delčev – Stip. The book is divided into five parts: global trends, defining the problem, policy and academic solutions, national and regional case studies, and technological solutions. It will prove an invaluable source of reference for all those with an interest in the SEE region as well as cross-border hybrid threats, in general. * Turkey recognizes the Republic of Macedonia with its constitutional name.

Environmental Debates in Albania Deniz Çupi,2023-09-30 This book investigates the role played by classical and digital media, and social networks in shaping debates on the environment. Providing a unique window of observation on environmental debates, the book explores the media theatre from the post-communist perspective of Albania. The work navigates the creation and development of environmental debate in Albania using evidence-based case studies, investigating the role of actors involved, who are closely related to the media, such as in business or politics. Environmental Debates in Albania offers an original insight on environmental debate, which is closely tied to and influenced by the place and culture within which it originates. Rich literature exists on global environmental issues, protests, policy and the rhetoric around climate change; this book supplies another piece to the puzzle through its focus on the under-researched area of environmental debate in post-communist and Eastern European countries.

Yeah, reviewing a ebook **Balkanweb App** could ensue your close associates listings. This is just one of the solutions for you to be successful. As understood, attainment does not recommend that you have astonishing points.

Comprehending as well as conformity even more than further will have the funds for each success. adjacent to, the notice as capably as perception of this Balkanweb App can be taken as without difficulty as picked to act.
