Isabelle Janet Ainsley,2005-05 Looking for a fun, yet thought-provoking novel? Your wish has been granted. Meet Isabelle, the most delightful and unlikely felon you'll ever encounter. Yes, she's truly a criminal; identity theft is, indeed, a felony. She doesn't set out to be a felon, certainly feels uncomfortable upon discovery of her crime, and continually (with the best of intentions) plans to come clean, but things just keep happening. Good things. Things she's always wanted--some knowingly, some not--to happen. And, it's difficult to apply the brakes, let alone turn around, when the drive is going so smoothly. But, there are morals and there are morals. Whether or not you agree with Isabelle's actions on a moral, legalistic level, the actual morals (i.e. teachings) of the novel--it is a contemporary parable, after all--offer insights to all readers. Adolescents need to read *Isabelle* while adults of any age will enjoy and benefit from the gentle nudges/reminders it affords. Above all, we could all use a little more laughter. Get ready to laugh and to learn.

Cowboy on Call Leigh Riker,2017-11-01 He needs to stop running from his mistakes. Cowboy or doctor? Sawyer McCord has been wrestling with that question since he came home to the Circle H after fleeing his remote clinic in the Himalayas. A tragedy there has him doubting his medical skills, but his reception on the ranch has been chilly at best. Sawyer can't blame his family—or Olivia Wilson, his brother's ex—for their anger. So why does Olivia's opinion of him suddenly matter so much? Sawyer has unfinished business here

and at his clinic. If he's ever going to redeem himself, he needs to start by making amends to the one woman who might never forgive him.

Descent Ken MacLeod, 2014-03-06 'Descent is politically engaged, brimming with smart ideas and shot through with a mordant wit. The novel is dedicated to the memory of MacLeod's friend Iain M. Banks, and one feels that the future of Scottish SF is in good hands' - James Lovegrove, The Financial Times 'Ken MacLeod is the modern day George Orwell' - SFX HOW FAR WOULD YOU GO FOR THE TRUTH? Ball lightning. Weather balloons. Secret military aircraft. Ryan knows all the justifications for UFO sightings. But when something falls out of the sky on the hills near his small Scottish town, he finds his cynicism can't identify or explain the phenomenon. And in a future where nothing is a secret, where everything is recorded on CCTV or reported online, why can he find no evidence of the UFO, nor anything to shed light on what occurred? Is it the political revolutionaries, is it the government or is it aliens themselves who are creating the cover-up? Or does the very idea of a cover-up hide the biggest secret of all? Ken MacLeod, author of 2013 Arthur C. Clarke Award-nominated *Intrusion*, tells a science fiction story for the twenty-first century - this is what happens when conspiracy theorists meet Big Brother. It appears that the case that launched Amanda’s career forty years ago has suddenly come back to life—and it involves the long-held mystery of Will’s birth and parentage. Socrates in Sichuan Peter J. Vernezze, 2011-04-30 When Peter J. Vernezze took a leave of absence from his position as a philosophy professor to serve as a Peace Corps volunteer in China, he supplemented his main task—teaching English—with leading a weekly philosophical discussion group with Chinese undergraduate and graduate students at Sichuan Normal University in Chengdu. In each session the students debated topics as diverse as the status of truth, the meaning of life, the reality of fate, the definition of sanity, the necessity of religion, and the value of romantic love. Each of the twenty-five chapters focuses on the topic of one evening's discussion, which was always in the form of a question: How are ancient conceptions of virtue holding up in a society overrun by capitalism? Are traditionally conservative sexual values going the way of the rickshaw? Can an atheistic country even have a sense of morality? This unprecedented portrait of the Chinese mind allows the up-and-coming generation—known as the *ba ling hou*, or “post-1980s generation”—to express its unique perspective on China—and America. In addition, the book provides the reader with a crash course in Chinese culture, both ancient and modern, as students discuss everything from Confucius to the Edison Chen scandal (a

Chinese pop star whose sexually explicit pictures found their way onto the Internet), from classical Chinese poetry to the Super Boy and Super Girl competitions (Chinese versions of American Idol). Throughout, the author provides the intellectual and historical context necessary to appreciate and understand today's China.

Now, having experienced a brain injury and the miracles of healing that have brought her full circle in that process, she shares to help you do the same.

The Winds of Change Raymond C. Shea, 2024-01-04 After thirty years of inaction, it may very well be too late to turn back the ticking clock. Without a global change in consciousness, in little more than one hundred years, the end will come. The fate of mankind is not up to the politicians, the scientists, or the technologists. It is up to You. Thomas Blackhawk, a professional environmentalist and proud descendent of the Native American tribe of Algonquins, begins a quest to wake up an unconscious world to its destiny before time runs out. Starting in a coal mine in West Virginia and ending in the highest

court in the land, Blackhawk works tirelessly to explain to anyone who will listen what is required for our survival. Along the way, he faces death threats, deceitfulness, and disbelief. The question for all of us is--will he prevail before it is too late?

Real Lessons in Reel Life Farouk Gulsara, 2017-12-27 Plato said that all art is mimetic by nature; art is an imitation of life. Some things in life are best not spoken but seen. What cannot be expressed in the real world is nuanced subtly in innuendos under the cloak of artistic license. Lasting impressions on the mind, Gazing into the abyss through the pupil, it is anybody's guess what actually goes on there. Cinema, the seventh form of art, may have the potential to awaken the sleeping giant within us to yonder beyond the outer and inner limits of our imagination.
