So You Think You Know Football? Ben Austro,2015-09-01 So You Think You Know Football? is the motherlode of NFL rules and their interpretations. Whether you know everything about on- and off-field rules or are a true novice, Austro deftly illustrates the ins and outs of the NFL rulebook using examples from actual games. Test your inner referee with questions about the correct call and how slight changes might affect the ruling. Do you know why spiking the ball immediately to stop the clock is not considered intentional grounding, while hesitating a few seconds then spiking the ball is? See if you would have made the right call in a game played between the Chicago Bears and Oakland Raiders on November 27, 2011—with additional quiz questions from other games involving similar controversies. Keep this book right next to your favorite football-watching chair to consult during the game and visit ThinkYouKnowFootball.com to stay updated on interpretations affected by rule modifications.

Time and Space James Coventry,2015-08-01 An accomplished book about the genius and ingenuity of the game's greats (and the forgotten) and how they have shaped the game through the innovation of tactics. From Pagan's Paddock to Clarkson's Cluster, from Fitzroy's huddle to Sydney's flood, the tactics of Australian football have become part of the vernacular. In this groundbreaking book, ABC journalist James Coventry reveals the secrets

behind them all. You'll meet the German gymnast who taught Geelong how to break the game from its rugby roots; the two Test cricketers who became footy's first great coaches; and the water polo player who shaped the modern AFL. Along the way you'll learn how South Australia pioneered the flick pass; how a rule suggested by Tasmania helped Collingwood win four straight flags; and how Fremantle revolutionised the use of the interchange bench. Time and Space is essential reading for any fan who wants to know why their team does what it does, and why it wins or loses.
