Drawing and Painting Course A.S. Hashmi, 2004-12

The book is divided into 15 chapters, and as the title suggests, it is planned as a 15-days course wherein all the relevant aspects of drawing and painting have been explained in simple and lucid language with hundreds of illustrations and diagrams. The students while pursuing the course will gradually learn the importance of lines -- thin, thick, straight, dotted, curved, zigzag, horizontal, cross, slanting, etc. They will appreciate the role of shape, light, texture, balance, harmony, contrast, rhythm, tone, emphasis, span, colors, etc. They will develop a perspective and a point of view and will be able to distinguish between light and highlight, shade and shadow. The book, it is hoped, will be found useful by all those persons, young or old, professionals or amateurs, who have some taste, love for art and artistic creations.

Rocking in the Free World Nicholas Tochka, 2023

Progressive and libertarian, anti-Communist and revolutionary, Democratic and Republican,

quintessentially American but simultaneously universal. By the late 1980s, rock music had acquired a dizzying array of political labels. These claims about its political significance shared one common thread: that the music could set you free. *Rocking in the Free World* explains how Americans came to believe they had learned the truth about rock 'n' roll, a truth shaped by the Cold War anxieties of the Fifties, the countercultural revolutions (and counter-revolutions) of the Sixties and Seventies, and the end-of-history triumphalism of the Eighties. How did rock 'n' roll become enmeshed with so many different competing ideas about freedom? And what does that story reveal about the promise-and the limits-of rock music as a political force in postwar America?

A Blonde Bengali Wife Anne Hamilton, 2010-10 They all said that Bangladesh would be an experience... For Anne Hamilton, a three-month winter programme of travel and cultural exchange in a country where the English language, fair hair, and a rice allergy are all extremely rare was always going to be interesting, challenging, and frustrating. What they didn't tell Anne was that it would also be sunny, funny, and the start of a love affair with this unexplored area of Southeast Asia. *A Blonde Bengali Wife* shows the lives beyond the poverty, monsoons, and diarrhoea of Bangladesh and charts a vibrant and fascinating place where one minute Anne is levelling a school playing field fit for the national cricket team, and then cobbling together a sparkly outfit for a formal wedding the next. Along with Anne are the essential ingredients for survival: a travel-savvy Australian sidekick, a heaven-sent adopted family, and a short, dark, and handsome boy-next-door. During her adventures zipping among the dusty clamour of the capital Dhaka, the longest sea beach in the world at Cox's Bazaar, the verdant

Sylhet tea gardens, and the voluntary health projects of distant villages, Anne amasses a lot of friends, stories...and even a husband. *A Blonde Bengali Wife* is the unexpected travelogue that reads like a comedy of manners to tell the other side of the story of Bangladesh. All money earned from *A Blonde Bengali Wife* goes direct to the charity, Bhola's Children, of which the author and agent are active participants. *A Blonde Bengali Wife* isn't about Bhola but it is a tribute to Anne's journeys into Bangladesh and all the friends she has made there. Most of all, it is the story of the country that inspired Bhola's Children.

If He Had Been with Me Laura Nowlin,2013-04-02

If he had been with me everything would have been different... I wasn't with Finn on that August night. But I should've been. It was raining, of course. And he and Sylvie were arguing as he drove down the slick road. No one ever says what they were arguing about. Other people think it's not important. They do not know there is another story. The story that lurks between the facts. What they do not know—the cause of the argument—is crucial. So let me tell you...

The Guardian Index, 1994

The Role of Coloniality, Decoloniality, and Education in Shaping Perspectives on Extremism

Helal Hossain Dhali, 2024-03-19 This book extends a comprehensive overview of the treatment of extremism in education in Bangladesh, using a study of perceptions among students to explore proactive measures for the prevention of various types and forms of extremism prevalent among youth. It offers a critical, holistic, and student-centred study of the role of formal education in shaping perceptions of extremism and intersectional differences among individuals, drawing on data from university students. The author employs post-colonial theory and multicultural educational approaches to highlight how understandings of extremism differ across young adults and policymakers. Ultimately, it demonstrates that students' overall understanding of extremism is much broader than that of policymakers, and how understandings differ between male and female students at the intersection of rural and urban locations and socio-economic positions. As such, it foregrounds a need to involve and organize formal education as a proactive means to raise awareness and counter all forms of extremism, through incorporating specific teaching strategies into pedagogical practices to foster an anti-communalist,

humanistic, critical multicultural, and cosmopolitan outlook among students. It will appeal to scholars and researchers with interests across multicultural education, comparative and international education, the sociology of education, extremism, and conflict and peace studies.
