The Thrifty Witch's Book of Simple Spells Wren Maple,2022-01-11 From Wren Maple, the Thrifty Witch, comes an introduction to witchcraft with a variety of spells, tips, and tricks to get the most out of your practice. There's nothing wrong with simple and straightforward. Easy spells are not less worthy spells. These ideas are central to the practice of the Thrifty Witch. Sick of not being able to easily source (or afford) what she needed for spells, Wren Maple dedicated herself to collecting and optimizing spells that could work for all witches—no matter where they were on their journey and no matter their personal resources. Now The Thrifty Witch is sharing her research and bringing her collection to the page for the first time. The Thrifty Witch's Book of Simple Spells is part primer, part spellbook. It includes: Getting started/witch basics: Witchcraft as self-care, how to establish a practice, and a handful of super-easy spells to get casting today. Key ingredients for spells: Starter stones and herbs, how to source, what to buy first, and more questions answered! Simple spells for every witch: Just like the spells Wren is known for online, nearly every spell in the book requires five items or fewer, and all ingredients are easy to source. Specific spells: Organized by purpose (e.g. love spells, protection spells), these spells are sure to cover what you're looking to cast. Tips and Tricks for Casting: When to cast for best results, where to cast and why it matters...make your spells count! The beauty of these spells is that they are easy enough and affordable enough to practice daily. Since practice and process are so important, this book provides an invaluable resource—unlocking the ability to try new spells and refine casting methods multiple times per week—even daily.

The Essential Spelling Book 2 - Workbook Fred J. Schonell,2014-11 The Essential Spelling Books are based on the popular Schonell Essential Spelling List, which contains over 300 words most commonly used and needed by children up to the age of 12. Lively and carefully structured exercises mean that words are learned thoroughly, but enjoyably as well.

Frostgrave Joseph A. McCullough,2015-07-20 In this fantasy skirmish wargame, wizards do battle amidst the frozen ruins of the ancient city of Felstad in the hopes of discovering the treasures of a fallen empire. Each player takes on the role of a wizard from one of ten schools of magic, and builds his band of followers. The wizard's apprentice will usually accompany his master and more than a dozen other henchmen types are available for hire, from lowly thugs to heavily armoured knights and stealthy assassins. Wizards can expand their magical knowledge by unlocking ancient secrets and can learn up to 80 different spells. As they gain power and wealth, wizards can also develop their headquarters on the outskirts of the city, turning one of a dozen different basic locations into bastions of their art, equipping them with alchemical laboratories, mystical forges, astronomical telescopes and other magical resources. While individual games of Frostgrave are quick and can easily be played in an hour or two, it is by connecting these games into an ongoing campaign, that players will find the most enjoyment. The scenarios given in the book are merely the beginning of the limitless, thrilling adventures that can be found amidst the ruins of the lost city.

Wayfarers G. Vrill,J. T. Swill,2009-01-01 Wayfarers is a table-top roleplaying game. Inside this book you will find everything you need to play. Game Magic Jeff Howard,2014-04-22 Make More Immersive and Engaging Magic Systems in Games

Game Magic: A Designer's Guide to Magic Systems in Theory and Practice explains how to construct magic systems and presents a compendium of arcane lore, encompassing the theory, history, and structure of magic systems in games and human belief. The author combines rigorous scholarly analysis with practical game design advice in the form of a magical recipe book (grimoire). The book gives you an in-depth understanding of the history and structure of magic to make your games richer and deeper. It shows how to set up tables of correspondences and spell components as well as how to write programming code integrating these components as part of game mechanics. It also illustrates how to divide a simulated world into domains of influence (such as alteration, conjuration, and necromancy) and how to use specific rule systems to simulate powers within these realms. Showing you how to weave compelling magic into your games, the book is interspersed with examples that illustrate how to design and program magic systems. Working examples are available for download on a supporting website.
