Parenting In A Tech World Matt McKee,Titania Jordan,2021-06-15 How do you know when your child is ready for a smartphone? Which apps are the most dangerous for my 13-year-old? What do I do if I catch my child watching porn? How do I get to a place of trusting my kid with social media? How do I spot signs of trouble in my kid from their use of social media? These are questions parents ask every day - parents who are overwhelmed, fearful or ignorant about social media and technology. Parenting in a Tech World is for parents who don't know where to start with addressing the use of technology in their homes. Our book is a comprehensive resource that answers your questions, and provides you with a plan of action for developing a relationship between you, your child and technology. Our families have been adversely affected by technology, just like yours. Whether it's viewing inappropriate material or being unable to focus on anything else. We've felt the tension of needing to use technology and being concerned with what our kids might stumble into online. Also, our families have been positively affected by technology. Whether Facetiming with grandparents, chatting with friends who have moved away, or playing online games among siblings, we've benefitted from the connection that technology and social media can bring. Parenting in a Tech World addresses common tensions surrounding tech, and provides a valuable perspective on how technology can't be ignored, but must be taught to be used responsibly. We break down how to talk to kids about tech, and how to teach them boundaries on social media. With practical tips, real-world advice from fellow parents, and helpful exercises, we walk you through how to nurture a healthy relationship between your kid and technology by the time they leave your house. From hardware to new apps, to new users, to new features, we take a look at what you need to be mindful of when introducing anything to your family's online network. To fully equip you, we share impactful websites that provide tools you can use to inform yourself and develop a tech infrastructure for your family. Though technology isn't inherently good or bad, it can be used either way. Through the use of statistics, we show you what's going on with kids and tech. And we prove exactly how important it is to monitor your child's technology use. Parenting in a Tech World is your guide, from start through finish, to creating a healthy relationship with technology among your family members. The stakes for your child's wellbeing and safety are too high to gloss over the power technology has in our society. If you're looking for where to begin with managing technology in a healthy way, Parenting in a Tech World is that starting line.

Bark Lorrie Moore,2014-02-25 A new collection of stories by one of America’s most beloved and admired short-story writers, her first in fifteen years, since *Birds of America* (“Fluid, cracked, mordant, colloquial . . . Will stand by itself as one of our funniest, most telling anatomies of human love and vulnerability.” —The New York Times Book Review, cover). These eight masterly stories reveal Lorrie Moore at her most mature and in a perfect configuration of craft, mind, and bewitched spirit, as she explores the passage of time and summons up its inevitable sorrows and hilarious pitfalls to reveal her own exquisite, singular wisdom. In “Debarking,” a newly divorced man tries to keep his wits about him as the United States prepares to invade Iraq, and against this ominous moment, we see—in all its irresistible wit and darkness—the perils of divorce and what can follow in its wake . . . In “Foes,” a political argument goes grotesquely awry as the events of 9/11 unexpectedly manifest themselves at a fund-raising dinner in Georgetown . . . In “The Juniper Tree,” a teacher visited by the ghost of her recently deceased friend is forced to sing “The Star-Spangled Banner” in a kind of nightmare reunion . . . And in “Wings,” we watch the inevitable unraveling of two once-hopeful musicians, neither of whom held fast to their dreams nor struck out along other paths, as Moore deftly depicts the intricacies of dead-ends-ville and the workings of regret . . . Here are people beset, burdened, buoyed; protected by raising teenage children; dating after divorce; facing the serious illness of a longtime friend; setting forth on a romantic assignation abroad, having it interrupted mid-trip, and coming to understand the larger ramifications and the impossibility of the connection . . . stories that show people coping with large dislocation in their lives, with risking a new path to answer the desire to be in relation—to someone . . . Gimlet-eyed social observation, the public and private absurdities of American life, dramatic irony, and enduring half-cracked love wend their way through each of these narratives in a heartrending mash-up of the tragic and the laugh-out-loud—the hallmark of life in Lorrie-Moore-land. Why We Love Dogs Kim Levin,1998-09 This endearing gift book celebrates the unique connection between dogs and their human companions. There are reasons dogs are our best friends: They are loyal, affectionate, and totally committed to us. Or as photographer/writer Kim Levin puts it: Because they look us in the eye. Because they have wrinkles, too. Because they are family. In this charming book, Levin artfully combines photographs with simple, insightful prose; the result is an ode that celebrates the wonders of dogs. Soulful beagle eyes. A grinning hound luxuriating in the sun. In these poignant photos, Levin captures each dog's essence and illuminates the myriad reasons why we love dogs. In America alone, 40 million people own more than 50 million dogs. Of those dedicated dog owners, about 13 million Americans say they're as attached to their dogs as they are to their best friends; some six million people rank their dogs right up there with their children. That's why everyone who has ever cherished a beloved dog-whether large or small, pure-bred or mutt-will delight in this book filled with heartwarming words and pictures to commemorate their special closeness.
