Return to the Far Side of Planet Moore! Martin
Mobberley, 2015-03-20 The result of an exhaustive
study of Sir Patrick Moore's observations of the
Moon and planets for more than 60 years, this book
is a fantastic companion to the extremely popular,
"It Came From Outer Space Wearing an RAF Blazer!"
written by the same author. Moore recorded his
telescopic observations in his logbooks, which are
reproduced and described here in detail, along
with his sketches and notes. In this light, the
author discusses the factors that caused Moore to
switch from lunar observing to planetary and
variable star observing. He has also included
personal recollections and humorous anecdotes from
Moore's friends and acquaintances, as well as a
look at his best loved books. Further chapters
describe Moore's foreign travels and
correspondence with those back home. Lastly, the
author has not neglected a few of Moore's most
memorable television and radio appearances, which
are examined along with a close up of what it was

like to visit Moore's beloved home of Farthings in Selsey. Essentially, this is a book written by popular demand from the readers of the author's original biography, who craved more of Moore!
