**Fluent Forever** Gabriel Wyner,2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

**Basic Japanese** Samuel E. Martin,Eriko Sato,2012-10-10 Basic Japanese takes a friendly and innovative approach to beginner Japanese, emphasizing the structure of the Japanese language rather than just vocabulary. This method was pioneered by the author, Samuel E. Martin. Once considered controversial, modern linguists now agree that the structurally based approach for learning a language allows for more efficient retention than the traditional repetition-based approach. It is especially useful for self-study and first-time learners as well as in a classroom setting. The MP3 Audio-CD helps to reinforce pronunciation and build listening comprehension. Each lesson is set up to ease learners into not just understanding the new material but mastering it, using a four-step method: Step 1: Basic Sentences: Each lesson begins with the key to quick mastery of spoken Japanese—learning and understanding new sentence patterns. Vocabulary is learned in context. A Basic Vocabulary section lists only essential words and phrases that are relevant to the theme of the lesson. Step 2: Structure Notes: Next the learner is guided through complete, in-depth explanations of the sentences' grammar essentials, to aid in mastering the sentence patterns. Step 3: Conversation: Authentic dialogue teaches the way people naturally speak, putting into practice the lesson's sentence patterns with everyday topics. Step 4: Exercises: An opportunity for practicing—and for strengthening your understanding of the lesson's key points and ability to read Japanese.
