Game Strategies and Tactics for Basketball Kevin Sivils, 2009-09 Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles is both a how-to book and a guide for how to plan strategy and tactics for basketball for an entire season or an individual game. Coaches often focus on X's and O's and overlook how and when a particular offense or defense should be applied and used during a game. Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles serves as a planning guide and a master checklist for all the possible situations that a coach will face during a season. The book includes both traditional and some out-of-the-box strategies to the common situations that coaches face and provides both the pros and the cons of the approaches described. It is not the author's intention to tell each coach exactly what to do, but to serve as a guide in the decision making process. About the author: A 24 year veteran of the coaching profession, with twenty-two of those years spent as a varsity head coach, Coach Kevin Sivils amassed 464 wins and his teams earned berths in the state playoffs 19 out of 22 seasons with his teams advancing to the state semi-finals three times. An eight time Coach of the Year Award winner, Coach Sivils has traveled as far as the Central African Republic to conduct coaching clinics. Coach Sivils first coaching stint was as an assistant coach for his college alma mater, Greenville College, located in Greenville, Illinois. His teams were always known for their discipline, intense effort, execution of fundamentals, and team play. Coach Sivils is also the owner of KCS Basketball Enterprises, LLC, an enterprise focused on providing coaches with information to improve their knowledge of the game of basketball and their ability to coach. If you have been looking for a rigorously thorough handbook on basketball tactics and strategy, you have found it Coach Doug Porter - Head Women's Coach, Olivet Nazarene University National Scoring leaders: 2005, 2006, 2007, 2008 Chicagoland Collegiate Athletic Conference Champions: 2000, 2005, 2007 His thought provoking approach makes for an easy read and will definitely stimulate thought and, most likely, change the way you go about coaching Rusty Rogers - Two time NAIA Division II Women's National Championship Coach and Two time NAIA National Coach of the Year Coach Sivils clearly brings his experience in the game of basketball to his writing. He is a great teacher who acquired great gifts over the years and it's great he wants to share those gifts with other coaches. Bill Reidy - Long time successful high school and AAU coach

Basketball on Paper Dean Oliver, 2020-02-15 Journey inside the numbers for an exceptional set of statistical tools and rules that can help explain the winning, or losing, ways of a basketball team. Basketball on Paper doesn't diagram plays or explain how players get in shape, but instead demonstrates how to interpret player and team performance. Dean Oliver highlights general strategies for teams when they're winning or losing and what aspects should be the focus in either situation. He describes and quantifies the jobs of team leaders and role players, then discusses the interactions between players and how to achieve the best fit. Oliver conceptualizes the meaning of teamwork and how to quantify the value of different types of players working together. He examines historically successful NBA teams and identifies what made them so successful: individual talent, a system of putting players together, or good coaching. Oliver then uses these statistical tools and case studies to evaluate the best players in history, such as Magic Johnson, Wilt Chamberlain, Bill Russell, and Charles Barkley and how they contributed to their teams' success. He does the same for some of the NBA's oddball players-Manute Bol, Muggsy Bogues, and Dennis Rodman and for the WNBA's top players. Basketball on Paper is unique in its incorporation of business and analytical concepts within the context of basketball to measure the value of players in a cooperative setting. Whether you're looking for strategies or new ideas to throw out while watching the ballgame at a sports bar, Dean Oliver's Basketball on Paper will give you amazing new insights into teamwork, coaching, and success.

The Big Orange Basketball Playbook Yellow Pad Books,2020-09-17 Every coach needs a big orange playbook. This Big Orange Basketball Playbook is a blank book of court sketches, both full court and half court, a tool for coaches and parents to develop strategies and teach the game. Basketball is a game of skill and strategy. The difference between winning and losing is the players' conditioning and their ability to score and defend. But a team also needs a game plan--and a coach who can teach it. Few casual fans understand the myriad schemes and techniques useful to winning in this sport: screening, posting, making space, the many zone defenses, gap position, denial position, full court press, up tempo, pick-and-roll, continuity offense, motion offense, small ball, double team, four corners, triangle-and-two, etc. This notebook is an excellent way to sketch and teach such concepts. It can also be a stats book to record the team's (or the opponents') strengths and weaknesses, hits and misses. For those coaching younger players, this book is also helpful in teaching the fundamentals of the game (crayons may work best in that scenario). Of course, you can always use an electronic tablet or a white board, but nothing seems to beat paper and pen, especially when batteries die or when the dry erase pens dry out. The solution? This Big Orange Basketball Playbook--a notebook we think is as strategic and stimulating as the game itself. Motion Offenses for Youth Basketball Gary U Petrin, 2020-01-17 Motion Offenses are used mainly against a Man to Man Defense. This type of offense is fairly hard for younger players to execute, and teams not ready to counter Man to Man defenses can be less competitive in their games. The game can end quickly if your team is not ready - Coaches need an advantage. Teach the fundamentals that your players will need to not only run a motion offense, but to also understand why a motion offense is used. Motion Offenses for Youth Basketball is a valuable Interactive instructional tool for youth basketball coaches. Lots of links to Video Clips and Handouts! A must have for youth coaches. Information includes - Teaching Principles of The Motion Offense / 1-4 Set / 1-2-2 Set / Basic Motion Offense Teaching Points / 1-2-2 Set / 1-2-2 Quick Hitter Plays / Regular Motion / A Basic Motion Offense / Pick and Roll Plays / Drills for Motion Offenses and more. Packed with video clips, pictures, diagrams, and helpful forms! "Read" the information in the booklet - then "View" the demonstrations on the Video Clips using the links. 101 Basketball Tips Ray Lokar, 2008-11-01 From playground to the pros, from young players to adults, there are seemingly as many ways to coach and play the game of basketball as there are places to play it. 101 Basketball Coaching Tips distills the game of basketball in order to provide concise tips, tools, and techniques on coaching philosophy, basketball strategy X's & O's, skills and drills, as well as ways to develop a basketball program on the court, outside the lines, in the locker room, and in the coach's office. From the novice youth coach to the experienced veteran, there is something in 101 Basketball Coaching Tips for everyone. The constant quest for a better way is what makes our profession as coaches, and this game of basketball, an ever changing adventure. As long as we continue to grow and learn, the future of our sport is in good hands.

Basketball Analytics Stephen M. Shea, Christopher E. Baker, 2013 Basketball Analytics is a must-read for any sports analytics enthusiast or student of the game of basketball. Authors Stephen Shea, Ph.D. (Professor of Mathematics) and Christopher Baker (Software Engineer) utilize their unique skill-set to introduce original metrics for analyzing player performance, team style and team construction in the NBA. While demonstrating an awareness of the industry's best ideas, the authors present original, objective and efficient strategies for understanding how teams win. New player performance statistics include Offensive Efficiency (OE), Efficient Offensive Production (EOP), Defensive Stops Gained (DSG), and Approximate Value (AV). OE reflects a player's ability to make the most fundamental offensive decisions. EOP adjusts a player's points and assists based on his efficiency. DSG gives a complete measure of a player's defensive contributions, without relying on individual player statistics like blocks and steals. AV is a measure of total player performance that rivals any publicly available statistic. Basketball Analytics introduces groundbreaking metrics on player involvement in the offense. Point, Rebound and Assist Balance aggregate player usage in these critical statistics. New studies on the NBA show whether teams should strive for balance or unbalance. An NBA draft pick value study determines the average value of each pick and the likelihood of landing a star or role player with each draft position. The results of this study are used to discuss topics including the biggest draft blunders and steals, the draft success of each NBA team, and the quality of each draft class dating back to 1977. This valuable understanding of the NBA Draft creates a foundation for discussing various approaches to team development and construction. Additionally, the authors discuss redefining the positions on the court, unpredictability in the game, data visualization, and applications of spatial tracking technology. There are many intensely debated questions surrounding the NBA today. Who are the most valuable players, and how do they compare to past greats? Which players have the greatest impact on their team's defense? Should Kobe Bryant be concerned with getting his teammates involved in the offense? How do offenses differ in the clutch, and which players thrive in these situations? How difficult is it for a team to rebuild through the draft? Basketball Analytics introduces new statistics and new concepts

to explore these questions and more.

Game Plans: Sports Strategies for Business Robert Keidel, 1985 This fast paced book reveals in vivid terms the parallels between baseball, football, and basketball and different types of business organizations.

Odds-On Basketball Coaching Michael J. Coffino, 2017-07-25 In basketball, as in most sports, a large part of a coach's responsibility is to prepare his or her team for games. Yet, little time in practice is typically devoted to readying the players and coaches for specific game situations. For instance, what are the various ways to use dead ball moments to maximum advantage? What adjustments should be made to launch a comeback in particular circumstances? When is it favorable to purposefully miss a foul shot? In *Odds-On Basketball Coaching: Crafting High-Percentage Strategies for Game Situations*, Michael J. Coffino presents an innovative system for coaches to prepare for specific game scenarios. Coffino challenges coaches to think differently about what they emphasize in practice, placing greater value on preparing for recurring game situations, crafting strategies by assessing the odds, and creating a culture that elevates how players think about the game. Each chapter begins with an actual game scenario that illustrates the chapter's content and includes discussions of notable college and professional basketball games in order to demonstrate specific points. *Odds-On Basketball Coaching* provides a framework for making game decisions beyond instincts and habits. It is intended, more than anything, to stimulate coaches and players to think comprehensively and realistically about how to approach games and practices, fostering an environment where everyone can more incisively make game-time decisions. While high school and youth basketball coaches will find this book most helpful, coaches at all levels will benefit from this novel approach to the game.

National Basketball Association Strategies Frank P. Jozsa Jr., 2014-10-01 This Brief identifies and contrasts the groups of National Basketball Association (NBA) expansion franchises and of any teams that relocated from one metropolitan area or city to another from 1950 to 2013. It discusses historical differences and similarities in the teams' markets and performances and then as members

of divisions and conferences. It measures and compares the emergence, development, and success of the teams by analyzing demographic, economic and sport-specific data. It also discusses the respective mergers of the Basketball Association of America and National Basketball League in 1949, and the American Basketball Association and National Basketball Association in 1976. National Basketball Association Strategies makes an important, relevant, and useful contribution to the literature regarding professional sports operations and to the NBA's short and long run business strategies in American culture. Besides numerous sports fans within metropolitan areas and extended markets of these NBA teams, the book's audiences are sports historians and researchers, college and public libraries, and current and potential NBA franchise owners and team executives. This Brief may also be used as a reference or supplemental text for college and university students enrolled in such applied undergraduate and graduate courses and seminars as sports administration, sports business, and sports management.
