Coaching Basketball Technical & Tactical Skills Coach Education, 2006-11-29 Numerous coaching books cover the skills and drills of basketball, but very few hit on the tactical skills of the game—the situational decisions players and coaches make that often determine the outcome of games. That's where Coaching Basketball Technical and Tactical Skills, an American Sport Education Program (ASEP) publication, stands out. Written by Kathy McGee, the winningest high school girls' basketball coach in Michigan, in consultation with USA Basketball's Don Showalter, this book will prepare you to be a better teacher and tactician of the game whether you coach men's or women's basketball. Technical skills (such as dribbling, shooting, and rebounding) are examined in depth, as are the tactical skills (such as the give-and-go, backdoor cut, and trapping). More than 195 photos and illustrations bring the basic to intermediate skills to life, while sample season and practice plans will help you in your preparation. You'll find quick tips on how to detect and correct errors in both male and female athletes, cues they need to be aware of in various tactical situations, and key information they need in order to make the appropriate on-court decisions. Produced by ASEP and endorsed by the Women's Basketball Coaches Association (WBCA), this book serves as a resource for the Coaching Basketball Technical and Tactical Skills online course, a part of ASEP's Bronze Level Professional Coaches Education Program. Numerous state high school associations, colleges and universities, national sport organizations, and national governing bodies of Olympic sports use the Bronze Level in whole or in part to qualify coaches. The Bronze Level prepares coaches for all aspects of coaching and is a recognized and respected credential for all who earn it.

**Game Strategies and Tactics for Basketball** Kevin Sivils, 2009-09 Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles is both a how-to book and a guide for how to plan strategy and tactics for basketball for an entire season or an individual game. Coaches often focus on X's and O's and overlook how and when a particular offense or defense should be applied and used during a game. Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles serves as a planning guide and a master checklist for all the possible situations that a coach will face during a season. The book includes both traditional and some out-of-the-box strategies to the common situations that coaches face and provides both the pros and the cons of the approaches described. It is not the author's intention to tell each coach exactly what to do, but to serve as a guide in the decision making process. About the author: A 24 year veteran of the coaching profession, with twenty-two of those years spent as a varsity head coach, Coach Kevin Sivils amassed 464 wins and his teams earned berths in the state playoffs 19 out of 22 seasons with his teams advancing to the state semi-finals three times. An eight time Coach of the Year Award winner, Coach Sivils has traveled as far as the Central African Republic to conduct coaching clinics. Coach Sivils first coaching stint was as an assistant coach for his college alma mater, Greenville College, located in Greenville, Illinois. His teams were always known for their discipline, intense effort, execution of fundamentals, and team play. Coach Sivils is also the owner of KCS Basketball Enterprises, LLC, an enterprise focused on providing coaches with information to improve their knowledge of the game of

basketball and their ability to coach. If you have been looking for a rigorously thorough handbook on basketball tactics and strategy, you have found it Coach Doug Porter - Head Women's Coach, Olivet Nazarene University National Scoring leaders: 2005, 2006, 2007, 2008 Chicagoland Collegiate Athletic Conference Champions: 2000, 2005, 2007 His thought provoking approach makes for an easy read and will definitely stimulate thought and, most likely, change the way you go about coaching Rusty Rogers - Two time NAIA Division II Women's National Championship Coach and Two time NAIA National Coach of the Year Coach Sivils clearly brings his experience in the game of basketball to his writing. He is a great teacher who acquired great gifts over the years and it's great he wants to share those gifts with other coaches. Bill Reidy - Long time successful high school and AAU coach

Odds-On Basketball Coaching Michael J. Coffino, 2017-07-25 In basketball, as in most sports, a large part of a coach's responsibility is to prepare his or her team for games. Yet, little time in practice is typically devoted to readying the players and coaches for specific game situations. For instance, what are the various ways to use dead ball moments to maximum advantage? What adjustments should be made to launch a comeback in particular circumstances? When is it favorable to purposefully miss a foul shot? In Odds-On Basketball Coaching: Crafting High-Percentage Strategies for Game Situations, Michael J. Coffino presents an innovative system for coaches to prepare for specific game scenarios. Coffino challenges coaches to think differently about what they emphasize in practice, placing greater value on preparing for recurring game situations, crafting strategies by assessing the odds, and creating a culture that elevates how players think about the game. Each chapter begins with an actual game scenario that illustrates the chapter's content and includes discussions of notable college and professional basketball games in order to demonstrate specific points. Odds-On Basketball Coaching provides a framework for making game decisions beyond instincts and habits. It is intended, more than anything, to stimulate coaches and players to think comprehensively and realistically about how to approach games and practices, fostering an environment where everyone can more incisively make game-time decisions. While high school and youth basketball coaches will find this book most helpful, coaches at all levels will benefit from this novel approach to the game.

This short book covers the basics of sound cutting and screening. Cutting and screening are the hardest of all offensive basic building blocks to defend. The principles described in this book apply to any offense. There is always more for a coach to learn and the principles included in this book will help any coach improve the offense he or she already runs. The principles and concepts in this short book are illustrated with both diagrams and photographs. **War on the Boards** George Raveling, 2017-02-07 Never before in the history of the game of basketball has anyone devoted a single text to the art of rebounding. This book is written with the desire that it will partially fill the void that has existed in basketball literature. Perhaps, this work will guide coaches to place a high degree of emphasis on this neglected phase of the game. Most books devote chapter after chapter to offensive and defensive fundamentals, but include only a few pages of information on rebounding. It is paradoxical that in this era of high powered offenses and defenses, basketball literature fails to give emphasis to the very tools and techniques that are necessary to build strong offenses and defenses - namely, rebounding. Rebounding in basketball is more than a mere fundamental. It represents a struggle or conquest in a form which seldom draws the praise of coach or fan. Rebounding makes basketball a contact sport. It is symbolic of the sacrifice, the emotion, mental toughness, and hard work which precedes victory in most of life's endeavors. It is my fervent wish that the readers will share with me the joy and excitement that is contained within the world of rebounding. Kindly allow this manual to serve as your constant guide, as you seek a higher level of achievement in basketball. Keep in mind that It is not where you are today that counts, it's the direction in which you are headed.
