**Dub** Michael Veal,2013-08-15 Winner of the ARSC's Award for Best Research (History) in Folk, Ethnic, or World Music (2008) When Jamaican recording engineers Osbourne "King Tubby" Ruddock, Errol Thompson, and Lee "Scratch"

Perry began crafting “dub” music in the early 1970s, they were initiating a musical revolution that continues to have worldwide influence. Dub is a sub-genre of Jamaican reggae that flourished during reggae’s “golden age” of the late 1960s through the early 1980s. Dub involves remixing existing recordings—electronically improvising sound effects and altering vocal tracks—to create its unique sound. Just as hip-hop turned phonograph turntables into musical instruments, dub turned the mixing and sound processing technologies of the recording studio into instruments of composition and real-time improvisation. In addition to chronicling dub’s development and offering the first thorough analysis of the music itself, author Michael Veal examines dub’s social significance in Jamaican culture. He further explores the “dub revolution” that has crossed musical and cultural boundaries for over thirty years, influencing a wide variety of musical genres around the globe. Ebook Edition Note: Seven of the 25 illustrations have been redacted.

*State Of Bass* Martin James, 2020 Jungle and Drum & Bass was like nothing else the world had experienced before - simultaneously black and white, urban and suburban, old skool attitude and new school innovation. A socio-cultural melting pot of early 90s broken Britain seizing the wheel and taking control of the machine. Originally published in 1997, *State of Bass* explores the scene’s roots through its social, cultural and musical antecedents and on to its emergence via the debate that surrounded the apparent split between jungle and drum & bass. Drawing on interviews with some of the key figures in the early years, *State of Bass* explores the sonic shifts and splinters of new variants, styles and subgenres as it charts the journey from the early days to its position as a global phenomenon. *State of Bass* extends the original text to include the award of the Mercury Prize to Reprazent for the *New Forms* album and brings new perspectives to the story of the UK’s most important subterranean urban energy.

**Excursions in World Music** Timothy Rommen, Bruno Nettl, 2020-09-18 *Excursions in World Music* is a comprehensive introductory textbook to the musics of the

world, creating a panoramic experience for students by engaging the many cultures around the globe, and highlighting the sheer diversity to be experienced in the world of music. At the same time, the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps, shared horizons, and common concerns in spite of, and because of, this very diversity. The new eighth edition features six brand new chapters, including chapters on Japan, Sub-Saharan Africa, China and Taiwan, Europe, Maritime Southeast Asia, and Indigenous Peoples. General updates have been made to other chapters, replacing visuals and updating charts/statistics. Another major addition to the eighth edition is the publication of a companion Reader, entitled *Critical Issues in World Music*. Each chapter in the Reader is designed to introduce students to a theoretical concept or thematic area within ethnomusicology and illustrate its possibilities by pointing to case studies drawn from at least three chapters in *Excursions in World Music*. Chapters include the following topics: Music, Gender, and Sexuality; Music and Ritual; Coloniality and World Music; Music and Space; Music and Diaspora; Communication, Technology, Media; Musical Labor, Musical Value; and Music and Memory. Instructors can use this resource as a primary or secondary path through the materials, either assigning chapters from the textbook and then digging deeper by exploring a chapter from the Reader, or starting with a Reader chapter and then moving into the musical specifics offered in the textbook chapters. Having available both an area studies and a thematic approach to the materials offers important flexibility to instructors and also provides students with additional means of engaging with the musics of the world. A companion website with a new test bank and fully updated instructor's manual is available for instructors. Numerous resources are posted for students, including streamed audio listening, additional resources (such as links to YouTube videos or websites), a musical fundamentals essay (introducing concepts such as meter, melody, harmony, form, etc.), interactive quizzes, and flashcards.

Sync Or Swarm David Borgo, 2005-12-12 Provides a study of musical improvisation, using theories from cultural and cognitive studies. The author presents a systemic view, with chapters funneling outward in scope from the perspective of a solo improviser to that of a group interacting in performance, to the long-term dynamics of an improvising group from formation to dissolution.

**Sync or Swarm, Revised Edition** David Borgo, 2022-02-10 The revised edition of Sync or Swarm promotes an ecological view of musicking, moving us from a subject-centered to a system-centered view of improvisation. It explores cycles of organismic self-regulation, cycles of sensorimotor coupling between organism and environment, and cycles of intersubjective interaction mediated via socio-technological networks. Chapters funnel outward, from the solo improviser (Evan Parker), to nonlinear group dynamics (Sam Rivers trio), to networks that comprise improvisational communities, to pedagogical dynamics that affect how individuals learn, completing the hermeneutic circle. Winner of the Society for Ethnomusicology's Alan Merriam prize in its first edition, the revised edition features new sections that highlight electro-acoustic and transcultural improvisation, and concomitant issues of human-machine interaction and postcolonial studies.
