What Do We Know about War? John A. Vasquez, 2012-03-16 What Do We Know about
War? reviews the research on causes of war and the conditions of peace over
the past forty-five years. Leading scholars explore the critical roles of
territorial disputes, alliances, arms races, rivalry, and nuclear weapons in
bringing about war as well as the factors promoting peace, including
democracy, norms, stable borders, and capitalist economies. Considering what
has been learned about the causes of war and the conditions of peace in the
ten years since the publication of the first edition, this invaluable text
offers an accessible and up-to-date overview of current knowledge and an
agenda for future research. Contributions by: Brett V. Benson, Paul F. Diehl,
