Alarm Starboard! Geoffrey Brooke,2004-10-14 “Much more than a mere catalogue of a naval officer’s experiences of war . . . All-in-all an excellent read and very highly recommended.” —World Ship Society The author’s naval war experiences make the most exciting reading. After being mined on the battleship Nelson in 1939, he served on the Prince of Wales, during the Bismarck action, witnessing the sinking of the Hood and Churchill and Roosevelt’s historic meeting. He survived the disastrous sinking by Japanese dive-bombing in December 1941 but within two days of reaching Singapore, the Island fell. Evacuated in a coastal steamer, only to be sunk the next morning, he was stranded on a deserted island for a week before setting out for Ceylon in a native boat. His epic journey covered 1660 miles and took 37 days. Thereafter his adventures continued, with the North African landings, Russian convoys and, returning to the Far East. He was in the carrier Formidable when she was hit twice by Japanese Kamikazes before VJ Day August 1945.

Iron Dawn Richard Snow,2017-10-24 “An utterly absorbing account of one of history’s most momentous battles” (Forbes) that not only changed the Civil War but the future of all sea power—from acclaimed popular historian Richard Snow, who “writes with verve and a keen eye” (The New York Times Book Review). No single sea battle has had more far-reaching consequences than the one fought in Hampton Roads, Virginia, in 1862. The Confederacy, with no fleet of its own, took a radical step to combat the Union blockade, building an iron fort containing ten heavy guns on the hull of a captured Union frigate named the Merrimack. The North got word of the project, and, in panicky desperation, commissioned an eccentric inventor named John Ericsson to build the Monitor, an entirely revolutionary iron warship. Rushed through to completion in just one hundred days, it mounted only two guns, but they were housed in a shot-proof revolving turret. The ship hurried south from Brooklyn, only to arrive to find the Merrimack had already sunk half the Union fleet—and would be back to finish the job. When she returned, the Monitor was there. She fought the Merrimack to a standstill, and, many believe, saved the Union cause. As soon as word of the fight spread, Great Britain—the foremost sea power of the day—ceased work on all wooden ships. A thousand-year-old tradition ended and the naval future opened. Richly illustrated with photos, maps, and engravings, Iron Dawn “renders all previous accounts of the encounter between the Monitor and the Merrimack as obsolete as wooden war ships” (The Dallas Morning News). Richard Snow brings to vivid life the tensions of the time in this “lively tale of science, war, and clashing personalities” (The Wall Street Journal).

The Fighting at Jutland H. W. Fawcett,G. W. W. Hooper,2010-11 Experiences of the momentous fleet battle of the Great War at sea The narratives of the fighting at Jutland which are collected in this book were all written by officers or men who were present at the battle, and they are, therefore, first-hand evidence of the detailed events of the fighting. The book is not a criticism; it is a record of personal experiences. One has often felt that a great gap would be filled in the histories of old-time naval battles if one could read true stories of all the hundred and one personal incidents of the fighting that must have occurred in the days of old. Imagine the adventure that could be contained in a book truly describing the fighting incidents of Trafalgar! What an insight it would give us into the character and courage of the men who served Nelson. So this book of the Fighting at Jutland is an endeavour to fill a like gap for the one fleet action of the War of 1914-18. (From the Introduction) This book benefits from the inclusion a useful supporting narrative of the action in detail and at large to give the experiences of the individual authors context and to clarify their role in the wider conflict, as well as numerous photographs, illustrations, maps and diagrams demonstrating the manoeuvring of vessels. Available in softcover and hardcover with dustjacket.

The Air War at Sea in the Second World War Martin W Bowman,2023-06-30 Martin Bowman’s considerable experience as a military historian has spanned over forty years, during which time he has spent hundreds of hours interviewing and corresponding with numerous men and women and their relatives, in Britain, America and beyond, resulting in a wealth of material on the war at sea from World War One to the Falklands and the wars on terror. All these narratives have been woven into a highly readable and emotional outpouring of life and death in action in all his titles, as here, in World War Two, where the men of the Fleet Air Arm and the US Navy fighter (operating bomber and torpedo carrying aircraft) describe the compelling, gripping and thought-provoking narrative of the air war in the freezing Atlantic wastes to the waters of the mighty Pacific.

Naval Battles of the World Edward Shippen,1898

The Shining Sea George Daughan,2013-10-08 A few months after the outbreak of the War of 1812, Captain David Porter set out in the USS Essex on an epic, seventeen-month cruise to the South Seas. Porter was pursuing fame and riches, and by most accounts his odyssey was a stunning success: it brought glory to the fledgling American navy, cemented Porter’s reputation as a daring and talented commander, and has long been celebrated as one of the greatest maritime adventures in U.S. history. Less well known, however, is the terrible price that the crew of the Essex paid for their captain’s outsized ambitions. In The Shining Sea, award-winning historian George C. Daughan tells the full story of Porter’s thrilling, action-packed voyage, revealing the heights of Porter’s hubris and the true depths of his failure on this fateful cruise. Intent on achieving personal glory, Porter made the treacherous journey around Cape Horn and into the Pacific Ocean, where he planned to capture a British man-of-war. From Valparaiso to the Galapagos to the Marquesas, the Essex roamed the South Seas, seizing British whaling and merchant ships, wreaking havoc on British commerce, and earning Porter and his men wealth and acclaim. Flush with his victories, Porter welcomed the news that a British frigate—the HMS Phoebe—was on his tail, and he resolved to capture her. But Porter could not overcome the Phoebe’s superior firepower. Over the course of a desperate, bloody battle, he lost the Essex and over two-thirds of her crew—a shocking end to a daring journey. A swashbuckling tale of risk and ruin on the high seas, The Shining Sea brings to life the monomaniacal quest of one of the most misunderstood commanders of the War of 1812. Porter’s singular voyage, Daughan shows, stands as a cautionary tale for any leader who would put personal glory and ambition ahead of cause and countrymen.

Pacific Crucible: War at Sea in the Pacific, 1941-1942 (Vol. 1) (The Pacific War Trilogy) Ian W. Toll, 2011-11-14 Winner of the Northern California Book Award for Nonfiction Both a serious work of history...and a marvelously readable dramatic narrative. —San Francisco Chronicle On the first Sunday in December 1941, an armada of Japanese warplanes appeared suddenly over Pearl Harbor, Hawaii, and devastated the U.S. Pacific Fleet. Six months later, in a sea fight north of the tiny atoll of Midway, four Japanese aircraft carriers were sent into the abyss, a blow that destroyed the offensive power of their fleet. *Pacific Crucible*—through a dramatic narrative relying predominantly on primary sources and eyewitness accounts of heroism and sacrifice from both navies—tells the epic tale of these first searing months of the Pacific war, when the U.S. Navy shook off the worst defeat in American military history to seize the strategic initiative.

Sea and Air Fighting David Bilton, 2016-11-30 This is a compelling book for lovers of sea and air stories from the Great War era. In the thirteen stories told by the participants, many of whom were decorated for bravery, they describe their experiences of events: stories of luck, tenacity, courage, extreme danger, excitement and bravery. Also included are photographs to help set the scene for the vignettes and details of the authors' lives where possible. Seven stories detail the war at sea, while the other six reflect the war in the air from a civilian and combatant point of view. The exciting thing about the stories, apart from their freshness, is that they have remained unpublished for nearly eighty years and they are written by participants who describe exactly what they experienced and felt. Mrs Peel describes what an air raid was like from a civilian's point of view, and pilots describe both the humdrumness of some of their work and how it could suddenly change in to a fight for their life, in which luck often played a part in their survival. At sea, the authors describe the struggle to overcome the U-boat menace using Q ships and reveal the boredom, suspense and danger involved in laying a trap. The Battle of Jutland is described from an officer's active view of events, and the sinking of the *Audacious* is described by someone who was aboard and sworn to silence about the events. There is also the exciting story of the chase and fight between the *Carmania* and the *Cap Trafalgar*.

The Crimean War at Sea Peter Duckers, 2011-07-12 Too often historical writing on the Russian War of 1854-56 focuses narrowly on the land campaign fought in the Crimean peninsula in the Black Sea. The wider war waged at sea by the British and French navies against the Russians is ignored. The allied navies aimed to strike at Russian interests anywhere in the world where naval force could be brought to bear, and as a result campaigns were waged in the Baltic, the Black Sea, the White Sea, on the Russian Pacific coast and in the Sea of Azoff. Yet it is the land campaign in the Crimea that shapes our understanding of events. In this graphic and original study, Peter Duckers seeks to set the record straight. He shows how these neglected naval campaigns were remarkably successful, in contrast to the wretched failures that beset the British army on land. Allied warships ranged across Russian waters sinking shipping, disrupting trade, raiding ports, bombarding fortresses, destroying vast quantities of stores and shelling coastal towns. The scale and intensity of the naval operations embarked upon during the war are astonishing, and little appreciated, and this new book offers the first overall survey of them.
